At QuestionsTube, you can read JN0-1103 free demo questions in pdf file, so you can check the questions and answers before deciding to download the Juniper JN0-1103 practice questions. These free demo questions are parts of the JN0-1103 exam questions. Download and read them carefully, you will find that the JN0-1103 test questions of QuestionsTube will be your great learning materials online. Share some JN0-1103 exam online questions below.

1. Which two statements are true regarding greenfield projects? (Choose two.)

BONUS!!! Download part of PassLeaderVCE JN0-1103 dumps for free: [https://drive.google.com/open?id=1GuS\\_6QvT4oJrV-JUjHQcmVZ741YBazET](https://drive.google.com/open?id=1GuS_6QvT4oJrV-JUjHQcmVZ741YBazET)

If you want to clear the exam for Juniper JN0-1103 certification along with your job, there is no need to worry about it. You can choose flexible timings for the learning session and get all the Design - Associate (JNCIA-Design) (JN0-1103) exam questions online and practice with Juniper JN0-1103 exam dumps any time you want. There is no strict schedule for it.

## Juniper JN0-1103 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Campus and Branch WAN Design: This section of the exam measures skills of WAN Solutions Architects and covers considerations for designing campus or branch WANs. It includes understanding WAN connectivity functions, best practices for WAN design, performance optimization, VPN design, and implementing high availability through active</li><li>• active and active</li><li>• passive configurations. The section also explores Software-Defined WAN (SD-WAN) design considerations, devices, assurance models, and intersite connectivity.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• <b>Campus and Branch LAN Design:</b> This section of the exam measures skills of LAN Infrastructure Specialists and covers considerations for designing wired campus or branch LANs. It addresses best practices in campus LAN design, modular design approaches, subnet and VLAN planning, and access control mechanisms. The section also introduces Ethernet VPN-Virtual Extensible LAN (EVPN-VXLAN) architectures and discusses campus oversubscription ratios and design architectures.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Customer Network Design Requirements:</b> This section of the exam measures skills of Network Design Engineers and covers the foundational aspects of network design. It includes understanding Juniper's life-cycle service approach, defining proposal boundaries, and considerations for both greenfield and brownfield deployments. The section also addresses top-down network design methodologies and capacity planning to ensure scalable and efficient network infrastructures.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Securing the Network:</b> This section of the exam measures the skills of Security Architects and covers essential security design principles. It encompasses general security considerations, strategies for securing data centers and campus WANs, and the implementation of zero-trust security models. Additionally, it delves into Secure Access Service Edge (SASE) frameworks to enhance network security posture.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Data Center Network Design:</b> This section of the exam measures skills of Data Center Network Engineers and covers considerations for general data center network design. Topics include data center design best practices, understanding traffic patterns, virtual chassis implementation, and environmental considerations. The section also delves into data center fabric architectures, benefits of IP fabric over traditional architectures, spine-and-leaf device placement, underlay and overlay design, routing protocol selection, and best practices for IP fabric scaling.</li> </ul>

Our JN0-1103 practice test material aligns with the content of the actual Juniper JN0-1103 certification exam. Before making a purchase, you can test the features of our JN0-1103 Exam Questions with a free demo. By utilizing updated JN0-1103 Questions, you can easily pass the JN0-1103 exam on your first attempt. PassLeaderVCE has developed its JN0-1103 exam study material based on feedback from thousands of professionals worldwide.

## Juniper Design - Associate (JNCIA-Design) Sample Questions (Q170-Q175):

### NEW QUESTION # 170

Which automation tool can you use to automate Junos OS platforms?

- A. C#
- B. PHP
- C. SQL
- D. PyEZ

**Answer: D**

### NEW QUESTION # 171

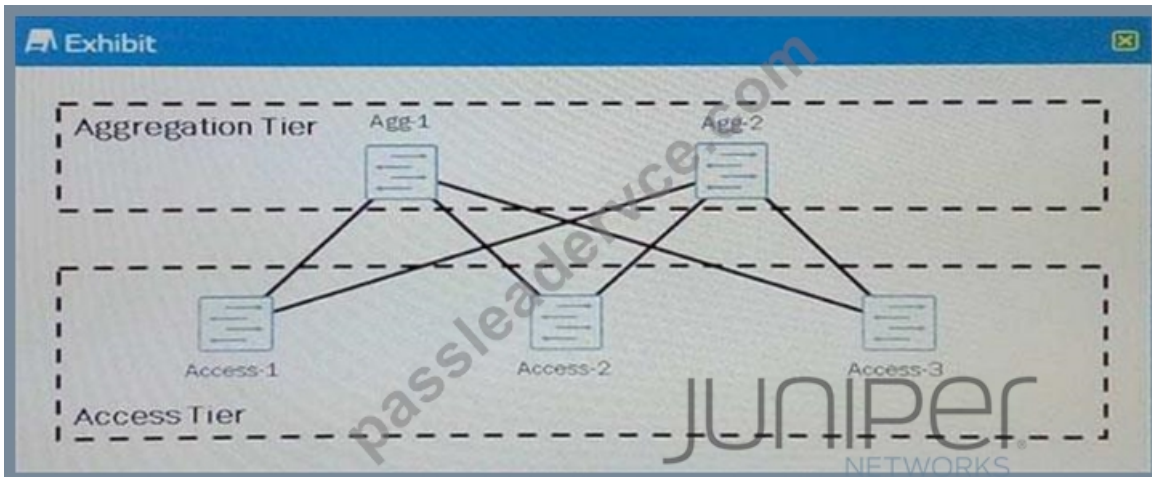

What type of device can be installed to increase a broadcast domain?

- A. switch
- B. router
- C. IDS
- D. IPS

**Answer: A**

### NEW QUESTION # 172

Click the Exhibit button.

Referring to the exhibit, you are designing a Layer 2 data center and you want to make sure that all the links between the access tier and the aggregation tier are used.

What should you do to accomplish this task?

- A. Use RSTP on all devices.
- B. Use VRRP on Agg-1 and Agg-2.
- C. Use BGP load balancing on all devices.
- **D. Place Agg-1 and Agg-2 in a Virtual Chassis.**

**Answer: D**

### NEW QUESTION # 173

You are designing a solution to allow secure communication over the public Internet for a corporate WAN deployment. For business policy reasons, all branch-to-branch traffic must first pass through the corporate headquarters.

Which solution will work in this scenario?

- A. Layer 3 VPN
- **B. hub-and-spoke IPsec VPN**
- C. full mesh IPsec VPN
- D. hub-and-spoke GRE VPN

**Answer: B**

### NEW QUESTION # 174

Your customer's new network contains network devices from multiple vendors. You have been asked to propose two technologies that will work among all the vendors' networking equipment.

Which two technologies can you recommend for the design? (Choose two.)

- A. EIGRP
- B. PVST
- **C. LDP**
- **D. RSVP**

**Answer: C,D**

### NEW QUESTION # 175

.....

A bold attempt is half success. Stop hesitating again, just try and choose our JN0-1103 test braindump. Please trust me, if you pay attention on dumps content, even just remember the questions and answers you will clear your exam surely. JN0-1103 test
