Google Cloud-Digital-Leader Exam | Test Cloud-Digital-Leader Lab

Questions - Valuable Study Center for your Cloud-Digital-Leader Studying

This is the Cloud-Digital-Leader PDF format which contains real Cloud-Digital-Leader exam questions. You can print it and make a hard copy of this PDF file as well which helps you to prepare on the go. It comes in handy format and helps you prepare well with updated Google Cloud Digital Leader exam questions. Moreover, this PDF has questions that are according to the present content of the test. This PDF format helps you to enhance your understanding of each topic which you need to self-evaluate to boost your Google Cloud-Digital-Leader Exam Score.

Prerequisites of Google Cloud Digital Leader Exam

There is no prerequisite for this exam.

Google Cloud Digital Leader Sample Questions (Q248-Q253):

NEW QUESTION # 248
An organization is altering their gaming product so that it is compatible with cloud technology.
What can they expect when moving from traditional technology to cloud technology?

- A. No change to existing responsibilities
- B. A shift toward using structured data
- C. Increased hardware maintenance
- D. A shift toward OpEx

Answer: D

NEW QUESTION # 249
Which Google Cloud product gives you a consistent platform for multi-cloud application deployments and extends other Google Cloud services to your environment?

- A. Compute Engine
- B. Google Kubernetes Engine
- C. Anthos
- D. Virtual Public Cloud

Answer: C

Explanation:
https://cloud.google.com/anthos

NEW QUESTION # 250
An organization wants to write and run small pieces of code in a serverless way that respond to events like huge discounts.
Which Google Cloud compute solution should the organization use?

- A. Compute Engine
- B. Google Kubernetes Engine
- C. Cloud Functions
- D. Bare Metal Solution

Answer: C

NEW QUESTION # 251
A small scale retailer has been collecting its point of sale transaction in a PostgreSQL Da-tabase. They have raised funding for a strategic expansion goal in the next year that will see them grow significantly in Asia, Europe, North America, Which Database option should they choose in Google Cloud?

- A. Bigtable
- B. Spanner

- C. Cloud SQL
- D. BigQuary

Answer: B

Explanation:
Explanation
Spanner is a global scale Database that Support SQL querying, Similar to PostgreSQL, Which will be regional.
So that will be a fairly smooth move, Since they have the time and the funding, they can plan for this migration.

NEW QUESTION # 252
An organization is deciding on the layout of their resource hierarchy in Google Cloud. They have several projects within a folder. What will happen when user access policies are applied to the folder?

- A. The policy will be inherited by the projects and their resources within the folder.
- B. The policy will be applied to all folders within the organization.
- C. The policy will be inherited by the projects in the folder but will not affect their resources.
- D. The policy applies to the folder only, and will not be inherited by any projects.

Answer: A

Explanation:
The correct answer is B. The policy will be inherited by the projects and their resources within the folder.
Here's why:
* Context of the Question: The organization is deciding on the layout of their resource hierarchy in Google Cloud and wants to understand the impact of applying user access policies at the folder level.
* Google Cloud Product Relevance:
* In Google Cloud, policies applied at a higher level in the resource hierarchy (like an organization or folder) are inherited by all lower-level resources (such as projects and resources within those projects). Therefore, if a policy is applied to a folder, it will be inherited by all projects and their resources under that folder.
* This is a core concept in Google Cloud's Identity and Access Management (IAM) system, which ensures that permissions and policies are consistently applied throughout the resource hierarchy.
* Why Not Other Options:
* A. The policy applies to the folder only, and will not be inherited by any projects: This is incorrect because IAM policies are inherited down the resource hierarchy.
* C. The policy will be applied to all folders within the organization: This is incorrect because the policy applies only to the specific folder and its contents, not to other folders.
* D. The policy will be inherited by the projects in the folder but will not affect their resources: This is incorrect because policies inherited by projects also apply to the resources within those projects.
Google Cloud Digital Leader References:
* Refer to Google Cloud IAM documentation to understand how IAM policies are inherited in a resource hierarchy.

NEW QUESTION # 253
.....

Many people worry about that they have no time for practice the Cloud-Digital-Leader exam dumps and the cost of test is high. If you failed the test, it will be terrible to you. Getting the Google certification quickly seems impossible to you. Maybe our Cloud-Digital-Leader Dumps PDF is a better choice for you. It will help you get clear real exam quickly and effectively.
