# First-Grade Oracle 1Z1-771 Certification Dumps With Interarctive Test Engine & Useful Exam Dumps 1Z1-771 Pdf

Using 1Z1-771 exam prep is an important step for you to improve your soft power. I hope that you can spend a little time understanding what our study materials have to attract customers compared to other products in the industry. 1Z1-771 exam dumps have a higher pass rate than products in the same industry. If you want to pass 1Z1-771 Certification, then it is necessary to choose a product with a high pass rate. Our study materials guarantee the pass rate from professional knowledge, services, and flexible plan settings. According to user needs, 1Z1-771 exam prep provides everything possible to ensure their success.

It is convenient for the user to read. The 1Z1-771 test materials have a biggest advantage that is different from some online learning platform which has using terminal number limitation, the 1Z1-771 quiz torrent can meet the client to log in to learn more, at the same time, the user can be conducted on multiple computers online learning, greatly reducing the time, and people can use the machine online of 1Z1-771 Test Prep more conveniently at the same time. As far as concerned, the online mode for mobile phone clients has the same function.

## Exam Dumps 1Z1-771 Pdf & 1Z1-771 Pdf Exam Dump

Together with our excellent 1Z1-771 learning guide, the after-sale service staffs in our company share a passion for our customers on our 1Z1-771 exam questions, an intense focus on teamwork, speed and agility, and a commitment to trust and respect for all individuals. At present, our company is a leading global provider of 1Z1-771 Preparation exam in the international market. You may hear our website from your friends, colleagues or classmates for we have become a brand and professional on the 1Z1-771 practice engine.

# Oracle 1Z1-771 Exam Syllabus Topics:

| Topic | Details |
|---|---|
| Topic 1 | • Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications. |
| Topic 2 | • Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management. |
| Topic 3 | • Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments. |
| Topic 4 | • Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity. |
| Topic 5 | • Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences. |
| Topic 6 | • Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments. |
| Topic 7 | • Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions. |
| Topic 8 | • Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features. |
| Topic 9 | • Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding. |
| Topic 10 | • Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities. |
| Topic 11 | • Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX. |
| Topic 12 | • Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management. |

| Topic 13 | • Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development. |
|---|---|
| Topic 14 | • Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions. |
| Topic 15 | • Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction. |
| Topic 16 | • Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures. |
| Topic 17 | • Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development. |

# Oracle APEX Cloud Developer Professional Sample Questions (Q25-Q30):

**NEW QUESTION # 25**
What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. Push Notifications will be disabled for the application.
- B. Existing Push Subscriptions for the application will be invalidated.
- C. A new notification server must be created.

**Answer: B**

Explanation:
Regenerating Push Notification credentials updates the VAPID keys (public/private pair) in the PWA settings:
A . Existing Push Subscriptions invalidated: Subscriptions (in APEX_APPL_PUSH_SUBSCRIPTIONS) are tied to the old keys. New keys break this link, requiring users to re-subscribe (e.g., via browser prompts), as the push service (e.g., Firebase) can't authenticate old subscriptions.
B . New notification server: False; the server configuration remains; only credentials change.
C . Disabled for the app: False; notifications remain enabled but won't work for old subscriptions until re-established.
Technical Insight: Regeneration updates APEX_PWA_VAPID_PUBLIC_KEY and APEX_PWA_VAPID_PRIVATE_KEY, triggering a subscription refresh cycle.
Use Case: Security breach requires key rotation.
Pitfall: Users must re-opt-in, potentially losing some subscribers.

**NEW QUESTION # 26**
Which two declarative options in Oracle APEX allow you to download BLOB/CLOB content?

- A. APEX_UTIL.DOWNLOAD PL/SQL API
- B. Share Dynamic Action
- C. Download Page Process
- D. Download Dynamic Action

**Answer: C,D**

Explanation:
Declarative options for downloading BLOB/CLOB content include:
Download Dynamic Action: A built-in action type to trigger downloads of BLOB/CLOB data.

Download Page Process: A process type that declaratively handles BLOB/CLOB downloads from a table.
APEX_UTIL.DOWNLOAD is a PL/SQL API, not a declarative option, and Share Dynamic Action is for sharing URLs, not downloading files.

## NEW QUESTION # 27
In your application, you want to display data in a searchable, customizable report that supports inline editing at runtime using the mouse or keyboard. Which report type will you create?

- A. Interactive Grid
- B. Interactive Report
- C. Classic Report
- D. Smart Filters

**Answer: A**

Explanation:
An Interactive Grid is the report type that supports searchable, customizable data display with inline editing at runtime using mouse or keyboard. Interactive Reports are searchable and customizable but lack inline editing. Classic Reports are static, and Smart Filters is a component, not a report type.

## NEW QUESTION # 28
Which two are valid evaluation points for Authorization Schemes?

- A. Once per page view
- B. Once per user
- C. Once per session
- D. Never

**Answer: A,C**

Explanation:
Authorization Schemes in APEX can be evaluated at:
Once per page view: Checks authorization each time a page is rendered.
Once per session: Checks once per user session, caching the result.
Once per user and Never are not valid evaluation points in the Authorization Scheme settings.

## NEW QUESTION # 29
An application includes a form on the EMPLOYEES table. You must limit the P1_MANAGER page item so users can select a single employee name and ID from the corresponding manager ID in the same table. Which item type can be used to display P1_MANAGER?

- A. Switch
- B. Checkbox
- C. Popup LOV

**Answer: C**

Explanation:
The requirement is to allow users to pick a single employee (name and ID) from a list tied to the MANAGER_ID column in the EMPLOYEES table, implying a dynamic, searchable selection:
A . Popup LOV: This item type displays a popup window with a searchable list of values, sourced from a SQL query (e.g., SELECT ename, empno FROM employees WHERE empno IN (SELECT DISTINCT manager_id FROM employees)). It returns a single value (e.g., EMPNO) while displaying the name, perfectly meeting the need for a single selection from a related dataset.
B . Switch: A toggle (Yes/No), unsuitable for selecting from a list of employees.
C . Checkbox: Allows multiple selections, conflicting with the "single employee" requirement.
Practical note: Popup LOVs enhance usability with filtering and pagination, ideal for large employee lists, and support returning the ID while showing the name.

## NEW QUESTION # 30

......

In this hustling society, our 1Z1-771 practice materials are highly beneficial existence which can not only help you master effective knowledge but pass the exam effectively. They have a prominent role to improve your soft-power of personal capacity and boost your confidence of conquering the exam with efficiency. You will be cast in light of career acceptance and put individual ability to display. When you apply for a job you could have more opportunities than others. What is more, there is no interminable cover charge for our 1Z1-771 practice materials priced with reasonable prices for your information. Considering about all benefits mentioned above, you must have huge interest to them.
