Topic - Invoice and Revenue Rates: How They Are Determined

Oracle Fusion Project Billing uses bill rates, burdening, and transfer price schedules to derive standard bill rates, multipliers, markups, and bases for calculating potential revenue when the revenue method classification on a revenue plan is as billed, as incurred, or rate based. Similarly, bill rates derive invoice amounts when the invoice method classification on a bill plan is rate based.

QUESTION: 3

What is the precedence order in which cost rates are determined for a planning resource when deriving raw costs for rate-based planning resources?

- Option A : Resource class rate schedule > Override rate > Job rate schedule > Person rate schedule
- Option B : Override rate > Job rate schedule > Resource class rate schedule > Person rate schedule
- Option C : Person rate schedule > Job rate schedule > Resource class rate schedule > Override rate
- Option D : Override rate > Person rate schedule > Job rate schedule > Resource class rate schedule
- Option E : Job rate schedule > Resource class rate schedule > Override rate > Person rate schedule

Correct Answer: D

QUESTION: 4

You have four resources in your organization: P, Q, R, and S. Resource P - Project or resource calendar is active. Resource Q - Project resource request dates are within the project or resource calendar effective dates. Resource R - Resource calendar is complex, it does not contain seven days, and it contains more than one pattern and shift. Resource S - Number of working days within the requested date range is not zero on the project or resource calendar. Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- Option A : P
- Option B : Q
- Option C : R
- Option D : S

The updated Oracle 1z0-1057-25 exam questions are available in three different but high-in-demand formats. With the aid of practice questions for the Oracle 1z0-1057-25 exam, you may now take the exam at home. You can understand the fundamental ideas behind the Oracle 1z0-1057-25 Test Dumps using the goods. The Oracle 1z0-1057-25 exam questions are affordable and updated, and you can use them without any guidance.

With the Oracle 1z0-1057-25 certification exam you will get an opportunity to learn new and in-demand skills. In this way, you will stay updated and competitive in the market and advance your career easily. To do this you just need to pass the Oracle Project Management Cloud 2025 Implementation Professional 1z0-1057-25 Certification Exam.

>> Real 1z0-1057-25 Exam Dumps <<

1z0-1057-25 Exam & Exam 1z0-1057-25 Fee

These formats save you from going through sleepless preparation nights and hectic 1z0-1057-25 test practice. Fast2test 1z0-1057-25 practice exams come in these two versions: desktop software and web-based test. A team of experts has approved this 1z0-1057-25 practice test after a thorough analysis of the interface and content. The Oracle 1z0-1057-25 Mock Test has a built-in tracker which keeps a record of your progress in each take for you to easily analyze and improve your Oracle 1z0-1057-25 preparation.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q124-Q129):

NEW QUESTION # 124

You are currently involved in the implementation of the Project Financial Management solution for your client organization. Your client organization has two main lines of business: Consulting and Support.

Consulting Services and Support Services organizations have different project planning, management, analysis and reporting requirements for the projects that they manage, though the management reporting and transaction processing requirements are the same for both the organizations.

What will be your recommendation?

- A. Define One Business Unit and Two Project Units
- B. Define Two Business Units and Two Project Units
- C. Define One Business Unit and Three Project Units
- D. Define Two Business Units and One Project Unit

Answer: A

Explanation:

The recommendation for this scenario is to define one business unit and two project units. A business unit is an organization that performs one or many business functions such as transaction processing or reporting. A project unit is an organization that manages projects within a business unit or across multiple business units.

By defining one business unit and two project units, you can meet the following requirements of the client organization:

- * The management reporting and transaction processing requirements are the same for both the organizations: This can be achieved by using the same business unit for both the organizations, as the business unit determines the common setups such as ledger, currency, calendar, etc. for transaction processing and reporting.
- * The project planning, management, analysis and reporting requirements are different for each organization: This can be achieved by using different project units for each organization, as the project unit determines the specific setups such as project types, templates, options, etc. for project planning, management, analysis and reporting. Defining two business units and two project units is not recommended for this scenario, as this would create unnecessary duplication of setups for transaction processing

NEW QUESTION # 125

You are implementing Project Portfolio Management for a global professional services organization. In their Consulting Services line of business, it is common to use resources from different business units based on the skills required. Therefore, cross-charge transactions happen between business units within the same legal entity. Transfer price calculations need to be based on raw costs, with no further adjustments to transfer price.

Identify two setups that can drive this borrowed and lent agreement. (Choose two.)

- A. Transfer price basis must be Burdened Cost, and calculation method must be Burden Rate Schedule.
- B. A document entry such as straight time must be enabled for cross-charge transactions.
- C. Transfer price basis must be Raw Cost and calculation method must be Rate Schedule.
- D. Transfer price basis must be Raw Cost and calculation method must be Basis Only.

Answer: B,D

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-billing-configuration-define-transfer-pricing.html#OAPFM3094619>

NEW QUESTION # 126

Which three are valid password complexity criteria while setting up password policies? (Choose three.)

- A. Very Complex: At least 8 characters, 1 uppercase, 1 number, and 1 special character
- B. Very Complex: At least 8 characters, 1 uppercase, 1 number, and 2 special characters
- C. Simple: At least 8 characters and 1 number
- D. Complex: At least 8 characters, 1 uppercase, and 1 number
- E. Very Complex: At least 6 characters, 1 uppercase, 1 number, and 1 special character

Answer: A,B,D

Explanation:

Password complexity criteria are criteria that determine how strong or secure a password must be for a user account. Password complexity criteria can include requirements such as minimum length, uppercase letters, lowercase letters, numbers, special characters, etc. Three of the valid password complexity criteria while setting up password policies are:

* Complex: At least 8 characters, 1 uppercase, and 1 number

* Very Complex: At least 8 characters, 1 uppercase, 1 number, and 2 special characters

* Very Complex: At least 8 characters, 1 uppercase, 1 number, and 1 special character Simple: At least 8 characters and 1 number is not a valid password complexity criterion while setting up password policies, as this criterion does not meet the minimum security standards for Oracle Cloud applications.

Very Complex: At least 6 characters, 1 uppercase, 1 number, and 1 special character is also not a valid password complexity criterion while setting up password policies, as this criterion does not meet the minimum length requirement of 8 characters for Oracle Cloud applications. NEW QUESTION # 127

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

- A. All new employees created as persons must be assigned to a department.
- B. All new employees created as persons must have an active supervisor.
- C. All new employees created as persons must have an active assignment.
- D. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.
- E. All new employees created as persons must have an active project role.

Answer: A,C,D

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2 Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

* The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.

* The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.

* Persons assigned as project managers aren't active as of the project start date.

* The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

NEW QUESTION # 128

You create a project schedule with a Shifts element. Identify two more elements that can be part of a project schedule. (Choose two.)

- A. Expenditure Type
- B. Accounting Calendar
- C. Time Off
- **D. Workday Patterns**
- **E. Exceptions**

Answer: D,E

Explanation:

Reference https://docs.oracle.com/cloud/latest/projectcs_gs/FAPFM/FAPFM1192914.htm Topic - Creating Calendars for Projects and Resources: Procedure Project Schedules are used as a base for project and resource calendars in Project Execution Management applications. The smallest scheduling unit is a day. For example, you can define the number of hours in a day but, you can't schedule work for a specific time of the day.

The following are the elements of a schedule:

- * Shifts
- * Workday patterns
- * Exceptions

NEW QUESTION # 129

.....

Fast2test constantly attract students to transfer their passion into progresses for the worldwide feedbacks from our loyal clients prove that we are number one in this field to help them achieve their dream in the 1z0-1057-25 exams. For we have the guarantee of high quality on our 1z0-1057-25 exam questions, so our 1z0-1057-25 practice materials bring more outstanding teaching effect. And instead of the backward information accumulation of learning together can make students feel great burden, our latest 1z0-1057-25 exam guide can meet the needs of all kinds of students on validity or accuracy.
