Of course, if you have any other questions, users can contact the customer service of PL-300 Test Torrent online at any time, they will solve questions as soon as possible for the users, let users enjoy the high quality and efficiency refund services.

Microsoft Power BI Data Analyst Sample Questions (Q301-Q306):

NEW QUESTION # 301

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a clustered bar chart that contains a measure named Salary as the value and a field named Employee as the axis. Salary is present in the data as numerical amount representing US dollars.

You need to create a reference line to show which employees are above the median salary.

Solution: You create a median line by using the Salary measure.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

Explanation

The 50th percentile is also known as the median or middle value where 50 percent of observations fall below.

NEW QUESTION # 302

Remove unused columns from tables in the data model. This will reduce the size of your PBIX file and make your data model more efficient. You can use Power Query Editor to remove any columns that are not used in your report or calculations.

You need to shape the query to display the following three columns:

- * Month
- * Sales
- * Year

What should you select in Power Query Editor?

- A. Pivot column
- B. Transpose
- C. Merge columns
- D. Unpivot columns.

Answer: D

Explanation:

This will convert your column headers (Jan-20, Feb-20,...) into row values under a new column called Attribute. You can then rename this column as Month and change its data type to Date. You will also have a new column called Value that contains the sales amounts for each month. You can rename this column as Sales and change its data type to Decimal Number.

NEW QUESTION # 303

Your organization has a team of power users who recently created 20 Power BI dashboards.

The power users share the dashboards with other users in the organization.

When the users attempt to access the dashboards, they receive the error message shown in the exhibit. (Click the Exhibit.)

You need to ensure that all the users can access the dashboards.
What should you do first?

- A. Instruct each user to install Microsoft Office 2016.
- **B. From the Microsoft Office 365 Admin center, and the Power BI (free) subscription, and then assign a license to each user.**
- C. From the Power BI Admin portal, modify the Privacy Settings.
- D. From the properties of each dashboard, modify the Share dashboard settings.

Answer: B

Explanation:

NEW QUESTION # 304

You need to minimize the size of the dataset. The solution must meet the report requirements. What should you do?

- **A. Group the Categories table by the CategoryID column.**
- B. Change the OrderID column in the Orders table to the text data type.
- C. Filter out discontinued products while importing the Product table.
- D. Remove the QuantityPerUnit column from the Products table.

Answer: A

NEW QUESTION # 305

You have a Power BI report named Orders that supports the following analysis:

- * Total sales over time
- * The count of orders over time
- * New and repeat customer counts

The data model size is nearing the limit for a dataset in shared capacity. The model view for the dataset is shown in the following exhibit.

□

Answer:

Explanation:

□

NEW QUESTION # 306

.....

Microsoft PDF Questions format, web-based practice test, and desktop-based PL-300 practice test formats. All these three PL-300 exam dumps formats features surely will help you in preparation and boost your confidence to pass the challenging Microsoft PL-300 Exam with good scores.
