- 6.2.a Unified Mobility
- 6.2.c Device Mobility
- 6.1 Configure Cisco Unified Communications Manager Mobility
- 6.1.c Device Mobility
- 6.2 Troubleshoot Cisco Unified Communications Manager Mobility
- 6.2.b Extension Mobility

Target Audience and Prerequisites

Every Cisco certification path can be taken by the individuals with any level of technical background, and this option is not an exception. This means that you can go for the Cisco 300-815 test right away if you want to. However, it is important to understand that this is a professional-level exam, so it will be much easier for you if you have some prior experience. The applicants for this test are recommended to possess from 3 to 5 years of experience to get started with the certification process. They are advised to have a general understanding of networking, video, and voice technologies, know how to describe various codecs as well as transform analogue voice into digital streams, be familiar with the Cisco IOS XE command line, possess the relevant skills in configuring and modifying the requirements within Cisco Unified CM, and so on.

The most important task for you to perform before going for the Cisco 300-815 exam is to pass the Cisco 350-801 test first. This is the core exam, which will help you understand the basics of the domain you are planning to enter. And then you can proceed with preparation for the concentration test. Also, please note that if you don't want to obtain the CCNP Collaboration certificate, you can simply clear Cisco 300-815 and get the specialist-level certification.

Cisco 300-815 exam measures candidates' abilities to configure, implement, and troubleshoot advanced call control and mobility services. 300-815 exam covers topics such as Cisco Unified Communications Manager (CUCM) call routing and signaling, device registration and mobility, media resources, and Quality of Service (QoS) policies. 300-815 exam also tests candidates' knowledge of Cisco Collaboration applications, including Cisco Unity Connection, Cisco Unified IM and Presence, and Cisco Expressway.
