ABPMP International Certified Business Process Associate (CBPA) Exam Sample Questions (Q39-Q44):

NEW QUESTION # 39

What do support processes provide?

- A. The information technology management of the primary processes
- B. The management procedures needed to execute primary processes
- C. Required resources and infrastructure needed to support primary processes
- D. The rules and guidelines used to measure, monitor, and control business activities

Answer: C

Explanation:

Support processes are essential for enabling the operation of primary processes. They do not directly deliver value to customers, but they provide critical resources, infrastructure, services, and support that allow primary processes to function effectively. "Support processes include IT services, HR, finance, and other internal services which provide resources and capabilities for primary process execution."

NEW QUESTION # 40

The process roadmap is the basis for the

- A. Stakeholder's engagement
- B. Improvement and process transformation
- C. Automation and control
- D. A process view

Answer: B

Explanation:

A process roadmap outlines the phased approach to process improvements and transformation. It serves as a strategic guide for executing process change initiatives and aligns them with organizational priorities.

"A process roadmap identifies the sequencing of process initiatives, milestones, and dependencies needed to guide transformation and continuous improvement."
