学習ガイドが効率的であるほど、候補者はそれをより愛し、恩恵を受けます。C_BCBTM_2509学習トレントを使用してC_BCBTM_2509試験を正常に合格できるのは、最初の試行でも20~30時間であると言っても過言ではありません。また、お客様のさまざまな研究の興味や趣味に応えるため、PDF、ソフトウェア、APPオンラインなど、C_BCBTM_2509試験資料のバージョンで複数の選択肢を選択できます。

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions 認定 C_BCBTM_2509 試験問題 (Q30-Q35):

質問 # 30

What benefit does the combined WalkMe-SAP solution offer to enterprises?

- A. Streamlined user adoption and seamless process integration
- B. Enhanced physical supply chain management
- C. Lower software maintenance costs
- D. Increased hiring efficiency

正解: A

解説:

The partnership between SAP and WalkMe integrates WalkMe's Digital Adoption Platform (DAP) directly into SAP applications (such as SAP S/4HANA, SAP SuccessFactors, and SAP Ariba) to improve user engagement and digital process execution.

"The combined SAP-WalkMe solution helps organizations streamline user adoption and simplify process integration, ensuring users can easily navigate SAP systems and execute digital workflows correctly." Reference:

This integration provides contextual, real-time assistance to users within SAP interfaces, enabling faster onboarding, fewer errors, and improved productivity - all critical for successful transformation under the SAP Business Transformation Management (BTM) framework.

"WalkMe for SAP reduces complexity by guiding users in real time, supporting end-to-end process integration, and driving adoption across the SAP ecosystem." Incorrect Options:

A: Lower maintenance costs are a secondary effect, not the core benefit.

B: WalkMe is not a hiring solution.

D: It does not manage supply chains directly.

Verified Correct answer: C: Streamlined user adoption and seamless process integration.

質問 # 31

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To reduce digital friction and guide users through complex software
- B. To automate recruitment processes
- C. To implement advanced hardware solutions
- D. To manage payroll systems efficiently

正解: A

解説:

The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently.

"The primary purpose of WalkMe's Digital Adoption Platform is to reduce digital friction and guide users through complex software environments using AI-powered, context-aware assistance." Reference:

The platform enhances employee productivity, adoption success, and process efficiency across SAP and third-party applications by simplifying navigation and ensuring process compliance.

"WalkMe DAP provides contextual guidance directly within applications, enabling users to execute digital workflows with minimal errors or training." Incorrect Options:

A: WalkMe is software-based, not a hardware solution.

B: Recruitment automation is part of SAP SuccessFactors, not WalkMe.

D: Payroll management is unrelated to WalkMe's purpose.

Verified Correct answer: C: To reduce digital friction and guide users through complex software.

質問 # 32

How does SAP Signavio Process Manager help with business transformations?

- A. By generating automated financial reports for management.
- B. By eliminating the need for human oversight in process execution.
- **C. By allowing organizations to model processes.**
- D. By replacing existing ERP systems with a new workflow engine.

正解: C

解説:

SAP Signavio Process Manager is the core process modeling and design component of the SAP Signavio Business Transformation Suite. It allows organizations to visualize, document, and optimize processes as part of transformation initiatives.

"SAP Signavio Process Manager enables organizations to model, analyze, and document business processes in a collaborative environment to support transformation and continuous improvement." Reference:

Through its BPMN 2.0-based process modeling, businesses can capture current (as-is) processes, simulate new (to-be) designs, and align stakeholders for change management.

"Organizations use Process Manager to design and optimize processes before implementation in ERP systems, ensuring standardization and efficiency." Incorrect Options:

A: It does not remove human oversight; it supports collaboration and governance.

C: It does not replace ERP systems but complements them by providing modeling and process documentation.

D: Financial reporting is handled by ERP systems, not Signavio.

Verified Correct answer: B: By allowing organizations to model processes.

質問 # 33

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. SAP Signavio Journey Modeler
- **B. Enterprise Architecture Management**
- **C. Technology Risk and Compliance**
- D. SAP Commerce Cloud

正解: B、C

解説:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

質問 # 34

What does WalkMe Discovery help organizations achieve?

- A. Identifies underutilized tools and compliance risks
- B. Enhances employee satisfaction scores by 50%
- C. Automates training development processes
- D. Translates all tools into multiple languages automatically

正解: A

解説:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

質問 # 35

.....

他人の気付いていないときに、だんだんSAPのC_BCBTM_2509試験成功したいのですか？我が社はIT資格認証試験資料の販売者として、いつまでもできお客様に相応しく信頼できるC_BCBTM_2509問題集を提供できます。あなたのすべての需要を満たすためには、一緒に努力します。躊躇わずに我々の模試験を利用してみてください。全力を尽くせば、C_BCBTM_2509試験の合格も可能となります。
