

Pass Guaranteed Perfect C-DBADM-2601 - Flexible SAP Certified - Database Administrator - SAP HANA Learning Mode

Three versions for C-DBADM-2601 exam materials are available, and you can choose the most suitable one according to your own needs. C-DBADM-2601 PDF version is printable, and if you like the hard one, you can print them into paper. C-DBADM-2601 Soft test engine supports MS operating system, and it can install in more than 200 computers, and it can also stimulate the real exam environment, so that you know the procedures for the exam. C-DBADM-2601 Online soft test engine is convenient and easy to learn, and it has testing history and performance review, and you can have a review what you have learnt.

While making revisions and modifications to the SAP Certified - Database Administrator - SAP HANA (C-DBADM-2601) practice exam, our team takes reports from over 90,000 professionals worldwide to make the SAP Certified - Database Administrator - SAP HANA (C-DBADM-2601) exam questions foolproof. To make you capable of preparing for the SAP C-DBADM-2601 exam smoothly, we provide actual SAP C-DBADM-2601 exam dumps.

>> Flexible C-DBADM-2601 Learning Mode <<

100% Pass 2026 Reliable SAP Flexible C-DBADM-2601 Learning Mode

Many candidates know our exam bootcamp materials are valid and enough to help them clear SAP C-DBADM-2601 exams. But they are afraid that purchasing on internet is not safe, money unsafe and information unsafe. In fact you may worry too much. Online sale is very common. Every year there are thousands of candidates choose our C-DBADM-2601 Exam Bootcamp materials and pass exam surely. Money is certainly safe. PayPal will guarantee your money and your benefits safe. We have strict information secret system to guarantee that your information is safe too.

SAP Certified - Database Administrator - SAP HANA Sample Questions (Q95-Q100):

NEW QUESTION # 95

A regional education services provider is rehearsing a move from SAP HANA on-premises to SAP HANA Cloud. The rehearsal export completes, and the target database is reachable. During validation, the administrator finds that the migration checklist confirms data transfer but does not include a verified rollback reference for the source system if post-migration administration checks fail. The project manager wants to proceed because the transfer finished within the allowed window.

The constraint is that the administrator must support phased modernization without approving a migration wave that lacks recoverability evidence. The production decision must include both successful transfer and a validated fallback position. Which recommendation is most appropriate?

- A. Proceed with approval because the rehearsal export completed and the SAP HANA Cloud target is reachable.
- B. Approve the migration and create the rollback reference only if post-migration checks fail after cutover.
- C. Repeat the export with a smaller dataset so the transfer can finish faster during the production window.
- D. Add rollback-reference validation to the rehearsal evidence, then repeat the decision only after transfer, target checks, and fallback readiness are confirmed.

Answer: D

Explanation:

Feedback:

This resolves the migration readiness gap while preserving phased modernization. Validating transfer, target administration checks, and fallback readiness ensures the migration wave has both execution evidence and recoverability support.

NEW QUESTION # 96

CHALLENGE 2 - Maintenance Simulation Monitoring Baseline

Patient-flow analytics varied during the planned maintenance simulation, and the clinical operations lead requests tuning before the readiness review closes. The monitoring baseline has not been fully captured, and some thresholds still reflect the earlier steady-state reporting profile. What should the database owner do first?

- A. Apply tuning immediately because patient-flow analytics affects operational readiness.
- B. Disable maintenance simulation alerts so the review focuses only on report completion.
- C. Move the tuning decision to SAP HANA Cloud because future analytics may migrate there.
- **D. Capture the current monitoring baseline and validate threshold relevance before tuning.**

Answer: D

Explanation:

Feedback:

The database owner should capture the baseline and validate threshold relevance before tuning. This prevents performance changes from obscuring the current readiness evidence.

NEW QUESTION # 97

A subscription services provider operates SAP HANA in a mixed environment. After a planned configuration adjustment intended to improve throughput, administrators observe that nightly batch processing finishes on time, but interactive analyst queries now show intermittent delays. Monitoring shows no broad system outage, and memory consumption remains stable. CPU peaks occur only during specific interactive workload windows.

The platform owner wants a correction that preserves the batch improvement while avoiding a broad reversal of the recent tuning changes. The team must decide based on actual workload behavior rather than a general assumption that the entire configuration set should be rolled back.

What is the best next step?

- **A. Compare the changed configuration against the affected workload pattern and adjust only the setting that is degrading interactive execution behavior.**
- B. Increase system memory allocation first because stable memory use indicates the system is close to its capacity boundary.
- C. Move the interactive workload to the cloud database without further analysis because the current landscape already supports mixed deployment.
- D. Reverse all recent configuration changes immediately because any slowdown after tuning proves the full change set was invalid.

Answer: A

NEW QUESTION # 98

A digital publishing company operates SAP HANA for subscriber activity reporting. Users report that dashboards are available, but refresh times vary sharply during the morning reporting window. SAP HANA cockpit shows no service outage, while monitoring history shows a recurring peak in expensive statement activity from a reporting workload. The database team is asked to increase system capacity immediately because the reports are business-critical.

The constraint is that the administrator must identify the execution pattern before recommending a capacity or scheduling change.

The business requires stable refresh times, but the system must remain available during investigation.

Which action best fits the observed performance evidence?

- A. Restart SAP HANA during the reporting window so existing expensive statements are cleared before users refresh dashboards.
- B. Increase capacity immediately because dashboard variability always indicates insufficient database resources.

- C. Disable the reporting workload until the next maintenance window so all expensive statements are removed from the system.
- **D. Review the expensive statement pattern and workload timing, then apply a targeted scheduling or workload adjustment based on validated evidence.**

Answer: D

Explanation:

Feedback:

This acts on the monitored execution evidence before changing the operating model. Reviewing expensive statement behavior and timing supports a targeted correction that links workload activity, resource use, and dashboard refresh validation.

NEW QUESTION # 99

CHALLENGE 1 - Cutover Configuration Evidence Traceability

A database administrator proposes accepting the cutover comparison now and adding a note that one configuration value was documented outside the current record. Which response is most defensible?

- **A. Require the current administration record to reflect the active value before comparison acceptance.**
- B. Ignore the note because monitoring notes already prove the configuration was observed.
- C. Move the value review to the cloud migration workstream to avoid release delay.
- D. Accept the note because it acknowledges the difference without delaying cutover preparation.

Answer: A

Explanation:

Feedback:

The current administration record should reflect the active value before the comparison is accepted. A note may identify the evidence source, but it does not replace an aligned operational record.

NEW QUESTION # 100

.....

It is a common sense that in terms of a kind of C-DBADM-2601 test torrent, the pass rate would be the best advertisement, since only the pass rate can be the most powerful evidence to show whether the C-DBADM-2601 guide torrent is effective and useful or not. We are so proud to tell you that according to the statistics from the feedback of all of our customers, the pass rate of our C-DBADM-2601 Exam Questions among our customers who prepared for the exam under the guidance of our C-DBADM-2601 test torrent has reached as high as 98% to 100%.

Free C-DBADM-2601 Download: https://www.getcertkey.com/C-DBADM-2601_braindumps.html

In terms of our C-DBADM-2601 training materials, the pass rate is one of the aspects that we take so much pride in because according to the statistics from the feedbacks of all of our customers, under the guidance of our C-DBADM-2601 preparation materials, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field, You may hear our website from your friends, colleagues or classmates for we have become a brand and professional on the C-DBADM-2601 practice engine.

The outlined dark blue tile is the basic unit, Select all elements that are disabled, In terms of our C-DBADM-2601 training materials, the pass rate is one of the aspects that we take so much pride in because according to the statistics from the feedbacks of all of our customers, under the guidance of our C-DBADM-2601 Preparation materials, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field.

Fast, Hands-On C-DBADM-2601 Exam-Preparation Questions

You may hear our website from your friends, colleagues or classmates for we have become a brand and professional on the C-DBADM-2601 practice engine, So, subscribing to some good blogs is a perfect decision to get prepared for the SAP Certification Exams C-DBADM-2601 certification exam.

Easily & Instant Download C-DBADM-2601 Dumps You can easily and instant download latest and verified C-DBADM-2601 dumps from ExamsLead, Passing the C-DBADM-2601 exam certification will be easy and fast, if you have the right resources at

your hands.
