MTCNA New Practice Questions - MTCNA New Study Questions

Practice tests (desktop and web-based) provide an MikroTik MTCNA examination scenario so your preparation for the MikroTik Certified Network Associate Exam (MTCNA) exam becomes quite easier. Since the real MTCNA examination costs a high penny, Real4Prep provide a free demo of MikroTik MTCNA Exam Dumps before your purchase. The free demo of the MikroTik Certified Network Associate Exam (MTCNA) exam prep material is helpful to remove your doubts about it. The product is available in three versions which are PDF, Web-based practice test, and Desktop practice test software.

MikroTik MTCNA (MikroTik Certified Network Associate) certification is a highly sought after certification in the networking industry. It is designed to validate the basic knowledge of networking and routing using MikroTik RouterOS. MikroTik Certified Network Associate Exam certification is suitable for network engineers, administrators, and technicians who want to learn about MikroTik routers and associated technologies.

How to study the MikroTik Certified Network Associate (MTCNA) Exam

Official leaning platforms of MikroTik are available along with **MTCNA exam dumps pdf**.MikroTik organizes training events and has institutions around the globe. Training sessions for MikroTik are arranged and given at different locations around the world by MikroTik Training Centers. Network engineers, integrators, and managers who want to learn about the routing and management of wired and wireless networks using MikroTik RouterOS will be present.

MikroTik Training Centers (MTC) are independent organizations (companies or individuals) that, according to the official MikroTik Training Description, perform intensive public or private training sessions and qualification tests. MTCs are not connected in any way with each other or with MikroTik. They use their training materials and bear exclusive responsibility for the offered training sessions. Concerning their deals, please contact the MikroTik Training Centers directly.

MikroTik Academies (MA) are educational institutions that provide semester-based Internet networking courses to their academic students, such as universities, technical schools, colleges, vocational schools, and other educational institutions, using MikroTik RouterOS as a learning tool.

MTCNA exam dumps are available online that are, by far, the best-proven study materials. Students can test their understanding of the domain by taking the **MTCNA practice exams** online or by taking the official example test provided in the link that can be accessed from here.

MTCNA New Study Questions, New MTCNA Exam Book

Many candidates apply for professional certifications exams because their company has business with relating company. If so our MTCNA exam guide torrent should be your best helper. Our MTCNA exam questions help you pass exam soon and certainly so that you can obtain dreaming certifications before other peers. It will be a great opportunity for you to obtain better position even promotion. You can trust our reliable MTCNA Exam Collection materials as we have high pass rate more than 98%.

The MTCNA Exam covers a wide range of topics, including network architecture, routing, wireless networks, firewall and security, and network management. Participants who pass the exam will have demonstrated their ability to configure MikroTik routers, manage network traffic, and troubleshoot network issues. The MTCNA certification is an entry-level certification that is ideal for individuals who are just starting their careers in networking or those who are looking to expand their knowledge and skills in MikroTik RouterOS software. MikroTik Certified Network Associate Exam certification is recognized globally and can lead to better job opportunities and higher salaries in the networking industry.

MikroTik Certified Network Associate Exam Sample Questions (Q159-Q164):

NEW QUESTION # 159
MikroTik RouterOS is sending logs to an external syslog server. Which protocol and port is used by RouterOS for sending logs (by default)?

- A. TCP 110
- B. UDP 514
- C. UDP 21
- D. UDP 113

Answer: B

NEW QUESTION # 160
You have a DHCP server on your MikroTik router. The IP addresses 10.1.2.2-10.2.2.20 are distributed in the DHCP network.
Additionally, 3 static IP addresses are defined for your servers: 10.1.2.31-10.1.2.33.
After a while, 20 more IP addresses need to be distributed in the network. It is possible to distribute the extra IP addresses without adding another DHCP Server:

- A. True
- B. False

Answer: A

Explanation:
MikroTik RouterOS allows DHCP administrators to modify the DHCP address pool without creating an additional DHCP server.
You can simply edit or extend the address pool range, and the DHCP server will start offering those new IPs.
Therefore, it is completely possible to:
* Extend the existing address pool
* Exclude statically assigned IPs
* Continue using the same DHCP Server instance
You do NOT need to create a second DHCP server on the same interface.
MTCNA Course Manual - DHCP Configuration:
"It is possible to expand the address-pool dynamically without adding additional DHCP servers. Just add more IPs to the pool."
Rene Meneses Study Guide - DHCP Pools Section:
"You can edit the address pool associated with the DHCP server anytime to include more addresses. No need to create another server." Terry Combs Notes - DHCP Tips:
"Keep one DHCP server per subnet. Extend pools via IP > Pool if more IPs are needed."

NEW QUESTION # 161
You need to reboot a RouterBoard after importing a previously exported rsc file to activate the new configuration.

- A. False
- B. True

Answer: A

NEW QUESTION # 162
What is necessary for PPPoE client configuration?

- A. Static IP address on PPPoE client interface
- B. Interface (on which PPPoE client is going to work)
- C. ip firewall nat masquerade rule

Answer: B,C

Explanation:
To configure a PPPoE client on MikroTik, you need to:
* Set the client interface (usually ether1 or another WAN-facing port).
* Optionally add NAT masquerading to enable LAN users to reach the internet.
* IP address on the interface is assigned dynamically from the ISP after PPPoE negotiation, so a static IP is not required.
Option Analysis:
* A.#Required - You must select the interface that initiates the PPPoE connection.
* B.#Not Required - The IP is typically assigned by the PPPoE server (ISP).
* C.#Required - NAT masquerade is commonly used to allow internet access for private IP clients behind the router.
Extract from MTCNA Course Material - PPPoE Client Setup:
"The PPPoE client must have an interface specified. A NAT masquerade rule is recommended for internet access sharing." Extract from Rene Meneses MTCNA Study Guide - PPPoE:
"You do not need to assign a static IP to the PPPoE client interface. IP is received after successful login." Extract from MikroTik Wiki - PPPoE Client:
"After setting up the interface and credentials, PPPoE client negotiates and receives dynamic IP. Add NAT if routing LAN traffic."

NEW QUESTION # 163
What protocol is used to find the hardware address of a local device?

- A. ARP
- B. ICMP
- C. RARP
- D. IP

Answer: A

NEW QUESTION # 164
