NEW QUESTION # 53

How can an administrator quickly examine the relationships between several objects?

- A. File a support case asking for a data relationship diagram
- **B. Go to Schema Builder and check the boxes next to the object names**
- C. Download it from the Partner Community
- D. Generate an Entity Relationship Diagram by going to Data in Setup

Answer: B

Explanation:

The best way for an administrator to quickly examine the relationships between several objects is to go to Schema Builder and check the boxes next to the object names. Schema Builder is a tool that allows administrators to view and modify the data model of their org in a graphical interface. Schema Builder shows the objects and fields in the org, as well as the relationships between them. The administrator can use Schema Builder to select the objects that they want to examine, and see how they are connected to each other.
