

NCP-CI-AWS Exam Voucher | Exam NCP-CI-AWS Details

P.S. Free & New NCP-CI-AWS dumps are available on Google Drive shared by Prep4King: <https://drive.google.com/open?id=15DBz6JD4eF6xjLugIfadvXLzn0UoHiyB>

In order to make all customers feel comfortable, our company will promise that we will offer the perfect and considerate service for all customers. If you buy the NCP-CI-AWS study materials from our company, you will have the right to enjoy the perfect service. We have employed a lot of online workers to help all customers solve their problem. If you have any questions about the NCP-CI-AWS Study Materials, do not hesitate and ask us in your anytime, we are glad to answer your questions and help you use our NCP-CI-AWS study materials well.

Nutanix NCP-CI-AWS Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Managing an NC2 on AWS Environment: This exam component tests your understanding of node and cluster management tasks, along with your ability to oversee cluster and cloud resource health.
Topic 2	<ul style="list-style-type: none">Configuring an NC2 on AWS Environment: This section examines your proficiency in setting up cloud networking and security measures, as well as addressing connectivity issues.
Topic 3	<ul style="list-style-type: none">Deploying an NC2 on AWS Environment: This portion assesses your knowledge of cloud cluster deployment, cloud provider network configuration, and your skills in addressing cluster deployment challenges.
Topic 4	<ul style="list-style-type: none">Prepare the AWS cloud environment: This exam segment evaluates your ability to set up the AWS cloud environment, initiate NC2 service subscription, establish implementation criteria, and recognize networking prerequisites.

Pass Guaranteed Nutanix - Efficient NCP-CI-AWS Exam Voucher

People from all walks of life all work hard for the future. You must work hard to upgrade your IT skills. Then, do you have obtained Nutanix NCP-CI-AWS certificate which is very popular? How much do you know about NCP-CI-AWS test? If you want to pass NCP-CI-AWS exam without enough exam related knowledge, how should you do? But don't you worry: Prep4King will give assistance to you.

Nutanix Certified Professional - Cloud Integration - AWS Sample Questions (Q64-Q69):

NEW QUESTION # 64

An organization plans to use the Cluster Protect feature to protect the cluster data. Which license will satisfy this requirement?

- A. AOS Pro or NCI Pro
- B. NCI Pro or AOS Ultimate
- C. AOS Ultimate or NCI Ultimate
- D. AOS Pro or AOS Ultimate

Answer: C

Explanation:

The Cluster Protect feature, which provides data protection and disaster recovery capabilities for Nutanix clusters, requires either the AOS Ultimate or NCI Ultimate license. These licenses include the necessary features to leverage Cluster Protect for ensuring data resilience and recovery.

Reference:

Nutanix Documentation - Cluster Protection Features
Nutanix AOS 6.7 New Features

NEW QUESTION # 65

An administrator plans to reserve Nutanix licenses for NC2 consumption. Which two statements are correct? (Choose two.)

- A. The license reservation must be deleted when terminating or hibernating an NC2 cluster.
- B. Capacity reserved from a license can cover usage for all NC2 clusters associated with that workspace.
- C. A reserved license can be unreserved and used it for an on-premises cluster by updating the reserved capacity of that license to zero.
- D. If one NC2 cluster is terminated and another NC2 cluster is created, the reserved capacity must be manually used to cover the new cluster's usage.

Answer: B,C

NEW QUESTION # 66

Which address must AWS Directory Service be able to resolve when deploying a new NC2 cluster?

- A. downloads.cloud.nutanix.com
- B. gateway-external-api.cloud.nutanix.com
- C. gateway-internal-api.cloud.nutanix.com
- D. apikeys.nutanix.com

Answer: B

Explanation:

When deploying a new NC2 cluster, the AWS Directory Service must be able to resolve the address gateway-external-api.cloud.nutanix.com

This external API gateway is critical for the NC2 cluster to communicate with Nutanix services for operations such as management, updates, and licensing.

Ensuring that this address can be resolved allows the cluster to interact properly with the Nutanix cloud infrastructure and services.

Reference:

Refer to the Nutanix documentation on network and DNS requirements for NC2 deployments, specifically the addresses that need to be resolvable for proper functionality.

NEW QUESTION # 67

An administrator is investigating reports of network congestion on their NC2 deployment.

As part of the investigation, a packet capture is taken from a group of user VMs. During the analysis of the packet capture, it is observed that user VMs are receiving multicast traffic unexpectedly.

What action should the administrator take to resolve the issue?

- A. Disable DHCP snooping on the upstream network
- B. Disable IGMP snooping on the AHV hosts
- C. Enable DHCP snooping on the upstream network
- D. Enable IGMP snooping on the AHV hosts

Answer: D

Explanation:

Enable IGMP snooping on the AHV hosts:

IGMP (Internet Group Management Protocol) snooping is a feature that listens to IGMP traffic between hosts and routers. By enabling IGMP snooping on the AHV (Acropolis Hypervisor) hosts, the switch can intelligently forward multicast traffic only to the ports that have requested it.

This reduces unnecessary multicast traffic on the network and prevents congestion by ensuring that multicast packets are only delivered to the appropriate endpoints.

Reference:

Refer to the Nutanix documentation on network configuration and best practices for managing multicast traffic.

NEW QUESTION # 68

In which two ways should an NC2 on AWS cluster be hibernated manually? (Choose two.)

- A. Select the cluster under NC2 console and Select Hibernate/Resume on the cluster sur page.
- B. Log into NC2 console, find the cluster name and select Hibernate/Resume from the ellipses.
- C. Log into Prism Element navigate to Settings and select Hibernate/Resume.
- D. Log into Prism, Central, navigate to Planning, find hibernate and resume.

Answer: A,B

NEW QUESTION # 69

.....

Our NCP-CI-AWS Exams preparation software allows you to do self-assessment. If you have prepared for the NCP-CI-AWS exam, you will be able to assess your preparation with our preparation software. The software provides you the real feel of an exam, and it will ensure 100% success rate as well. You can test your skills in real exam like environment. If you are not getting the desired results, you will get 100% money back guarantee on all of our exam products.
