

# Latest Oracle 1Z0-1163-1 Questions in Three Different Formats

P.S. Free 2026 Oracle 1Z0-1163-1 dumps are available on Google Drive shared by Dumps4PDF: <https://drive.google.com/open?id=1ABLxZL6B8YT3VzAyhhO3rKt5N-Cwlb>

Oracle is here to assist you to advance in the quick-paced, technology world if that is your goal. Your dream of passing the Oracle 1Z0-1163-1 certification exam on your first try will come true thanks to Oracle's first-rate 1Z0-1163-1 Practice Exam. The majority of people struggle to locate outstanding Oracle 1Z0-1163-1 exam dumps that can enable them to get ready for the real Oracle 1Z0-1163-1 exam.

## Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• OMBPs for Manufacturing: This section measures the skills of Manufacturing Operations Managers in utilizing Oracle Cloud's manufacturing capabilities. It explains the flow of manufacturing processes, module integration, and best practices that enhance operational efficiency. Candidates will analyze metrics that assess productivity, cost control, and overall manufacturing performance.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Oracle Cloud Applications and Oracle Modern Best Practice (OMBPs): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• OMBPs for Supply Chain Planning: This section assesses the knowledge of Supply Chain Planners in managing planning modules within Oracle SCM. It explains process flows, integration points, and how different planning modules work together. Candidates will learn about best practices for designing efficient planning workflows and key metrics used to measure supply chain responsiveness and effectiveness.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Oracle Cloud Success Navigator &amp; Oracle Cloud Quality Standards: This section evaluates the skills of Cloud Implementation Managers in leveraging Oracle Cloud Success Navigator and Quality Standards for cloud adoption. It explains how best practices are embedded into Oracle Cloud Applications and applied using Starter Configuration. Candidates will understand how to optimize cloud performance and ensure successful deployments following Oracle's quality guidelines.</li> </ul>

## 2026 1Z0-1163-1 New Learning Materials: Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 – Realistic Latest 1Z0-1163-1 Exam Registration

Before you buy 1Z0-1163-1 exam torrent, you can log in to our website to download a free trial question bank, and fully experience the convenience of PDF, APP, and PC three models of 1Z0-1163-1 quiz guide. During the trial period, you can fully understand 1Z0-1163-1 practice test ' learning mode, completely eliminate any questions you have about 1Z0-1163-1 exam torrent, and make your purchase without any worries. If you are a student, 1Z0-1163-1 Quiz guide will also make your study time more flexible. With 1Z0-1163-1 exam torrent, you don't need to think about studying at the time of playing. You can study at any time you want to study and get the best learning results with the best learning status.

### Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q52-Q57):

#### NEW QUESTION # 52

How does embedding Oracle Method Based Practices (OMBPs) in Starter Configurations benefit Oracle Fusion Applications implementations?

- A. Allows third-party vendors to access and modify configurations.
- B. Provides a standard configuration that supports solution-led implementation of Oracle Fusion Applications.
- C. Enables fully customized setup based on individual customer requirements.

**Answer: B**

Explanation:

Embedding Oracle Method Based Practices (OMBPs) in Starter Configurations (C) provides a prebuilt, standard configuration that streamlines Oracle Fusion Applications implementations using a solution-led approach. These configurations incorporate best practices-e.g., predefined workflows for demand planning-reducing setup time and ensuring consistency. For instance, a company can deploy SCM modules with optimized settings out of the box, customizing only where necessary. Option A is incorrect-third-party access isn't a focus; security restricts modifications. Option B is partially true but misses the point-OMBPs standardize first, then allow customization, not the reverse. This approach accelerates deployment, lowers costs, and leverages Oracle's expertise for

reliable outcomes.

### NEW QUESTION # 53

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Cost Accounting.
- B. Manufacturing Execution.
- C. Supplier Portal.
- **D. Global Order Promising.**

**Answer: D**

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

### NEW QUESTION # 54

What is the primary function of Cost Rollup in Oracle Fusion Cloud SCM?

- A. It ensures material costs remain unchanged over time.
- **B. It calculates the total cost of a product by aggregating material, labor, and overhead expenses.**
- C. It eliminates the need for cost accounting.
- D. It tracks only direct labor expenses, excluding materials.

**Answer: B**

Explanation:

Cost Rollup (C) in Oracle Fusion Cloud SCM calculates the total cost of a product by aggregating material, labor, and overhead expenses across production stages. For instance, a widget might cost \$10 total-\$5 materials, \$3 labor, \$2 overhead-rolled up from raw inputs to finished goods. Option A is false-Cost Rollup enhances, not eliminates, cost accounting by providing detailed data. Option B is incorrect-it includes all cost components, not just labor. Option D is wrong-costs fluctuate with market conditions; Rollup reflects current values. This function ensures accurate pricing, profitability analysis, and cost control, critical for financial decision-making and competitive strategy.

### NEW QUESTION # 55

What is the primary purpose of the Demand to Management OMBP in Oracle Fusion Cloud SCM?

- A. It guarantees same-day delivery for all orders.
- **B. It ensures accurate demand forecasting and planning.**
- C. It eliminates the need for supplier collaboration.
- D. It focuses only on local inventory availability.

**Answer: B**

Explanation:

The Demand to Management OMBP (C) in Oracle Fusion Cloud SCM ensures accurate demand forecasting and planning, translating market signals into actionable supply strategies. It uses tools like machine learning and collaborative forecasting to predict demand-e.g., forecasting 1,000 units for a holiday season-and aligns inventory and production accordingly. Option A is incorrect-it addresses enterprise-wide demand, not just local stock. Option B is false-no process guarantees same-day delivery; it focuses on planning. Option D is wrong-supplier collaboration is integral to fulfilling demand. This OMBP minimizes overstocking or shortages, optimizing resources and enhancing customer service through precise planning.
