Oracle 1Z1-771 Valid Exam Fee | 1Z1-771 Reliable Torrent

We ExamDumpsVCE are growing faster and faster owing to our high-quality latest 1Z1-771 certification guide materials with high pass rate. Based on our past data, our pass rate of 1Z1-771 training guide is high up to 99% to 100% recently years. Many customer will become regular customer and think of us once they have exams to clear after choosing our 1Z1-771 Exam Guide one time. So we have no need to spend much spirits to advertise but only put most into researching and after-sale service. As long as you study with our 1Z1-771 learning questions, you will find that it is a right choice.

Oracle APEX Cloud Developer Professional Sample Questions (Q37-Q42):

NEW QUESTION # 37
Which two statements are true about Oracle APEX?

- A. Application definition is not stored in the database.
- B. You can build interactive reporting apps based on data from disparate systems.
- C. Running an APEX app needs client software.
- D. APEX eliminates middle tier application logic.

Answer: B,D

Explanation:
Key truths about Oracle APEX:
APEX eliminates middle tier application logic: APEX runs entirely within the Oracle Database, using PL/SQL and SQL for logic, bypassing traditional middle-tier servers (e.g., Java EE). This simplifies architecture and boosts performance.
You can build interactive reporting apps based on data from disparate systems: Via REST Data Sources, database links, or ORDS, APEX integrates data from external systems, enabling unified reporting (e.g., combining on-premises and cloud data).
Needs client software: False; APEX is web-based, requiring only a browser.
Application definition not stored in database: False; definitions are stored as metadata in the database (e.g., APEX_APPLICATIONS).
This reflects APEX's database-centric, low-code philosophy.

NEW QUESTION # 38
You must create a single master detail page where users can select a row in the master region and see the corresponding details in the detail region. Users must also interact with the master or the detail without leaving the page. Which type of master detail implementation should you use?

- A. Side by Side
- B. Stacked
- C. Drill Down

Answer: A

Explanation:
Master-detail pages in APEX link a master dataset (e.g., list of orders) to its details (e.g., order items). The requirements demand:
C . Side by Side: This layout places the master region (e.g., an Interactive Report) and detail region (e.g., a Form or Grid) horizontally on the same page. Selecting a master row updates the detail region via AJAX, allowing interaction with both regions without navigation. It's ideal for workflows needing simultaneous visibility (e.g., editing details while browsing masters).
A . Drill Down: Master links to a separate detail page, requiring navigation, which violates the "without leaving the page" condition.
B . Stacked: Master and detail are vertically stacked, but interaction is less fluid than side-by-side due to scrolling, though still on one page. Side-by-side is preferred for its clarity and accessibility.
Pitfall: Ensure the detail region's "Server-side Condition" uses the master's selected key (e.g., P1_ID).

NEW QUESTION # 39
What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. Existing Push Subscriptions for the application will be invalidated.
- B. A new notification server must be created.
- C. Push Notifications will be disabled for the application.

Answer: A

NEW QUESTION # 40
What do you achieve by performing the "Refresh Working Copy" task?

- A. Get the latest updates from the Main application.
- B. Merge the Working Copy changes with the Main application.
- C. Update the changes from one Working Copy to another.

Answer: A

Explanation:

Working Copies in APEX allow safe experimentation:

C . Get the latest updates from the Main application: "Refresh Working Copy" (in App Builder > Working Copies) pulls changes from the Main application into the Working Copy, ensuring it reflects the latest state (e.g., new pages, fixes) without overwriting Working Copy changes.

A . Merge with Main: Merging is a separate "Merge Working Copy" task.

B . Update between Working Copies: Not supported; refreshing is Main-to-Working only.

Practical note: Use this to sync collaborative development efforts.

NEW QUESTION # 41

An APEX e-commerce application is being used by 50 users. You have a promotional offer, and you need to send a push notification to all the subscribed users on their devices. Which step must be performed in Oracle APEX to achieve this?

- A. Enable push notifications at the application level and let APEX handle the subscription and delivery process automatically.
- B. Create a REST Data Source to send push notifications to all the subscribed users.
- C. Create a Dynamic Action of Send Push Notification type to send push notifications to all the subscribed users.
- D. Create a PL/SQL block to fetch all the subscribed users and send push notifications by using APEX_APPL_PUSH_SUBSCRIPTIONS & APEX_PWA.SEND.

Answer: D

Explanation:

To send push notifications to all subscribed users, you must:

Enable push notifications at the application level (a prerequisite).

Use a PL/SQL block with APEX_APPL_PUSH_SUBSCRIPTIONS to fetch subscribers and APEX_PWA.SEND to send the notifications.

Option A is incorrect as there's no "Send Push Notification" Dynamic Action type. Option B is incomplete as enabling alone doesn't send notifications. Option C is unrelated to push notifications.

NEW QUESTION # 42

......

Your eligibility of getting a high standard of career situation will be improved if you can pass the exam, and our 1Z1-771 practice materials are your most reliable ways to get it. You can feel assertive about your exam with our 100 guaranteed professional 1Z1-771 practice materials, let along various opportunities like getting promotion, being respected by surrounding people on your profession's perspective. All those beneficial outcomes come from your decision of our 1Z1-771 practice materials. We are willing to be your side offering whatever you need compared to other exam materials that malfunctioning in the market.
