Qlik Sense System Administrator Certification Exam - February 2021 Release Sample Questions (Q36-Q41):

NEW QUESTION # 36

A system administrator needs to create a new security rule in the Qlik Management Console (QMC) to grant a specific group of users access to a particular application while restricting other groups.

What are the correct steps to achieve this? (Choose the correct sequence) A) Open QMC and navigate to the Security Rules section.

B) Click "Create New Rule" and assign a name to the rule.

C) Define the appropriate resource filter for the application.

D) Set the conditions to allow access only to the required user group.

- A. A -> B -> C -> D
- B. C -> A -> B -> D
- C. B -> D -> C -> A
- D. D -> B -> A -> C

Answer: A

NEW QUESTION # 37

A system administrator is configuring access to Qlik Sense for mobile device users from outside the corporate network via the corporate Enterprise Mobile Management (EMM) software.

The system administrator sets up a dedicated virtual proxy for these users. A mobile user enters the URL of the virtual proxy into their browser app, and successfully logs in to Qlik Sense.

The hub opens and the user sees the authorized streams and apps. The user taps to open an app, but the app fails to open.

What is the cause of this issue?

- A. The Qlik Sense virtual proxy for the mobile users does NOT support the EMM software
- B. The EMM software does NOT support the implementation of the WebSocket protocol
- C. The proxy service on the central node has NOT been linked to the dedicated virtual proxy
- D. The firewall in the corporate DMZ has NOT been correctly configured and is blocking ports required for Qlik Sense

Answer: B

NEW QUESTION # 38

A system administrator needs to prepare a backup strategy in their Qlik Sense environment. It is a multi-node environment.

What are the three crucial and necessary steps?

- A. Backup repository database on the central node
- B. Backup certificates on consumption nodes using MMC
- C. Backup logs and applications in File Share
- D. Backup certificates using MMC on the central node
- E. Backup of logs and applications on all nodes

Answer: A,C,D

NEW QUESTION # 39

What is a primary benefit of using a subscription-based license model in Qlik Sense?

- A. No requirement for license allocation
- B. Free updates for lifetime
- C. One-time payment with unlimited usage
- D. Flexibility to scale users based on business needs

Answer: D

NEW QUESTION # 40

Business users report that their Qlik Sense app performs slowly in the afternoon. The system administrator needs to check CPU and RAM utilization during that timeframe.

The system administrator has access only to the QMC and the hub.

Which tool should the system administrator use to investigate this issue?

- A. License Monitor
- B. Event Viewer
- C. Task Manager
- D. Operations Monitor

Answer: D
