SC-400 Reliable Exam Blueprint & Review SC-400 Guide

It never needs an internet connection. Microsoft Microsoft Information Protection Administrator practice exam software has several mock exams, designed just like the real exam. Microsoft SC-400 Practice Exam software contains all the important questions which have a greater chance of appearing in the final exam. Actual4test always tries to ensure that you are provided with the most updated Microsoft Information Protection Administrator Exam Questions to pass the exam on the first attempt.

Salary & Growth Opportunities with Microsoft SC-400 Exam

Microsoft's Information Protection Administrator Certification (MIS) is the foundation for all of Microsoft's security products. It focuses on the protection of data and access to that data from unauthorized users. Employers are looking for this certification if you want to work in the security field; it demonstrates that you have the skills necessary to not only implement but also administer and troubleshoot Microsoft's security products. Microsoft exams are performance based, so they are hands-on. After you register, you

will receive an email with a link to Microsoft's online learning center where you can view study materials, explore practice exams and labs, and learn more about the exam objectives. Students can also download a mobile app that provides additional learning tools on their phones or tablets. As long as you pass the exam within one year, you may take advantage of free re-certification. With such a low cost and high earning potential, it is well worth your while to become certified with Microsoft's MIS.

Microsoft Information Protection Administrator Sample Questions (Q143-Q148):

NEW QUESTION # 143
You create a sensitivity label as shown in the Sensitivity Label exhibit.
You create an auto-labeling policy as shown in the Auto Labeling Policy exhibit.

NEW QUESTION # 144
Hotspot Question
You have a Microsoft 365 subscription that contains a sensitivity label named Contoso Confidential.
You publish Contoso Confidential to all users.
Contoso Confidential is configured as shown in the Configuration exhibit. (Click the Configuration tab.)
The Encryption settings of Contoso Confidential are configured as shown in the Encryption exhibit. (Click the Encryption tab.)
For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 145
SIMULATION
Task 3
You plan to automatically apply a watermark to the document1 of a project named Falcon.
You need to create a label that will add a watermark of "Project falcon' in red. size-12 font diagonally across the documents.

Answer:

Explanation:
See the solution below in Explanation
Explanation:

To create a label that adds a watermark of "Project Falcon" in red, size-12 font diagonally across the documents, follow these steps:
Create a Sensitivity Label:
Log in to the Microsoft Purview portal or the Microsoft Purview compliance portal as an admin.
Navigate to Sensitivity labels and create a new label called "Project Falcon".
Specify the appropriate settings for this label, including encryption, content markings, and permissions.
Configure Content Markings (Watermark):
When creating the label, configure the content markings section.
Choose "Watermark" and set the text to "Project Falcon".
Select the color as red and font size as 12.
Set the watermark position to diagonal across the document.
Assign the Label:
Assign the "Project Falcon" label to the relevant documents within the Falcon project.
Users who apply this label will automatically add the specified watermark to their documents.

NEW QUESTION # 146
You have a Microsoft 365 subscription that contains two Microsoft SharePoint Online sites named Site! and Site2. You plan to use policies to meet the following requirements:
* Add a watermark of Confidential to a document if the document contains the words Project1 or Project2.
* Retain a document for seven years if the document contains credit card information.
* Add a watermark of Internal Use Only to all the documents stored on Site2.
* Add a watermark of Confidential to all the documents stored on Site!
You need to recommend the minimum number of sensitive info types required. How many sensitive info types should you recommend?
