Exam CCAAK Passing Score & CCAAK Reliable Practice Questions

Our CCAAK exam simulation is a great tool to improve our competitiveness. After we use our study materials, we can get the Confluent certification faster. This certification gives us more opportunities. Compared with your colleagues around you, with the help of our CCAAK preparation questions, you will also be able to have more efficient work performance. Our CCAAK Study Materials can bring you so many benefits because they have the following features. I hope you can use a cup of coffee to learn about our CCAAK training engine. Perhaps this is the beginning of your change.

Our company has established a long-term partnership with those who have purchased our CCAAK exam guides. We have made all efforts to update our product in order to help you deal with any change, making you confidently take part in the exam. We will inform you that the CCAAK Study Materials should be updated and send you the latest version in a year after your payment. We will also provide some discount for your updating after a year if you are satisfied with our CCAAK exam prepare.

NEW Confluent CCAAK DUMPS (PDF) AVAILABLE FOR INSTANT DOWNLOAD [2026]

We have a team of experts curating the real CCAAK questions and answers for the end users. We are always working on updating the latest CCAAK questions and providing the correct CCAAK answers to all of our users. We provide free updates for one year from the date of purchase. You can benefit from the updates CCAAK Preparation material, and you will be able to pass the CCAAK exam in the first attempt.

Confluent Certified Administrator for Apache Kafka Sample Questions (Q45-Q50):

NEW QUESTION # 45
The Consumer property 'auto offset reset' determines what to do if there is no valid offset for a Consumer Group.
Which scenario is an example of a valid offset and therefore the 'auto.offset.reset' does NOT apply?

- A. When an offset points to a message that has been removed by compaction but is still within the current partition.offset range.
- B. The Consumer Group started for the first time.
- C. The Consumer offset is less than the smallest offset in the partition (log start offset).
- D. The Consumer offset is greater than the last offset in the partition (log end offset).

Answer: A

Explanation:

In this scenario, the offset itself is still valid, even though the record at that offset was compacted away. The consumer can continue consuming from the next available record. Therefore, auto.offset.reset does NOT apply, because there is a valid offset present.

NEW QUESTION # 46
Which of the following are Kafka Connect internal topics? (Choose three.)

- A. connect-offsets
- B. connect-status
- C. connect-standalone
- D. connect-distributed
- E. connect-configs

Answer: A,B,E

Explanation:
connect-configs stores connector configurations.
connect-status tracks the status of connectors and tasks (e.g., RUNNING, FAILED).
connect-offsets stores source connector offsets for reading from external systems.

NEW QUESTION # 47
When a broker goes down, what will the Controller do?

- A. Trigger a leader election among the remaining followers to distribute leadership.
- B. Wait for a follower to take the lead.
- C. Become the leader for the topic/partition that needs a leader, pending the broker return in the cluster.
- D. Automatically elect the least loaded broker to become the leader for every orphan's partitions.

Answer: A

Explanation:
When a broker goes down, the Controller detects the failure and triggers a leader election for all partitions that had their leader on the failed broker. The leader is chosen from the in-sync replicas (ISRs) of each partition.

NEW QUESTION # 48
You have a Kafka cluster with topics t1 and t2. In the output below, topic t2 shows Partition 1 with a leader "-1".
What is the most likely reason for this?
...
$ kafka-topics --zookeeper localhost:2181 --describe --topic t1
Topic:t1 PartitionCount 1 ReplicationFactor 1 Configs:
Topic: t1 Partition: 0 Leader: 0 Replicas: 0 Isr: 0
$ kafka-topics --zookeeper localhost:2181 --describe --topic t2
Topic:t2 PartitionCount 2 ReplicationFactor 1 Configs:
Topic: t2 Partition: 0 Leader: 0 Replicas: 0 Isr: 0
Topic: t2 Partition: 1 Leader: -1 Replicas: 1 Isr:

- A. Broker 1 failed.
- B. Compression has been enabled on Broker 1.
- C. Broker 1 has another partition clashing with the same name.
- D. Leader shows "-1" while the log cleaner thread runs on Broker 1.

Answer: A

Explanation:
A Leader of -1 indicates that no broker is currently the leader for that partition. This usually happens when the only replica for that partition is unavailable, often due to the associated broker (in this case, Broker 1) failing or being offline. Kafka cannot elect a leader if no replica is in the in-sync replica (ISR) list, which leads to leader = -1.

NEW QUESTION # 49

What are important factors in sizing a ksqlDB cluster? (Choose three.)

- A. Number of Queries
- B. Topic Data Retention
- C. Number of Partitions
- D. Data Schema
- E. Data Encryption

Answer: A,C,D

Explanation:
The complexity of the schema (number of fields, data types, etc.) affects processing and memory usage.
Each ksqlDB persistent query consumes resources (CPU, memory), so more queries require more capacity.
More partitions increase parallelism, but also resource usage, especially in scaling and state management.

NEW QUESTION # 50

......

It will make them scrutinize how our formats work and what we offer them, for example, the form and pattern of Confluent CCAAK exam dumps, and their relevant and updated answers. It is convenient for our consumers to check Confluent CCAAK Exam Questions free of charge before purchasing the Confluent CCAAK practice exam.

CCAAK Reliable Practice Questions: https://www.passsureexam.com/CCAAK-pass4sure-exam-dumps.html

If you just look at the dictionary meaning of dump, it might mean that CCAAK certification dumps will not be useful since it is something left for garbage, Self-Assessment CCAAK exam report, Our product boosts varied functions to be convenient for you to master the CCAAK training materials and get a good preparation for the exam and they include the self-learning, the self-assessment, stimulating the exam and the timing function, The CCAAK exam braindumps can prove your ability to let more big company to attention you.

It also moves beyond the basics to cover a number of real-world project management CCAAK tools and techniques for IT initiatives, A number of tools and techniques are available to help organizations conduct security assessments.

Boost Your Exam Prep With PassSureExam Confluent CCAAK Questions

If you just look at the dictionary meaning of dump, it might mean that CCAAK Certification Dumps will not be useful since it is something left for garbage, Self-Assessment CCAAK exam report.

Our product boosts varied functions to be convenient for you to master the CCAAK training materials and get a good preparation for the exam and they include the CCAAK Reliable Source self-learning, the self-assessment, stimulating the exam and the timing function.

The CCAAK exam braindumps can prove your ability to let more big company to attention you, The PassSureExam is committed to making the Confluent Certified Administrator for Apache Kafka CCAAK exam questions the first preference of CCAAK exam candidates.
