The MB-335 Exam is a comprehensive test that covers a range of topics related to supply chain management. It is divided into several sections, each of which focuses on a particular aspect of supply chain management. MB-335 exam covers topics such as demand forecasting, production planning, inventory management, procurement, sales, distribution, and supply chain analytics. Candidates must demonstrate their ability to apply these concepts to real-world scenarios.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q55-Q60):

NEW QUESTION # 55

You need to implement the scheduled Kanban requirements.

Which rules should you use? To answer, drag the appropriate rules to the correct requirements. Each rule may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Rules	Requirement	Rule
Enforce time-fencing.	Prevent overloading a work cell for scheduled Kanbans. Visualize excess inventory in supermarket.	
Maximum planned jobs.		
Add a production flow version.		
Add a BOM version.		
Alert boundary maximum.		
Add a Kanban calculation policy.		

Answer:

Explanation:

Rules	Requirement	Rule
Enforce time-fencing.	Prevent overloading a work cell for scheduled Kanbans. Visualize excess inventory in supermarket.	Maximum planned jobs.
Maximum planned jobs.		Add a BOM version.
Add a production flow version.		
Add a BOM version.		
Alert boundary maximum.		
Add a Kanban calculation policy.

NEW QUESTION # 56

You need to meet the needs for the large teakwood furniture order.

What must you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Feature
Create production orders for Users	Wave template Release to warehouse Wave template Work template
Production input location	Fixed location Resource group Work template Fixed location

Answer:

Explanation:

Answer Area

Requirement
Create production orders for User6
Production input location

Feature
Wave template
Release to warehouse
Wave template
Work template
Fixed location
Resource group
Work template
Fixed location

Explanation:

Answer Area

Requirement
Create production orders for User6
Production input location

Feature
Wave template
Fixed location

NEW QUESTION # 57

A manufacturing company uses Dynamics 365 Supply Chain Management.

The company identifies a bill of materials (BOM) item that needs to be recalled for a product. The engineering department needs to link customer support incidents and knowledgebase articles related to the product change.

Other items affected by this change must reference the same support incidents and knowledgebase articles.

You need to recommend features to facilitate this business process.

Which features should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Action
Document the changes.
Associate the other items to the knowledgebase articles.

Feature
Case management
BOM version
Case management
Workflow
Document management
Product change
Product change
Where-used
Where-linked products
BOM designer

Answer:

Explanation:

Answer Area

Action
Document the changes.
Associate the other items to the knowledgebase articles.

Feature
Case management
BOM version
Case management
Workflow
Document management
Product change
Product change
Where-used
Where-linked products
BOM designer

Explanation:

Answer Area

Action	Feature
Document the changes.	Case management
Associate the other items to the knowledgebase articles.	Product change

NEW QUESTION # 58

You need to determine the batch values on the combined mix batches for OperatorA.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Field	Merged result
Batch Number	<div>Based on batch group</div> <div>Manually entered</div> <div>Based on batch group</div> <div>Lowest</div> <div>Highest</div>
Expiration Date	<div>Manually entered</div> <div>Based on batch dates group</div> <div>Manually entered</div> <div>Lowest</div> <div>Highest</div>
Lot/Serial Control Number	<div>All are retained</div> <div>All are retained</div> <div>Manually entered</div> <div>Lowest</div> <div>Highest</div>

Answer:

Explanation:

Answer Area	
Field	Merged result
Batch Number	Based on batch group Manually entered Based on batch group Lowest Highest
Expiration Date	Manually entered Based on batch dates group Manually entered Lowest Highest
Lot/Serial Control Number	All are retained All are retained Manually entered Lowest Highest

Explanation:

A screenshot of a computer Description automatically generated

Answer Area	
Field	Merged result
Batch Number	Based on batch group
Expiration Date	Manually entered
Lot/Serial Control Number	All are retained

NEW QUESTION # 59

You need to configure costing for raw materials used to manufacture unscented cleaning solution.

Which form should you use?

- A. Cost basis type
- B. Pricing calculation
- **C. Quantity and margin template**
- D. Pricing template

Answer: C

Explanation:

Reference:

<https://docs.microsoft.com/en-us/dynamicsax-2012//quantity-and-margin-template-form?redirectedfrom=MSDN>

* Production is Make to Order and is scheduled at the job level. Products must be manufactured in batches.

* Finished products must be packaged and shipped directly from the warehouse.

* You must be able to calculate the estimated consumption of ingredients and ensure that the amount is divisible by the number of units the raw material is available.

* Formula changes must be reviewed and approved. You must ensure that approved formulas cannot be deleted or edited. Approved formulas may be deactivated.

* An ingredient used to manufacture unscented cleaning solution is defined as a restricted product. You must be able to automatically print a product safety data sheet (PSDS) with the packing slip for any order that includes unscented cleaning solution.

* Production must be scheduled to start by date and time according to the order that is specified by the production route.

* You must implement a scheduled Kanban rule that meets the following requirements:

- o Prevent overloading a work cell for scheduled Kanbans.
- o Visualize excess inventory in a supermarket.

o Store products in supermarkets before they are consumed or shipped.

* You must link relevant financial dimension data to the inventory transactions at each site to ensure that you can trace profit and loss figures directly to East site and West site respectively.

* You must set up production operations for sub-contracting of Pine scent and Orange scent solution to VendorA to ensure that a purchase order is automatically created based on estimation of a production order.

Costing

* The price of raw materials used for manufacturing unscented cleaning solution must be tracked based upon commodity exchange pricing. The margin and cost multiplier must be set up for commodity traded raw material.

* You must set up cost calculation groups to ensure that indirect costs that originate in the manufacturing of finished goods are recognized and absorbed into the product cost.

* The production manager needs to set up picking list journals and BOM item consumption.

Reporting

* Production control parameters must be setup for reporting of automatic BOM and Route consumption.

* You must create reports that include information about cost records and categories for items, and calculation formulas for indirect costs.

* You must treat manufactured items as purchased items for cost roll-up purposes during BOM calculations and reporting.

* You must configure automatic route consumption in connection with the automatic running of Report as finished.

Inventory control

You must not be required to track the lot number for items when you enter inventory information into the system. Lot numbers for items must be entered when items are picked from inventory.

Issues

Users report the following issues:

* The production manager observes that items are being deducted from inventory two times on production jobs. A shop supervisor mistakenly registers the process for assembling batteries for the pressure washers to Registered as prepared. You must reschedule the process for a future date.

* Customer1 orders 20 barrels of unscented solution. The order is confirmed. Production must be scheduled to start on December 21 to meet the customer's delivery deadline.

* User2 reports that costs for manufactured items are twice as high as expected.

* UserD reports that the formula for the liquid cleaning solution sometimes changes during production. You must enforce the policies regarding formula editing for current and future use.

NEW QUESTION # 60

.....

With MB-335 study engine, you will get rid of the dilemma that you work hard but cannot improve. With our MB-335 learning materials, you can spend less time but learn more knowledge than others. MB-335 exam questions will help you reach the peak of your career. Just think of that after you get the Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert MB-335 Certification, you will have a lot of opportunities of going to bigger and better company and getting higher incomes!
