SAP Certified Associate - Positioning WalkMe Sample Questions (Q21-Q26):

NEW QUESTION # 21

What role does WalkMe's Action pillar serve?

- A. To automate application updates
- **B. To create workflows and guidance content quickly**
- C. To ensure intuitive user experiences
- D. To provide real-time analytics for identifying inefficiencies

Answer: B

Explanation:

The correct answer is:

B. To create workflows and guidance content quickly ☐

☐ Explanation

According to the Learning SAP course Outlining Strategy and Messaging, WalkMe's Action pillar is all about empowering organizations to rapidly design and deploy workflows and guidance content-with minimal IT involvement-using tools like the Workflow Accelerators, WalkMe Editor, and Builder Assistant. It enables companies to turn data-driven insights into action effectively.

☐ Why other options aren't correct:

* A. To automate application updates - This doesn't fall under the Action pillar's scope, which focuses on guided workflows and in-app support, not software maintenance.

* C. To ensure intuitive user experiences - While intuitive experiences are part of the Experience pillar (with smart walkthroughs, AI chat, etc.), the Action pillar focuses specifically on building and rolling out guidance content

* D. To provide real-time analytics for identifying inefficiencies - This relates to the Data pillar, which handles analytics and insights, not the Action pillar.

☐ Final Answer:

B. To create workflows and guidance content quickly
