If you are not sure about your exam, choosing our 350-801 exam cram file will be a good choice for candidates. We sell products by word of mouth. We are famous for our high pass-rate 350-801 Exam Cram. If you try to use our study materials one time, you will know how easy to pass exam with our 350-801 exam cram file. Our business policy is "products win by quality, service win by satisfaction".

Cisco Implementing and Operating Cisco Collaboration Core Technologies Sample Questions (Q345-Q350):

NEW QUESTION # 345

What is the purpose of the Claim users to your organization feature in Cisco Webex Control Hub?

- A. to allow self-registration and sideboarding for new users
- **B. to manage users who have registered for a Webex account on their own**
- C. to add new users to an organization without sending automated emails
- D. to assign users subscription licenses for an organization

Answer: B

Explanation:

In Cisco Webex Control Hub, the "Claim users to your organization" feature allows administrators to incorporate users who have independently registered for Webex accounts using the organization's email domain. This ensures that all users associated with the organization's domain are managed centrally, providing consistent access to services and adherence to organizational policies.

By claiming these users, administrators can:

- Consolidate User Management: Ensure all users with the organization's email domain are under a single administrative umbrella.
- Assign Appropriate Licenses: Provide users with the correct subscription licenses as per organizational entitlements.
- Enforce Security Policies: Apply consistent security and compliance policies across all users.

This process is particularly useful when users have created personal Webex accounts using their work email addresses, leading to potential discrepancies in service access and policy enforcement. By claiming these users, organizations can streamline user management and maintain control over their collaboration environment.
