最新的 Accredited Professional Financial-Services-Cloud 免費考試真題 (Q110-Q115):

問題 #110

What capabilities included in the FSC license can assist bankers in focusing on the most promising referrals?

- A. Referral Routing Rules
- **B. Intelligent Need-Based Referrals and Scoring**
- C. Einstein Referral Scoring for FSC
- D. Referral Approval Processes

答案： B

問題 #111

It has been determined that integration with an external system is required, as the data needed by a wealth management client resides in another system. This data will be sent from the external system via an API, and Salesforce needs to be configured in preparation for the data.

Which two items should be configured?

- A. A flow to get the data into Salesforce
- B. A Lightning web component to restrict data from users
- C. Objects and fields to store the data
- D. An integration User and Integration Profile to enable the connection

答案： C,D

解題說明：

To integrate with an external system, Salesforce needs to have objects and fields that can store the data that will be sent from the external system via an API. These objects and fields should match the data structure and format of the external system as much as possible. Additionally, Salesforce needs to have an integration user and an integration profile that can enable the connection between Salesforce and the external system. The integration user is a dedicated user account that has access to the API and can perform data operations on behalf of other users. The integration profile is a custom profile that defines the permissions and settings for the integration user.

問題 #112

The Actionable Relationship Center (ARC) is using the Association Type picklist to control the account-account relationships. Which three of the following names are Association Type picklist field values?

- A. Member
- B. Group
- C. Peer
- D. Family
- E. Trust

答案： A,B,C

問題 #113

Which setting in Action Plans helps to avoid non working hours, company holidays, and other non working days for deadline calculation?

- A. Skip Non-Work Days for Action Plans
- B. Sync with Company Calendar
- C. Skip Non-Work Days For Tasks
- D. Skip Non-Work Days for Deadlines

答案： D

解題說明：

The setting in Action Plans that helps to avoid non working hours, company holidays, and other non working days for deadline calculation is Skip Non-Work Days for Deadlines. This is a custom setting that determines whether to exclude non work days when calculating the due date for action plan items based on the action plan item template duration. By enabling this setting, the Admin can ensure that the deadlines are realistic and achievable

問題 #114

An administrator is logged into Data Loader with their own credentials to insert new Business Account records into their Salesforce environment. They forget to specify the Account Owner field in the import file.

Assuming there are no other issues, what should happen when the administrator uploads the import file?

- [illegible]

pct.edu.pk, Disposable vapes
