By devoting ourselves to providing high-quality practice materials to our customers all these years we can guarantee all content is of the essential part to practice and remember. To sum up, our latest CISSP Exam Torrent are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use. Our results of latest CISSP exam torrent are startlingly amazing, which is more than 98 percent of exam candidates achieved their goal successfully.

ISC CISSP (Certified Information Systems Security Professional) certification is a globally recognized and highly respected certification in the field of information security. Certified Information Systems Security Professional (CISSP) certification is awarded by the International Information System Security Certification Consortium, also known as (ISC)<sup>2</sup>. The CISSP certification is designed to validate the knowledge and expertise of individuals in the field of information security, and is considered a benchmark for demonstrating proficiency in this field.

To be eligible to take the CISSP Exam, candidates are required to have a minimum of five years of professional experience in information security. However, candidates with less than five years of experience can still take the exam and become an Associate of (ISC)<sup>2</sup> until they meet the experience requirements.

## HOT CISSP Authentic Exam Hub - The Best ISC CISSP Complete Exam Dumps: Certified Information Systems Security Professional (CISSP)

Would you like to pass ISC CISSP test and to get CISSP certificate? ValidVCE can guarantee your success. When you are preparing for CISSP exam, it is necessary to learn test related knowledge. What's more important, you must choose the most effective exam materials that suit you. ValidVCE ISC CISSP Questions and answers are the best study method for you. The high quality exam dumps can produce a wonderful effect. If you fear that you cannot pass CISSP test, please click ValidVCE.com to know more details.

The CISSP exam consists of 250 multiple-choice questions that must be completed in six hours. The questions are designed to test the candidate's knowledge and understanding of the ten domains covered in the exam. Candidates who pass the exam are awarded the CISSP Certification, which is valid for three years. To maintain the certification, individuals must earn Continuing Professional Education (CPE) credits and pay an annual maintenance fee.

## ISC Certified Information Systems Security Professional (CISSP) Sample Questions (Q24-Q29):

### NEW QUESTION # 24

Which of the following can be used as a covert channel?

- A. Storage and classification.
- B. Storage and permissions.
- C. Storage and timing.
- D. Storage and low bits.

Answer: C

Explanation:

Explanation/Reference:

Explanation:

The Orange book requires protection against two types of covert channels, Timing and Storage.

Incorrect Answers:

B: Storage and low bits is incorrect because, low bits would not be considered a covert channel.

C: Storage and permissions is incorrect because, permissions would not be considered a covert channel.

D: Storage and classification is incorrect because, classification would not be considered a covert channel.

#### NEW QUESTION # 25

Which of the following web-based system vulnerabilities is the defense strategy of not trusting any input MOST effective against?

- A. Broken authentication
- **B. Injection vulnerabilities**
- C. Sensitive data exposure
- D. Man-in-the-browser attack

**Answer: B**

#### NEW QUESTION # 26

Which must bear the primary responsibility for determining the level of protection needed for information systems resources?

- A. systems Auditors
- B. IS security specialists
- C. Senior security analysts
- **D. Senior Management**

**Answer: D**

Explanation:

If there is no support by senior management to implement, execute, and enforce security policies and procedure, then they won't work. Senior management must be involved in this because they have an obligation to the organization to protect the assets. The requirement here is for management to show "due diligence" in establishing an effective compliance, or security program. It is senior management that could face legal repercussions if they do not have sufficient controls in place.

The following answers are incorrect:

IS security specialists. Is incorrect because it is not the best answer. Senior management bears the primary responsibility for determining the level of protection needed.

Senior security analysts. Is incorrect because it is not the best answer. Senior management bears the primary responsibility for determining the level of protection needed.

systems auditors. Is incorrect because it is not the best answer, system auditors are responsible that the controls in place are effective. Senior management bears the primary responsibility for determining the level of protection needed.

#### NEW QUESTION # 27

Which of the following is the MOST significant key management problem due to the number of keys created?

- **A. Storage of the keys require increased security**
- B. Exponential growth when using symmetric keys
- C. Keys are more difficult to provision and
- D. Exponential growth when using asymmetric keys

**Answer: A**

#### NEW QUESTION # 28

Which one of the following describes granularity?

- A. Number of violations divided by the number of total accesses

- Answer: C**

Granularity is the degree of detail or precision that an access control system can provide. A granular access control system can specify different levels of access for different users, groups, resources, or conditions. For example, a granular firewall can allow or deny traffic based on the source, destination, port, protocol, time, or other criteria
