## 최신 Enterprise Architecture OGEA-10B 무료샘플문제 (Q61-Q66):

질문 # 61

What is the purpose of the Preliminary Phase?

- A. Identifying the stakeholders and their requirements.
- B. Defining the Enterprise Strategy.
- C. Developing an Enterprise Architecture Capability.
- D. Describing the target architecture.

정답: C

설명:

An Enterprise Architecture Capability is the ability of the organization to perform effective and efficient architecture work, including the definition, governance, and management of its architectures<sup>2</sup>. The Preliminary Phase involves the following activities<sup>1</sup>:

\*Reviewing the organizational context, scope, and drivers for conducting Enterprise Architecture

\*Establishing the Architecture Capability desired by the organization, including the maturity level, roles, responsibilities, processes, and tools

\*Defining and establishing the Organizational Model for Enterprise Architecture, which describes how the architecture function is organized and integrated within the enterprise

\*Defining and establishing the Architecture Governance framework, which provides the mechanisms for ensuring the quality, consistency, and compliance of the architecture work

\*Selecting and implementing the tools that support the Architecture Capability, such as repositories, modeling tools, and communication tools

\*Defining the Architecture Principles that will guide and constrain the architecture work, based on the business principles, goals, and drivers of the organization

\*Defining the Organization-Specific Architecture Framework, which is an adaptation of the generic TOGAF ADM to suit the specific requirements, standards, and practices of the organization. The Preliminary Phase is essential for preparing the organization for the successful development and implementation of its architectures, as well as for ensuring the alignment of the architecture work with the business strategy and objectives<sup>1</sup>.

질문 # 62

Complete the sentence The Enterprise Continuum provides methods for classifying architecture artifacts as they evolve from \_\_\_\_\_.

- A. generic architectures to Organization-Specific Architectures
- B. Foundation Architectures to re-usable architecture assets
- C. generic architectures to reusable Solution Building Blocks
- D. Solutions Architectures to Solution Building Blocks

정답: A

설명:

The Enterprise Continuum provides methods for classifying architecture artifacts as they evolve from generic architectures to Organization-Specific Architectures. Generic architectures are architectures that have been developed for use across a wide range of enterprises with similar characteristics. They provide common models, functions, and services that can be reused and adapted for specific purposes. Organization-Specific Architectures are architectures that have been tailored to meet the needs and requirements of a particular enterprise or a major organizational unit within an enterprise. They reflect the unique vision, goals, culture, structure, processes, systems, and technologies of that enterprise or unit. 질문 # 63

What is presented as "striking a balance between positive and negative outcomes resulting from the realization of either opportunities or threats?

- A. Risk Management
- B. Transition Management
- C. Agile development
- D. Architecture Security

정답: A

### 설명:

Risk Management is the process of identifying, assessing, and responding to risks that may affect the achievement of the enterprise's objectives. Risk Management involves balancing positive and negative outcomes resulting from the realization of either opportunities or threats. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.3 Risk Management.

### 질문 # 64

Which section of the TOGAF template for Architecture Principles should highlight the business benefits of adhering to the principle?

- A. Rationale
- B. Name
- C. Statement
- D. Implications

정답: A

### 설명:

According to the TOGAF Standard, 10th Edition, the rationale section of the architecture principles template should highlight the business benefits of adhering to the principle, as well as the business risks of not adhering to it 1. The rationale section should explain the reasoning behind the principle, and provide evidence or arguments to support it. The rationale section should also link the principle to the business drivers, goals, and objectives of the enterprise, and show how the principle contributes to the value and success of the enterprise.

The other options are not correct, as they have different purposes in the architecture principles template. The name section should provide a short and memorable name for the principle, such as "Information is an Asset" or "Business Continuity" 1. The statement section should provide a concise and formal statement of the principle, such as "The enterprise's information is recognized as a core asset, and is managed accordingly" or

"The enterprise's ability to provide critical services and products must be maintained in the event of a disaster"

1. The implications section should identify the impact of the principle on the enterprise, such as the changes, costs, benefits, and risks that may result from applying or violating the principle 1. ### 질문 # 65

Complete the sentence. Actions arising from the Business Transformation Readiness Assessment technique should be incorporated in the

- A. Implementation Governance Model
- B. Architecture Roadmap
- C. Implementation and Migration Plan
- D. Architecture Requirements Specification

정답: C

### 설명:

The Business Transformation Readiness Assessment technique is used to evaluate the readiness of the organization to undergo change and to identify the actions needed to increase the likelihood of a successful business transformation. These actions should be incorporated in the Implementation and Migration Plan, which is the detailed plan to transition from the Baseline Architecture to the Target Architecture. The Implementation and Migration Plan also includes the Transition Architectures, the Architecture Building Blocks, the Work Packages, the Implementation Governance Model, and the Architecture Contract12 References: 1: The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 27: Business Transformation Readiness Assessment 2: The TOGAF Standard, Version 9.2, Part II:
