Once our 101-500 test questions are updated, our system will send the message to our customers immediately. If you use our 101-500 exam prep, you will have the opportunity to enjoy our updating system. You will get the newest information about your exam in the shortest time. It not only can help you protect your eyes, but also it will be very convenient for you to make notes. We believe that you will like our 101-500 Exam Prep.

Lpi LPIC-1 Exam 101, Part 1 of 2, version 5.0 Sample Questions (Q238-Q243):

NEW QUESTION # 238
The system is having trouble and the engineer wants to bypass the usual /sbin/init start up and run /bin/sh.
What is the usual way to pass this change to the kernel from your boot loader?

- A. Pass /bin/sh on the kernel parameter line.
- B. Pass start=/bin/sh on the kernel parameter line.
- C. Start in runlevel 1.
- D. Pass init=/bin/sh on the kernel parameter line.

Answer: D

Explanation:
Explanation
The usual way to pass this change to the kernel from the boot loader is to pass init=/bin/sh on the kernel parameter line12. The init kernel parameter is used to specify the program that is run as the first process after the kernel is loaded3. By default, this program is /sbin/init, which is responsible for starting and managing other processes and services4. However, by passing init=/bin/sh, the kernel will run /bin/sh instead, which is a shell program that allows the user to execute commands interactively or from a script5. This way, the user can bypass the usual initialization process and run /bin/sh as the root user, which can be useful for troubleshooting or recovery purposes12.

The other options in the question are not correct because:

* A. Start in runlevel 1: This option would not bypass the /sbin/init program, but rather instruct it to start the system in single-user mode, which is a mode that allows only the root user to log in, and disables all network services and graphical interfaces. To start in runlevel 1, the user would need to pass single or 1 on the kernel parameter line, not init=/bin/sh.

* C. Pass /bin/sh on the kernel parameter line: This option would not work, because the kernel would not recognize /bin/sh as a valid parameter and would ignore it. The kernel only accepts parameters that have a specific format, such as name=value or name.flag3. To specify the init program, the user would need to use the init= prefix, as in init=/bin/sh3.

* D. Pass start=/bin/sh on the kernel parameter line: This option would also not work, because the kernel does not have a start parameter. The user would need to use the init parameter, as in init=/bin/sh3.

NEW QUESTION # 239

What does the following command do? cat '$TEST'

- A. Displays the contents of the named by the environment variable TEST.
- B. Displays a bash syntax error message.
- C. Displays the contents of the file named $TEST if it exists.
- D. Displays the contents of the file named inside the back quotes.
- E. Waitsfor the user to enter text and then echos the text back.

Answer: C

NEW QUESTION # 240

Which of the following commands shows the definition of a given shell command?

- A. type
- B. stat
- C. where
- D. case

Answer: A

Explanation:
Explanation
The type command shows the type of a given shell command, which can be one of the following: alias, keyword, function, builtin, or file. For example, type ls will show that ls is an alias for ls --color=auto. The type command can also show the full path of a file command, such as type grep will show that grep is
/bin/grep. References: LPI Linux Essentials, type command

NEW QUESTION # 241

Which of the following options must be passed to a filesystem's entry in /etc/fstab in order to mount the file system without root privileges?

- A. auto
- B. user

- C. norestrict
- D. noauto

Answer: B

NEW QUESTION # 242
While installing from source code you don't see the configuration script. What command can you run to compile the code?

- A. install makefile
- B. make
- C. make configure
- D. install

Answer: B

NEW QUESTION # 243
......

You may be complaining that your work abilities can't be recognized or you have not been promoted for a long time. But if you try to pass the 101-500 exam you will have a high possibility to find a good job with a high income. That is why I suggest that you should purchase our 101-500 questions torrent. Once you purchase and learn our 101-500 Exam Materials, you will find it is just a piece of cake to pass the exam and get a better job. You can read the introduction of our 101-500 exam questions carefully before your purchase. We provide the best service to you and hope you will be satisfied.
