Quiz Reliable HCLSoftware - Reliable HCL-HWA-ADM-102 Exam Practice

In order to meet different needs of every customer, we will provide three different versions of HCL-HWA-ADM-102 exam questions including PC version, App version and PDF version for each customer to choose from. Most importantly, the passing rate of our HCL-HWA-ADM-102 Study Materials is as high as 98 % - 99 %. It can almost be said that you can pass the exam only if you choose our HCL-HWA-ADM-102 learning guide. And our HCL-HWA-ADM-102 practice engine won't let you down.

HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q777-Q782):

NEW QUESTION # 777

HCL HWA 10.2 secondary domain manager assumes production cycle after primary failure; 135 FTAs show "Plan out of sync" during synreq (5100 jobs submitted). What bulk recovery synchronizes workstations?

- A. planman extend 72h /RECOVER
- B. Primary cleanup; secondary create
- C. planman symreq fta135##* /WAIT=1200; planman resyncplan /FORCE
- D. conman "startup fta135##*"

Answer: C

Explanation:

planman symreq fta135##* /WAIT=1200 bulk synchronizes 135 FTAs to secondary MDM; resyncplan /FORCE completes failover recovery during 5100-job symreq. Targeted bulk operations maintain production cycle versus individual startups or plan recreation.

NEW QUESTION # 778

To enable SSL encryption for DWC-to-MDM communication using automatic configuration during fresh installation in HCL Workload Automation 10.2, which twsinst/dwcinst parameters are critical? (Select two)

- A. --jwt true for token-based auth override
- B. --sslkeyfolder pointing to a directory with custom PEM files
- C. --sslpassword to set a common password for generated keystore/truststore
- D. --tdwbhostname and --tdwbport for connection details
- E. --acceptlicense yes with --agent dynamic

Answer: B,C

Explanation:

--sslkeyfolder pointing to a directory with custom PEM files provides the initial certificates for automatic setup of SSL mode. --sslpassword to set a common password for generated keystore/truststore ensures consistent protection and Liberty configuration for the keystores created during installation.

NEW QUESTION # 779

During HCL Workload Automation 10.2 plan migration, Global Options Carry Forward settings cause duplicate stream instances in the new plan due to overlapping carry forward periods. To limit carry forward to the prior 24 hours only, which Global Option adjustment prevents accumulation?

- A. modify global carry.depth=1d; refresh
- B. alter global maxCarryAge=1440m; commit
- C. set global carryForwardHours=24; apply
- D. alter global carryWindow="24h"; unlock global

Answer: D

Explanation:

The alter global carryWindow="24h" sets a sliding window for carry forward eligibility, restricting instances to those from the last 24 hours and preventing historical accumulation during migrations. Combined with unlock global, it cleanses the production plan immediately. This time-bound approach complements pattern-based selective carry, ensuring plan hygiene without manual cleanup.

NEW QUESTION # 780

HCL HWA 10.2 SSO session fixation attack prevented by regenerating session ID post-authentication. Browser cookies persist across login but Liberty detects fixation. What server.xml httpSession configuration prevents fixation?

- A. SSO prevents session fixation automatically
- B. jvm.options: -Dcom.ibm.ws.session.securityIntegration=strict
- C. <httpSession reuseSessionID="false" changeSessionIdOnFirstAccess="true"/>
- D. httpSession idLength="56" useExternalFormOfSessionId="true"

Answer: C

Explanation:

Liberty httpSession prevents fixation by generating new JSESSIONID post-authentication. server.xml: <httpSession

reuseSessionID="false" changeSessionIdOnFirstAccess="true" httpsOnlyCookies="true"/> ensures pre-auth session ID never reused. Security scanners confirm no fixation vulnerability.

NEW QUESTION # 781

In HCL Workload Automation 10.2, configuring workload security to allow a user to list and display reports but deny submission of ad-hoc reports or deletion, which security file entries are required? (Select two)

- A. FILE NAME=@ ACCESS=DISPLAY
- B. QUERY NAME=@ ACCESS=USE
- C. REPORT ACCESS=SUBMIT=NO
- **D. REPORT ACCESS=LIST,DISPLAY**
- **E. REPORT ACCESS=DELETE=NO**

Answer: D,E

Explanation:

REPORT ACCESS=LIST,DISPLAY permits viewing and listing predefined reports. REPORT ACCESS=DELETE=NO prevents removal of reports, ensuring audit integrity.

NEW QUESTION # 782

.....

As the authoritative provider of HCL-HWA-ADM-102 guide training, we can guarantee a high pass rate compared with peers, which is also proved by practice. Our good reputation is your motivation to choose our learning materials.
