To make sure that our UiPath-TAEPv1 training braindumps are the best on matter on the content or on the displays, we invite volunteers to experience our UiPath-TAEPv1 real exam before selling to customers. They will carefully tell their thoughts about our UiPath-TAEPv1 Study Guide. Sometimes, their useful suggestions will also be adopted. That is the important reason why our UiPath-TAEPv1 exam materials are always popular in the market.

TrainingDumps's UiPath UiPath-TAEPv1 exam training materials not only can save your energy and money, but also can save a lot of time for you. Because the things what our materials have done, you might need a few months to achieve. So what you have to do is use the TrainingDumps UiPath UiPath-TAEPv1 Exam Training materials. And obtain this certificate for yourself. TrainingDumps will help you to get the knowledge and experience that you need and will provide you with a detailed UiPath UiPath-TAEPv1 exam objective. So with it, you will pass the exam.

UiPath-TAEPv1 Reliable Test Tutorial & Training UiPath-TAEPv1 For Exam

TrainingDumps is a professional website. It can give each candidate to provide high-quality services, including pre-sales service and after-sales service. If you need TrainingDumps's UiPath UiPath-TAEPv1 exam training materials, you can use part of our free questions and answers as a trial to sure that it is suitable for you. So you can personally check the quality of the TrainingDumps UiPath UiPath-TAEPv1 Exam Training materials, and then decide to buy it. If you did not pass the exam unfortunately, we will refund the full cost of your purchase. Moreover, we can give you a year of free updates until you pass the exam.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 2	<ul style="list-style-type: none">UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.

Topic 3	<ul style="list-style-type: none"> • Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 4	<ul style="list-style-type: none"> • UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing • exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:
Topic 5	<ul style="list-style-type: none"> • UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 6	<ul style="list-style-type: none"> • UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.
Topic 7	<ul style="list-style-type: none"> • UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 8	<ul style="list-style-type: none"> • UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q17-Q22):

NEW QUESTION # 17

If during the importing process in Test Manager, a file attachment exceeds the size limits, what happens to this attachment?

- A. The attachment gets skipped.
- B. The entire import process is aborted.
- C. The file gets automatically compressed.
- D. The user is prompted to manually reduce the file size.

Answer: A

Explanation:

If a file attachment exceeds the size limits during the importing process in UiPath Test Manager, the attachment gets skipped. The import process will continue for the other valid attachments, but the oversized file will not be included.

NEW QUESTION # 18

According to best practices, what is an acceptable way of validating an application's state before proceeding with certain steps in a process during testing?

- A. Avoid waiting for the desired application state and directly proceed with other interactions.

- B. Validate an application's state by implementing hardcoded delays before proceeding with other interactions.
- C. Consider applying validation measures which include using extra activities that wait for the desired application state before other interactions.
- D. Use as many hardcoded delays as needed to ensure the application has reached the desired state before proceeding with other interactions.

Answer: C

Explanation:

According to best practices, it is important to apply validation measures such as using activities that wait for the desired application state to be reached before proceeding with other interactions. This ensures stability and reduces the risk of errors, as waiting for a specific condition or state before continuing ensures that the application is ready for the next action.

NEW QUESTION # 19

Where can the variations that have passed or failed for a data-driven test case in UiPath Studio be viewed?

- A. On the parent test cases in the Test Results panel.
- B. In the Test Manager configuration.
- C. In the Assertions tab of the corresponding test case result.
- D. On the individual test case data variations in the Test Results panel.

Answer: D

Explanation:

In UiPath Studio, the Test Results panel displays the outcome of individual data variations for a data-driven test case. This allows users to see exactly which data inputs passed or failed during execution.

NEW QUESTION # 20

How does the licensing model work for Testing runtimes in UiPath?

- A. It counts the maximum number of Testing robots that are able to execute tests simultaneously, given by the total number of runtimes allocated to all the online machines.
- B. It counts the individual testing robots on a machine and assigns each of them an equal number of licenses.
- C. It counts the total number of licenses available and divides them amongst the Testing robots.
- D. It works by allocating a fixed number of licenses per testing robot, regardless of the maximum number that can execute tests simultaneously.

Answer: A

Explanation:

The licensing model for Testing runtimes in UiPath is based on the maximum number of Testing robots that can execute tests simultaneously, which is determined by the total number of runtimes allocated to all online machines. This ensures efficient utilization of available resources.

NEW QUESTION # 21

In software testing what does the term "test case" refer to?

- A. It's the maximum load that the system can tolerate without crashing.
- B. It's a set of conditions under which a tester determines if a system under test satisfies requirements and functions correctly.
- C. It's a written document outlining the detailed process of software development.
- D. It's the process of executing the system to reveal bugs.

Answer: B

Explanation:

A test case is a set of conditions, inputs, and expected results used to determine whether a system under test behaves correctly and meets its specified requirements. It helps validate functionality and detect defects.

NEW QUESTION # 22

.....

False UiPath-TAEPv1 practice materials deprive you of valuable possibilities of getting success. As professional model company in this line, success of the UiPath-TAEPv1 training guide will be a foreseeable outcome. Even some nit-picking customers cannot stop practicing their high quality and accuracy. We are intransigent to the quality issue and you can totally be confident about their proficiency sternly. Choosing our UiPath-TAEPv1 Exam Questions is equal to choosing success.
