Of course, we don't mind if you buy more than one version, as long as you think it is suitable.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q53-Q58):

NEW QUESTION # 53

What are the key capabilities of WalkMe's Analytics tools? Note: There are 3 correct answers to this question.

- A. Tracking user engagement with on-screen guidance
- B. Providing real-time insights into software usage and process efficiency
- C. Automatically deleting unused software from the tech stack
- D. Identifying workflow friction points and adoption gaps
- E. Preventing users from accessing certain applications

Answer: A,B,D

Explanation:

WalkMe's Analytics tools, primarily through Insights and Digital Experience Analytics (DXA), offer the following key capabilities:

* Tracking user engagement with on-screen guidance(A): Measures how users interact with WalkMe content like Smart Walk-Thrus and ShoutOuts.

* Identifying workflow friction points and adoption gaps(D): Pinpoints where users struggle or fail to adopt processes, enabling optimization.

* Providing real-time insights into software usage and process efficiency(E): Delivers actionable data on how software is used, highlighting inefficiencies.

The other options are incorrect:

* Automatically deleting unused software(B) is not a WalkMe capability; Discovery identifies, but doesn't delete.

* Preventing access to applications(C) is not an analytics function; it's related to policy enforcement.

Extract from Official WalkMe Documentation:

According to the SAP WalkMe Digital Adoption Consultant Study Guide (Section 3.1: Analytics Overview):

"WalkMe Analytics tracks engagement with guidance, identifies friction points and adoption gaps, and provides real-time insights into software usage and efficiency." The course WalkMe Fundamentals states:

"Key analytics capabilities include monitoring user engagement, detecting workflow issues, and offering real-time data to improve process efficiency." Options A, D, and E are the key capabilities.

NEW QUESTION # 54

What is the function of WalkMe Discovery's License Optimization feature?

- A. To automatically renew software licenses without user intervention
- B. To increase the number of applications used in an organization
- C. To disable unused applications permanently
- D. To identify potential wasted spend on app licenses

Answer: D

Explanation:

WalkMe Discovery's License Optimization feature analyzes application usage data to identify potential wasted spend on app licenses. By tracking which licenses are underutilized or unused, it helps organizations optimize software investments, reducing costs without disrupting operations.

The other options are incorrect:

* Automatically renewing licenses(A) is not a WalkMe function.

* Disabling unused applications permanently(C) is too extreme; Discovery provides insights, not actions.

* Increasing applications(D) contradicts the goal of optimization.

Extract from Official WalkMe Documentation:

Per the SAP WalkMe Digital Adoption Consultant Study Guide (Section 3.6: WalkMe Discovery):

"The License Optimization feature in WalkMe Discovery identifies underused or unused software licenses, highlighting opportunities to reduce wasted spend." The course WalkMe Fundamentals explains:

"WalkMe Discovery's License Optimization helps organizations save costs by pinpointing licenses that are not fully utilized, enabling informed decisions." Option B correctly describes the function of License Optimization.

NEW QUESTION # 55

In the Editor, a Shuttle has a full green circle next to it when looking at the Production environment. How would you describe the status of this Shuttle?

- A. Published to Production
- B. Published to Production but has been modified
- C. Draft mode in Test
- D. Archived in Production

Answer: A

NEW QUESTION # 56

Your company has a reporting page with features that have always been available. They recently added the ability for users to create their own reports. Not everyone uses the reporting tools, but they want to announce the new report creation feature for those who do use it. They will use a ShoutOut for this and only want to show it to users who use the tool.

Under the ShoutOut's engagement tab, which auto-play option would be best?

- A. Play once a day
- B. Off (activate via a Launcher)
- C. Play according to a rule
- D. Auto-play

Answer: C

NEW QUESTION # 57

How would you write a jQuery selector for the following HTML element: <div class="button" id="blueBtn">Click Here</div>?

- A. #blue Btn
- B. div#blueBtn
- C. div.blueBtn
- D. div#button

Answer: B

NEW QUESTION # 58

.....

There are a lot of leading experts and professors in different field in our company. The first duty of these leading experts and professors is to compile the C_WME_2506 exam questions.
