By unremitting effort and studious research of the FCP_FMGI_AD-7.6 actual exam, our professionals devised our high quality and high FCP_FMGI_AD-7.6 effective practice materials which win consensus acceptance around the world. They are meritorious experts with a professional background in this line and remain unpretentious attitude towards our FCP_FMGI_AD-7.6 Preparation materials all the time. They are unsuspecting experts who you can count on.

All these three ActualCollection FCP - FortiManager 7.6 Administrator (FCP_FMGI_AD-7.6) exam questions formats are easy to use and perfectly work with all devices, operating systems, and the latest web browsers. So rest assured that with the FCP_FMGI_AD-7.6 Exam Dumps you will get everything that you need to learn, prepare and pass the challenging FCP_FMGI_AD-7.6 exam with good scores.

>> Reliable FCP_FMGI_AD-7.6 Dumps <<

Latest Reliable FCP_FMGI_AD-7.6 Dumps - Pass FCP_FMGI_AD-7.6 Exam

The design of our FCP_FMGI_AD-7.6 learning materials is ingenious and delicate. Every detail is perfect. For example, if you choose to study our learning materials on our windows software, you will find the interface our learning materials are concise and beautiful, so it can allow you to study FCP_FMGI_AD-7.6 learning materials in a concise and undisturbed environment. In addition, you will find a lot of small buttons, which can give you a lot of help. Some buttons are used to hide or show the answer. What's more important is that we have spare space, so you can take notes under each question in the process of learning FCP_FMGI_AD-7.6 Learning Materials.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q26-Q31):

NEW QUESTION # 26

An administrator notices that CLI scripts are failing on some FortiGate devices because they use different FortiOS versions. Which two actions should the administrator take to fix the failing CLI scripts? (Choose two.)

- A. Create separate ADOMs for each FortiOS version.
- B. **Modify the CLI scripts to include conditional commands based on FortiOS version**
- C. **Create version-specific CLI script groups and assign them to the appropriate devices.**
- D. Disable CLI scripts for devices using older firmware.

Answer: B,C

Explanation:

When FortiGate devices run different FortiOS versions, some CLI commands may be unsupported or behave differently across versions, causing scripts to fail.

C is correct because FortiManager CLI scripts can include conditional logic (for example, checking the FortiOS version) so only compatible commands are executed on each device.

D is correct because organizing version-specific CLI script groups ensures that each FortiGate device receives scripts that match its FortiOS version, preventing command incompatibility.

NEW QUESTION # 27

An administrator has enabled Service Access on FortiManager. What is the purpose of Service Access on the FortiManager interface?

- A. It allows third-party applications to gain read/write access to FortiManager.
- B. It allows FortiManager to determine the connection status of managed devices.
- **C. It allows FortiManager to respond to requests for FortiGuard services from FortiGate devices.**
- D. It allows administrative access to FortiManager.

Answer: C

Explanation:

Select the Fortinet services that are allowed access on this interface. These include FortiGate Updates and Web Filtering. Service access is not enabled on any port by default.

NEW QUESTION # 28

Which two items does an FGFM keepalive message include? (Choose two.)

- A. FortiGate uptime
- **B. FortiGate configuration checksum**
- **C. FortiGate IPS version**
- D. FortiGate license information

Answer: B,C

Explanation:

Keepalive messages, including the configuration checksums, are sent from FortiGate at configured intervals. The messages also show the intrusion prevention system (IPS) version of the FortiGate device.

NEW QUESTION # 29

Refer to the exhibits. An administrator needed to recover all the configurations related to the user, Support. The configurations were saved in configuration revision ID 9.

Device Revision Diff wizard

Device Revision Diff

Revision ID: 11		Revision ID: 9	
Total	12696	Total	12704
Deleted	0	Added	8
Modified	0	Modified	0
<pre> 8500 (...) end 8501 config user group 8502 (...) edit "Support" 8503 set type password 8504 set two-factor email 8505 set_email-to "support@email.com" 8506 next 8507 end 8508 config user group 8509 (...) set service "ALL" 8510 set users "Support" 8511 set comments "test" 8512 (...)</pre>		<pre> 8500 (...) end 8501 config user group 8502 (...) edit "Support" 8503 set type password 8504 set two-factor email 8505 set_email-to "support@email.com" 8506 next 8507 end 8508 config user group 8509 (...) set service "ALL" 8510 set users "Support" 8511 set comments "test" 8512 (...)</pre>	

Save Diff as Script **Show Full Diff** **Cancel**

CLI output

FortiManager # diagnose dvm device list

```

--- There are currently 6 devices/vdoms managed ---
--- There are currently 6 devices/vdoms count for license ---

TYPE      OID      SN      HA      IP      NAME      ADOM      IPS      FIRMWARE      HW_GenX
fmgfaz-managed 188  FGVM02TM24013504 - 100.65.1.111  BR1-FGT-1  My_ADOM  7.0 MR6 (3401)  N/A
|- STATUS: dev-db: not modified; conf: in sync; cond: OK; dm: installed; conn: up; template:[installed]default
|- vdom:[3]root flags:0 adm:My_ADOM pkg:[unknown]BR1-FGT-1

```

The administrator reverted the configuration using the Configuration Revision History window and received the CLI output shown in the exhibit.

What can you conclude from the CLI output?

- A. The administrator set the flag to 0 to prevent configuration overrides.
- B. The administrator installed only the device-level configuration.
- C. The administrator reinstalled the policy package.
- D. The administrator needs to retrieve the device to correctly detect the FortiGate firmware version.**

Answer: D

Explanation:

The CLI output shows the status "dev-db: not modified; conf: in sync; cond: OK; dm: installed," but the firmware version for the device is listed as "[unknown]." This indicates that FortiManager has not properly detected the FortiGate firmware version, likely because the device needs to be retrieved to update its information.

NEW QUESTION # 30

An administrator wants to configure and manage multiple objects in the FortiManager database and give access to other users who work in the same database.

To stay in control of the changes made to firewall policies by other team members, the administrator needs a setup where all modifications go through a central check before they can be installed.

How can the administrator create this setup?

- A. Enable the prompt asking the administrator to accept firewall policies changes before saving.
- B. Enable device lock and the advanced mode feature in the ADOM.
- C. Enable the workspace (for all ADOMs) to control all changes made by any administrator.
- D. Enable workflow mode and the ADOM lock feature.**

Answer: D

Explanation:

Enabling workflow mode along with the ADOM lock feature ensures that all configuration changes go through a centralized review and approval process before installation, allowing controlled and coordinated management of firewall policies by multiple administrators.

NEW QUESTION # 31

.....

Nowadays, flexible study methods become more and more popular with the development of the electronic products. The latest technologies have been applied to our FCP_FMGMG_AD-7.6 actual exam as well since we are at the most leading position in this field. You can get a complete new and pleasant study experience with our FCP_FMGMG_AD-7.6 Study Materials. Besides, you have varied choices for there are three versions of our FCP_FMGMG_AD-7.6 practice materials. At the same time, you are bound to pass the FCP_FMGMG_AD-7.6 exam and get your desired certification for the validity and accuracy of our FCP_FMGMG_AD-7.6 study materials.

FCP_FMGMG_AD-7.6 Reliable Exam Camp: https://www.actualcollection.com/FCP_FMGMG_AD-7.6-exam-questions.html

The FCP_FMGMG_AD-7.6 exam will be a shortcut for a lot of people who desire to be the social elite, FCP_FMGMG_AD-7.6 Reliable Exam Camp training material at ActualCollection FCP_FMGMG_AD-7.6 Reliable Exam Camp is the work of industry experts who join hands with our Professional FCP_FMGMG_AD-7.6 Reliable Exam Camp Writers to compose each and everything included in the training material, Fortinet Reliable FCP_FMGMG_AD-7.6 Dumps there was so much to study.

He has been rated by BusinessWeek as a Top Ten Professor in Corporate Executive Education, The type of this node, The FCP_FMGMG_AD-7.6 exam will be a shortcut for a lot of people who desire to be the social elite.

FCP_FMGMG_AD-7.6 Exam Braindumps Convey All Important Information of FCP_FMGMG_AD-7.6 Exam

Fortinet Network Security Expert training material at ActualCollection is the work of industry FCP_FMGMG_AD-7.6 Reliable Exam Review experts who join hands with our Professional Fortinet Network Security Expert Writers to compose each and everything included in the training material.

there was so much to study, You are independent to download as many files FCP_FMGMG_AD-7.6 as you need, If you are more likely to use the computer, the Desktop version is your choice, this version can provide you the feeling of the real FCP_FMGMG_AD-7.6 exam. If you prefer to practice the materials on online, then online version is your choice, this version support all web browsers, and you can practice it in your free time if you want.
