## 100% Pass 2026 156-836: Authoritative Check Point Certified Maestro Expert - R81 (CCME) Exam Simulations

Because the 156-836 exam simulation software can simulator the real test scene, the candidates can practice and overcome nervousness at the moment of real 156-836 test. Yes. We have this style of questions. Both of our soft test engine of 156-836 exam questions have this function. You can feel free to choose them. You set timed practicing. Also if you want to write on paper, you can choose our PDF format of 156-836 training prep which is printable. The online test engine is compatible for all operate systems and can work on while offline after downloading if you don't clear the cash.

## CheckPoint Check Point Certified Maestro Expert - R81 (CCME) Sample Questions (Q59-Q64):

### NEW QUESTION # 59

Which command is used to set the number of sites in a Maestro environment?

- A. set maestro orchestrator-site-amount

- B. set maestro configuration orchestrator-site-id
- C. set maestro configuration orchestrator-site-number
- D. set maestro configuration orchestrator-site-amount

**Answer: D**

Explanation:

Explanation

This command is used to set the number of sites in a Maestro environment, which can be either one or two.

The number of sites determines the site-sync configuration and the failover policies for the Security Groups and the Security Group Members. The default value is one, and it can be changed only before the first Security Group is created.

## NEW QUESTION # 60

The drop\_monitor command is useful for

- A. Viewing all interface drops such as RX-ERR, RX-DRP, and RX-OVR
- B. Showing the system temperature in real-time for multiple components, such as CPU, fan, and SSDs.
- C. Viewing all drops by Check Point code or the Gaia OS, such as RX-DRP, RX-ERR, and Gaia OS drops.
- D. Monitoring Check Point code drops

**Answer: C**

Explanation:

Explanation

The drop\_monitor command is a tool that monitors and displays the packets that are dropped by the Check Point code or the Gaia OS on the orchestrator and the appliances. It can help troubleshoot network issues and optimize performance. The command shows the drop reason, source, destination, protocol, and port of the dropped packets, as well as the interface and the module that dropped them.

## NEW QUESTION # 61

Which command do you use to find bottlenecks in the system that are affecting performance, even functionality in some cases?

- A. asg monitor
- B. asg perf -v
- C. asg stat -v
- D. asg diag verify

**Answer: B**

Explanation:

Explanation

The asg perf -v command is used to find bottlenecks in the system that are affecting performance, even functionality in some cases.

The asg perf -v command displays the performance statistics of the Security Group Modules (SGMs) in the Security Group, such as throughput, packet rate, CPU utilization, memory usage, and more. The asg perf -v command also shows the distribution mode and the correction rate of each SGM, which can indicate potential issues with asymmetric routing or load balancing. The asg perf -v command can help identify which SGMs are overloaded, underutilized, or misconfigured, and provide insights for troubleshooting and optimization.

### NEW QUESTION # 63

When a VPN tunnel is formed with a Maestro SGM,

- A. SGM 1 analyzes the policy and topology. If encryption is required, it calculates the tunnel owner's IP address. SGM 1 sends a clear packet to the tunnel owner. SGM 2 is now the connection and tunnel owner.
- B. The receiving SGM makes an encryption decision. The SGM then syncs the traffic to two backup SGMs: one for clear traffic and one for encrypted traffic.
- C. The MHO handles the IKE before distributing the traffic to a SGM to handle all encrypted traffic. This helps to prevent any issues with the correction layer.
- D. The MHO distributes copies of the packets to two different SGMs because SGM 1 will handle the clear traffic IKE exchange packets, while SGM2 handles encrypted packets.

**Answer: A**

### NEW QUESTION # 64

.....

At the same time, 156-836 study material also has a timekeeping function that allows you to be cautious and keep your own speed while you are practicing, so as to avoid the situation that you can't finish all the questions during the exam. With 156-836 Learning Materials, you only need to spend half your money to get several times better service than others. And you can get the 156-836 certification with little effort and money.
