

Quiz 2026 Accurate Huawei H19-402_V1.0: HCSP-Presales-Data Center Network Planning and Design V1.0 Hottest Certification

BONUS!!! Download part of TestsDumps H19-402_V1.0 dumps for free: <https://drive.google.com/open?id=1ysHVJt-HrOz8kOdbyZGi19yq2ADHNkj3>

Sharp tools make good work. Valid H19-402_V1.0 test questions and answers will make your exam easily. If you still feel difficult in passing exam, our products are suitable for you. H19-402_V1.0 test questions and answers are worked out by TestsDumps professional experts who have more than 8 years in this field. With so many years' development, we can keep stable high passing rate for Huawei H19-402_V1.0 Exam. You will only spend dozens of money and 20-30 hours' preparation on our H19-402_V1.0 test questions, passing exam is easy for you.

Huawei H19-402_V1.0 Exam Overview:

Certification Vendor:	Huawei
Exam Name:	HCSP-Presales Data Center Network Planning and Design V1.0
Exam Number:	H19-402_V1.0
Certificate Validity Period:	3 years
Exam Format:	Case-based questions, Multiple choice questions, Single choice questions
Exam Price:	Varies by region (~USD 200)
Related Certifications:	HCSP-Presales HCIP-Datacom HCIA-Datacom
Available Languages:	English, Chinese
Exam Duration:	90-120
Real Exam Qty:	60-70
Recommended Training:	Huawei Official Training (HCSP Presales Datacenter Network)
Exam Registration:	Huawei Talent Official Certification Portal
Sample Questions:	Huawei H19-402_V1.0 Sample Questions
Exam Way:	Online proctored or authorized testing center
Pre Condition:	Recommended: HCIA-Datacom or equivalent networking knowledge
Official Syllabus URL:	https://e.huawei.com/en/talent

Reliable H19-402_V1.0 Test Tutorial | Latest H19-402_V1.0 Test Guide

It is the right time to advance your professional career. You can do this easily after passing the HCSP-Presales-Data Center Network Planning and Design V1.0 H19-402_V1.0 certification exam. To pass the Huawei H19-402_V1.0 exam the Huawei H19-402_V1.0 Exam Practice test questions are the right choice. The updated and real Huawei Dumps are ready for download. Just download and start preparation.

Huawei H19-402_V1.0 (HCSP-Presales-Data Center Network Planning and Design V1.0) Exam is a top-notch certification exam that tests the skills and knowledge of individuals working in the field of data center network planning and design. H19-402_V1.0 exam is continually updated to reflect changes in the industry, which makes it an excellent way to stay up to date with the latest trends and technologies. Passing H19-402_V1.0 Exam demonstrates that you have the skills and knowledge to plan, design, implement, optimize, and maintain a cutting-edge data center network that meets the needs of modern businesses.

Huawei HCSP-Presales-Data Center Network Planning and Design V1.0 Sample Questions (Q23-Q28):

NEW QUESTION # 23

What type of UPS is UPS5000-E (50kVA power module)? (Multiple choice)

- A. Rack tower compatible
- B. Industrial frequency machine
- C. Modularity
- D. High frequency machine

Answer: C,D

NEW QUESTION # 24

(In the intelligent O & M scenario of the CloudFabric Solution, which of the following southbound collection protocol is not supported?)

- A. ERSPAN
- B. SNMP
- C. Qx
- D. Telemetry
- E. NetStream

Answer: C

Explanation:

In Huawei CloudFabric intelligent O & M (Operations and Maintenance), multiple southbound data collection protocols are supported to enable comprehensive monitoring, analysis, and fault diagnosis. Commonly supported protocols include Telemetry, SNMP, NetStream, and ERSPAN .

Telemetry is the primary modern mechanism, providing real-time streaming data with high accuracy and low latency. SNMP is used for traditional device monitoring and alarm collection. NetStream (Huawei's implementation of NetFlow) is used for traffic analysis, while ERSPAN enables remote traffic mirroring for deep packet inspection and troubleshooting.

However, Qx is not a standard or supported southbound protocol in Huawei CloudFabric O & M architecture.

It is not referenced in Huawei documentation as a mechanism for data collection or monitoring.

Therefore, option B is correct because it identifies the protocol that is not supported , while all other options are valid and commonly used in Huawei intelligent O & M solutions.

NEW QUESTION # 25

Which of the following does the FusionModule2000 product configuration framework include? (Multiple choice)

- A. Monitoring system

- B. Power supply and distribution system
- C. Refrigeration system
- D. Cabinet System

Answer: A,B,C,D

NEW QUESTION # 26

In each VPC, you can create one logical router, multiple logical switches, and multiple logical ports.

- A. FALSE
- B. TRUE

Answer: B

Explanation:

In Huawei CloudFabric and cloud networking models (aligned with OpenStack and SDN-based architectures), a VPC (Virtual Private Cloud) represents an isolated tenant network environment that contains multiple logical networking components.

Within a VPC:

A logical router provides Layer 3 routing and interconnection between subnets . Typically, one logical router is associated with a VPC to manage north-south and east-west routing.

Multiple logical switches (VXLAN networks or BDs) can be created to represent different Layer 2 segments within the same tenant environment.

Each logical switch can have multiple logical ports , which represent VM interfaces, containers, or service endpoints connected to the network.

This hierarchical design allows:

Flexible network segmentation

Multi-tier application deployment (web/app/db tiers)

Scalable tenant isolation

Huawei CloudFabric, integrated with platforms like iMaster NCE-Fabric and ManageOne , automates the creation and orchestration of these components.

Therefore, the statement is TRUE , as it accurately reflects the standard VPC network model.

NEW QUESTION # 27

The UPS system is equipped with 32 12V batteries. What is the floating charge voltage set by the UPS?

- A. 564V
- B. 432V
- C. 451V
- D. 540V

Answer: B

NEW QUESTION # 28
