Snowflake SnowPro Core Certification Exam Sample Questions (Q140-

Q145):

NEW QUESTION # 140

What is the default value in the Snowflake Web Interface (UI) for auto suspending a Virtual Warehouse?

- A. 15 minutes
- B. 1 minutes
- C. 5 minutes
- D. 10 minutes

Answer: D

Explanation:

The default value for auto-suspending a Virtual Warehouse in the Snowflake Web Interface (UI) is 10 minutes. This setting helps manage compute costs by automatically suspending warehouses that are not in use, ensuring that compute resources are efficiently allocated and not wasted on idle warehouses.
