High Pass-Rate Lab NIS-2-Directive-Lead-Implementer Questions - Trustworthy NIS-2-Directive-Lead-Implementer Exam Tool Guarantee Purchasing Safety

If you are finding a study material to prepare your exam, our material will end your search. Our NIS-2-Directive-Lead-Implementer exam torrent has a high quality that you can't expect. I think our PECB Certified NIS 2 Directive Lead Implementer prep torrent will help you save much time, and you will have more free time to do what you like to do. I can guarantee that you will have no regrets about using our NIS-2-Directive-Lead-Implementer Test Braindumps. When the time for action arrives, stop thinking and go in, try our NIS-2-Directive-Lead-Implementer exam torrent, you will find our products will be a very good choice for you to pass your exam and get you certificate in a short time.

PECB NIS-2-Directive-Lead-Implementer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Planning of NIS 2 Directive requirements implementation: This domain targets Project Managers and Implementation Specialists focusing on how to initiate and plan the rollout of NIS 2 Directive requirements. It includes using best practices and methodologies to align organizational processes and cybersecurity programs with the directive's mandates.
Topic 2	<ul style="list-style-type: none">Cybersecurity controls, incident management, and crisis management: This domain focuses on Security Operations Managers and Incident Response Coordinators and involves implementing cybersecurity controls, managing incident response activities, and handling crisis situations. It ensures organizations are prepared to prevent, detect, respond to, and recover from cybersecurity incidents effectively.
Topic 3	<ul style="list-style-type: none">Testing and monitoring of a cybersecurity program: This domain assesses the abilities of Security Auditors and Compliance Officers in testing and monitoring the effectiveness of cybersecurity programs. Candidates learn to design and conduct audits, continuous monitoring, performance measurement, and apply continual improvement practices to maintain NIS 2 Directive compliance.
Topic 4	<ul style="list-style-type: none">Fundamental concepts and definitions of NIS 2 Directive: This section of the exam measures the skills of Cybersecurity Professionals and IT Managers and covers the basic concepts and definitions related to the NIS 2 Directive. Candidates gain understanding of the directive's scope, objectives, key terms, and foundational requirements essential to lead implementation efforts effectively within organizations.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q17-Q22):

NEW QUESTION # 17

On which of the following critical areas does an organization focus when it promotes a culture of awareness and conducts comprehensive training sessions?

- A. Detection and response
- **B. Cyber strategy and governance**
- C. Infrastructure and application security

Answer: B

NEW QUESTION # 18

According to Article 7 of the NIS 2 Directive, what is one of the policies that Member States are required to adopt?

- A. Disaster recovery planning policy
- **B. Supply chain cybersecurity policy**
- C. Physical access control policy

Answer: B

NEW QUESTION # 19

Scenario 2:

MHospital, founded in 2005 in Metropolis, has become a healthcare industry leader with over 2,000 dedicated employees known for its commitment to qualitative medical services and patient care innovation. With the rise of cyberattacks targeting healthcare institutions, MHospital acknowledged the need for a comprehensive cyber strategy to mitigate risks effectively and ensure patient safety and data security. Hence, it decided to implement the NIS 2 Directive requirements. To avoid creating additional processes that do not fit the company's context and culture, MHospital decided to integrate the Directive's requirements into its existing processes. To initiate the implementation of the Directive, the company decided to conduct a gap analysis to assess the current state of the cybersecurity measures against the requirements outlined in the NIS 2 Directive and then identify opportunities for closing the gap.

Recognizing the indispensable role of a computer security incident response team (CSIRT) in maintaining a secure network environment, MHospital empowers its CSIRT to conduct thorough penetration testing on the company's networks. This rigorous testing helps identify vulnerabilities with a potentially significant impact and enables the implementation of robust security measures. The CSIRT monitors threats and vulnerabilities at the national level and assists MHospital regarding real-time monitoring of their network and information systems. MHospital also conducts cooperative evaluations of security risks within essential supply chains for critical ICT services and systems. Collaborating with interested parties, it engages in the assessment of security risks, contributing to a collective effort to enhance the resilience of the healthcare sector against cyber threats.

To ensure compliance with the NIS 2 Directive's reporting requirements, MHospital has streamlined its incident reporting process. In the event of a security incident, the company is committed to issuing an official notification within four days of identifying the incident to ensure that prompt actions are taken to mitigate the impact of incidents and maintain the integrity of patient data and healthcare operations. MHospital's dedication to implementing the NIS 2 Directive extends to cyber strategy and governance. The company has established robust cyber risk management and compliance protocols, aligning its cybersecurity initiatives with its overarching business objectives.

Based on scenario 2, are the cooperative evaluations of security risks carried out in alignment with Article 22 of the NIS 2 Directive?

- A. No, cooperative evaluations should be done by the Cooperation Group, Commission, and ENISA
- **B. Yes, cooperative evaluations are carried out in accordance with Article 22**
- C. No, cooperative evaluations should be done by direct suppliers and service providers

Answer: B

NEW QUESTION # 20

What is the primary focus of cryptanalysis?

- A. To develop encryption keys
- B. To safeguard data
- **C. To analyze and breach secure communication**

Answer: C

NEW QUESTION # 21

A financial institution issued a public statement acknowledging a significant breach that occurred. However, they used complex technical jargon and industry-specific terminology that was difficult for the general public to understand. Which principle of effective communication strategy did the institution fail to apply?

- A. Transparency
- **B. Clarity**
- C. Credibility

Answer: B

NEW QUESTION # 22

.....
