## IIBA Entry Certificate in Business Analysis (ECBA) Sample Questions (Q31-Q36):

### NEW QUESTION # 31

If a business analyst (BA) does not properly identify stakeholders, then the long-term implications are:

- A. decreased risk.
- **B. increased costs.**
- C. reduced requirements.
- D. higher satisfaction.

**Answer: B**

### NEW QUESTION # 32

Inputs to prepare for elicitation include:

- **A. needs and stakeholder engagement approach.**
- B. future state description and risk analysis results.
- C. requirements and designs.
- D. information management approach and solution scope.

**Answer: A**

Explanation:

Stakeholder engagement approach

### NEW QUESTION # 33

When should prioritization of requirements take place?

- A. After the maintain requirements task has been completed
- **B. Continually throughout the initiative**
- C. After the maintain requirements and trace requirements tasks have been completed
- D. At the very beginning of an initiative only

**Answer: B**

Explanation:

Prioritization of requirements is not a one-time activity but a continuous process that occurs throughout the initiative. This approach allows for adjustments as new information is discovered, priorities shift, and the project evolves. It ensures that the most current and relevant requirements are being addressed at any given time, aligning with the changing needs and values of the business and

stakeholders.

#### NEW QUESTION # 34

A focus group is a form of which type of research?

- A. Statistical
- **B. Qualitative**
- C. Quantitative
- D. Theoretical

**Answer: B**

Explanation:

A focus group is a qualitative research method used to gather in-depth insights and opinions from a group of individuals about a particular product, service, concept, or idea. It involves a small number of participants, typically 6-10, who are selected based on shared characteristics such as demographics, interests, or experiences. The discussion is moderated by a trained facilitator who encourages participants to share their thoughts, feelings, and attitudes towards the topic. This method is particularly effective for exploring perceptions, opinions, and ideas, making it a valuable tool for business analysis.

#### NEW QUESTION # 35

What are the participant roles in reviews?

- A. Approver, administrator, reviewer, tester
- B. Customer, supplier, end user, business analyst
- **C. Author, reviewer, facilitator, scribe**
- D. Domain SME, regulator, sponsor, project manager

**Answer: C**

Explanation:

In the context of business analysis, reviews are conducted to assess the content of a work product. The participants in these reviews typically include:

Author: The person who created the work product.

Reviewer: Individuals who evaluate the work product, looking for defects and areas of improvement.

Facilitator: The person who leads the review process, ensuring that the objectives are met and the process is efficient.

Scribe: The individual responsible for documenting the findings of the review.

These roles are essential to ensure that the work product is complete, valid, and meets the necessary quality standards.
