Business Applications SC-401 certification exam with our braindumps, just send us your failed score report. After we confirm your SC-401 score report and we can give full refund of the SC-401 Exam to you in time. Meanwhile, if you also need to take other related exams you also can choose another exam instead of the failed exam.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	- Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Topic 2	- Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.

Topic 3	• Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.
Topic 4	• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.

SC-401 Exam Prep – Find Shortcut to Pass SC-401 Exam

If moving up in the fast-paced technological world is your objective, Microsoft is here to help. The excellent Administering Information Security in Microsoft 365 (SC-401) practice exam from Microsoft can help you realize your goal of passing the Microsoft Treasury with Administering Information Security in Microsoft 365 (SC-401) certification exam on your very first attempt. Most people find it difficult to find excellent Microsoft Treasury with Administering Information Security in Microsoft 365 (SC-401) exam dumps that can help them prepare for the actual Administering Information Security in Microsoft 365 (SC-401) exam.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q132-Q137):

NEW QUESTION # 132
You have a Microsoft 36515 subscription tha1 contains a Microsoft SharePoint Online site named Site1 Site1 contains three tiles named File1. File2 and File3.
You create the data loss prevention (DIP) policies shown in the following table.
The DIP rule matches for each tile are shown in the following table.
How many DIP policy matches events will be added to Activity explorer, and how many policy matches will be added to the DLP incidents report? To answer, select the appropriate options m the answer area.

Answer:

Explanation:
Explanation:
Activity Explorer logs a DLP rule match event each time any DLP rule condition is met on a file.
File1 matches Rule11 and Rule12 # 2 events
File2 matches Rule21 and Rule22 # 2 events
File3 matches Rule11 and Rule22 # 2 events
Total events in Activity Explorer = 2 + 2 + 2 = 6.
Microsoft notes that Activity explorer shows granular DLP activities such as policy rule matches per item.
The DLP incidents report aggregates by policy match per item, not by each rule in that policy. Multiple rules from the same policy on the same item count as one incident; if different policies match the same item, each policy creates its own incident.
File1: Rules from DLP1 only # 1 incident
File2: Rules from DLP2 only # 1 incident
File3: One rule from DLP1 and one from DLP2 # 2 incidents
Total incidents = 1 + 1 + 2 = 4.
References: Microsoft Purview DLP explains that Activity explorer records detailed DLP activities, while DLP incidents are created when a policy match occurs for an item, and multiple rule matches within a single policy are consolidated into a single incident for that item.

NEW QUESTION # 133
You have a Microsoft 365 E5 subscription.

You need to prevent users from uploading data loss prevention (DLP)-protected documents to the following third-party websites:
web1.contoso.com
web2.contoso.com
The solution must minimize administrative effort.
To what should you set the Service domains setting for Endpoint DLP?

- A. web1.contoso.com and web2.contoso.com
- B. contoso.com
- C. web*.contoso.com
- D. *.contoso.com

Answer: A

Explanation:
The Service domains setting in Microsoft 365 Endpoint Data Loss Prevention (Endpoint DLP) allows administrators to block or allow specific domains for file uploads. The goal is to prevent users from uploading DLP-protected documents to web1.contoso.com and web2.contoso.com.
Setting the Service domains to "web1.contoso.com and web2.contoso.com" precisely targets the two specific third-party websites, minimizing administrative effort while ensuring strict control.

NEW QUESTION # 134
Hotspot Question
You have a Microsoft 365 E5 subscription that contains the users shown in the following table.
You plan to create a Microsoft Purview insider risk management case named Case1.
Which insider risk management object should you select first, and which users will be added as contributors for Case1 by default?
To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:
Explanation:
Box 1: An alert
To create a case in Microsoft Purview insider risk management, you always start from an alert.
Box 2: Admin2 and Admin3 only
Only Admin2 and Admin3 are added as contributors by default, because their roles involve investigation and analysis.

NEW QUESTION # 135
You have a Microsoft 365 E5 subscription.
You create a data loss prevention (DLP) policy and select Use Notifications to inform your users and help educate them on the proper use of sensitive info.
Which apps will show the policy tip?

- A. Outlook for iOS and Android only
- B. Outlook on the web and Outlook Win32 only
- C. Outlook Win32 only
- D. Outlook on the web only
- E. Outlook on the web, Outlook Win32, and Outlook for iOS and Android
- F. Outlook Win32 and Outlook for iOS and Android only

Answer: B

Explanation:
When you compose a new email in Outlook on the web and Outlook 2013 and later, you'll see a policy tip if you add content that matches a rule in a DLP policy, and that rule uses policy tips.
The policy tip appears at the top of the message, above the recipients, while the message is being composed.
Note: Outlook Mobile (iOS, Android)/Outlook Mac: DLP policy tips are not supported on Outlook mobile Support Matrix for DLP policy tips across Microsoft apps.

NEW QUESTION # 136
HOTSPOT
You have a Microsoft 365 E5 subscription.
You receive the data loss prevention (DLP) alert shown in the following exhibit.
Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.
NOTE: Each correct selection is worth one point.

Answer:
