NEW QUESTION # 42

A Contact Delete request has been processed for subscribers who have been sent an email. to previously in a northern action did NOT target all contacts in their account and a significant number of contacts which are still remaining.

Which two data would still exist in the account?

Choose 2 answers

- A. Contact data in non-sendable data extensions
- B. Contact-specific data at the job level
- C. General tracking data at the job level
- D. Contact data in sendable data extensions

Answer: A,C

Explanation:

Following a Contact Delete request, certain data types remain within the account:

B). Contact data in non-sendable data extensions: This data does not directly link to an individual's subscriber key or contact ID, allowing it to persist in the system for reporting and analytical purposes without targeting specific individuals.

C). General tracking data at the job level: This includes aggregated data on email opens, clicks, and other engagement metrics collected at the campaign level, not tied to individual contact identities, thus remaining in the system post-deletion.

NEW QUESTION # 43

A Marketing Cloud admin at Northern Trail Outfitters (NTO) is exploring whether they need to separate their brands into separate business units.

When should the admin create separate business units for each of NTO's brands?

- A. NTO requires SSL certificate configurations for Content Builder and Portfolio images
- B. Multiple brand logos must be accommodated in an email header
- C. A new sender profile needs to be leveraged for sending transactional emails
- D. Brand-specific private domains need to be leveraged when wrapping images and links in email campaigns

Answer: D

Explanation:

Creating separate business units for each brand is necessary when:

Brand-specific Domains: Separate business units allow for the configuration of brand-specific private domains, which are crucial for maintaining brand identity and trust in email campaigns by customizing link and image paths.

Use Case: If different brands under NTO need to leverage their unique domains for sending emails and hosting content, setting up distinct business units allows each brand to manage its sender profiles, content, and subscriber interactions independently.
