NEW QUESTION # 25

Which of the following are some of the process steps in the strategic freight procurement process? Note: There are 3 correct answers to this question.

- A. Prepare request for quotation (RFQ)
- B. Generate freight agreements
- C. Generate business shares
- D. Evaluate responses and optimize
- E. Define trade lanes

Answer: A,B,D

Explanation:

The strategic freight procurement process in SAP S/4HANA Transportation Management involves several steps to establish agreements with carriers. According to the SAP documentation, the key process steps include:

* Evaluate responses and optimize (B): After receiving responses to RFQs, the system evaluates them based on criteria like cost, capacity, or service quality to select the best carriers.

* Prepare request for quotation (RFQ) (D): This step involves creating RFQs to solicit bids from carriers for specific transportation services.

* Generate freight agreements (E): Once carriers are selected, freight agreements are generated to formalize the terms, including rates and conditions.

The other options are incorrect:

* Generate business shares (A) is a configuration step for carrier selection, not a core part of the strategic procurement process.

* Define trade lanes (C) is part of master data setup, not a specific step in the procurement process.
