Amazon AWS-Advanced-Networking-Specialty Certification Practice | Reliable AWS-Advanced-Networking-Specialty Exam Questions

We are living in the highly competitive world now. We have no choice but improve our soft power, such as get AWS-Advanced-

Networking-Specialty certification. It is of great significance to have AWS-Advanced-Networking-Specialty guide torrents to pass exams as well as highlight your resume, thus helping you achieve success in your workplace. If you want to pass your AWS-Advanced-Networking-Specialty Exam and get your certification, we can make sure that our AWS-Advanced-Networking-Specialty guide questions will be your ideal choice. Our company will provide you with professional team, high quality service and reasonable price on AWS-Advanced-Networking-Specialty exam questions.

Amazon AWS Certified Advanced Networking Specialty (ANS-C00) Exam Sample Questions (Q49-Q54):

NEW QUESTION # 49
A company has deployed a production environment in the AWS Cloud. The environment is contained in a VPC and includes a virtual private gateway. The company has established an AWS Direct Connect connection. which includes a private Virtual Interface (VIF), and a VPN connection to the on-premises data center.
For traffic originating in the VPC, what is the order of BGP path selection from MOST preferred to LEAST preferred?

- A. Direct Connect BGP routes; static routes; longest prefix match; VPN BGP routes.
- B. Longest prefix match; static routes; Direct-Connect BGP routes; VPN BGP routes.
- C. Static routes; longest prefix match; Direct Connect BGP routes; VPN BGP routes.
- D. Longest prefix match; VPN BGP routes; static routes; Direct Connect BGP routes.

Answer: B

NEW QUESTION # 50
Your company just purchased a domain using another registrar and wants to use the same nameservers as your current domain hosted with AWS. How would this be achieved? Choose the correct answer:

- A. In the API, create a Reusable Delegation Set.
- B. Every domain must have different nameservers.
- C. In the console, create a Reusable Delegation Set.
- D. Import the domain to your account and it will automatically set the same nameservers.

Answer: A

Explanation:
You can't create a reusable delegation set in the console. AWS does not provide the same nameservers to new domains, but a reusable delegation set can be used with as many domains as you like.

NEW QUESTION # 51
Your company has a 1-Gbps AWS Direct Connect connection to AWS. Your company needs to send traffic from on-premises to a VPC owned by a partner company. The connectivity must have minimal latency at the lowest price.
Which of the following connectivity options should you choose?

- A. Create a new Direct Connect connection, and set up a new circuit to connect to the partner VPC using a private virtual interface.
- B. Create a new Direct Connect connection, and leverage the existing circuit to connect to the partner VPC.
- C. Create a new private virtual interface, and leverage the existing connection to connect to the partner VPC.
- D. Enable VPC peering and use your VPC as a transitive point to reach the partner VPC.

Answer: C

Explanation:

NEW QUESTION # 52
A company has recently established an AWS Direct Connect connection from its on-premises data center to AWS. A Network Engineer has blocked all traffic destined for Amazon S3 over the company's gateway to the internet from its on-premises firewall. S3

traffic should only traverse the Direct Connect connection.

Currently, no one in the on-premises data center can access Amazon S3.

Which solution will resolve this connectivity issue?

- A. Establish an S3 VPC endpoint for the company's Amazon VPC. Configure a private virtual interface on the Direct Connect connection. Update the on-premises routing tables to choose Direct Connect as the preferred next hop
- B. Configure a public virtual interface on the Direct Connect connection. Establish an AWS managed VPN over the connection. Update the on-premises routing tables to choose the VPN connection as the preferred next hop.
- C. Configure a public virtual interface on the Direct Connect connection. Update the on-premises routing tables to choose Direct Connect as the preferred next hop for traffic destined for Amazon S3.
- D. Configure a private virtual interface on the Direct Connect connection. Update the on-premises routing tables to choose Direct Connect as the preferred next hop for traffic destined for Amazon S3.

Answer: D

NEW QUESTION # 53

AWS CloudTrail can be configured to _____ log files across multiple accounts and regions so that log files are delivered to a single bucket.

- A. encrypt
- B. replicate
- C. aggregate
- D. disperse

Answer: C

Explanation:

You can configure CloudTrail to aggregate log files from multiple regions and deliver them to a single S3 bucket for a single account.
