Our company is a professional certificate exam materials provider, therefore we have rich experiences in offering exam dumps. Plat-Admn-301 study materials are famous for high quality, and we have received many good feedbacks from our customers, and they think highly of our Plat-Admn-301 exam dumps. Moreover, we also pass guarantee and money back guarantee, and if you fail to pass the exam, we will give you refund and no other questions will be asked. Plat-Admn-301 Training Materials have free update for 365 days after purchasing, and the update version will be sent to you email automatically.

Salesforce Plat-Admn-301 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Environment Management and Deployment: This section of the exam measures skills of Salesforce Administrator and covers moving metadata between environments using tools such as sandboxes, change sets, and managed or unmanaged AppExchange packages. It explains the capabilities and best practices related to deploying changes through change sets to ensure smooth and controlled migrations.
Topic 2	<ul style="list-style-type: none">Process Automation: This section of the exam measures skills of Salesforce Consultant and covers choosing the right automation tools to solve complex business problems. It focuses on understanding the capabilities and limitations of declarative tools, identifying the right troubleshooting methods, and applying automation correctly within Salesforce's order of execution. This section emphasizes designing efficient, scalable automation using workflow tools, flows, and other declarative features.

Topic 3	<ul style="list-style-type: none"> • Security and Access: This section of the exam measures the skills of Salesforce Administrator and covers how record-level access, field access, and sharing models impact data visibility across the system. It focuses on understanding controlled-by-parent relationships, territory management, role hierarchies, and access to reports, dashboards, and email folders. It also includes comparing custom profiles, permission sets, and delegated administration, along with evaluating different authentication methods. The section also addresses the structure of business models such as person accounts, standard accounts, contacts, and contact-to-multiple-account relationships.

Plat-Admn-301 Dumps Questions & Interactive Plat-Admn-301 EBook

If your job is very busy and there is not much time to specialize, and you are very eager to get a Plat-Admn-301 certificate to prove yourself, it is very important to choose a very high Plat-Admn-301 learning materials like ours that passes the rate. I know that the 99% pass rate of our Plat-Admn-301 Exam simulating must have attracted you. Do not hesitate anymore. You will never regret buying our Plat-Admn-301 study engine!

Salesforce Certified Platform Administrator II Sample Questions (Q115-Q120):

NEW QUESTION # 115

An administrator needs to Import a large amount of historical data (more than 100,000 records) from another system. how should the administrator import the data?

- **A. Data Loader with Bulk API Enabled**
- B. An AppExchange package
- C. SOAP based API with Developer console
- D. Import Wizard with Add Only

Answer: A

Explanation:

Data Loader is a tool that allows administrators to import or export large amounts of data (more than 50,000 records) from or to Salesforce using CSV files. Data Loader can be used for inserting, updating, deleting, upserting, exporting, or extracting data. Bulk API is an API that allows administrators to process large batches of records asynchronously in the background. Bulk API can handle millions of records with high performance and minimal system resources. By using Data Loader with Bulk API enabled, an administrator can import a large amount of historical data (more than 100,000 records) from another system efficiently and securely. References: https://help.salesforce.com/s/articleView?id=sf.data_loader.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.loader_api.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.bulk_api_intro.htm&type=5

NEW QUESTION # 116

A user is getting an error when attempting to merge two accounts. The administrator checks the profile to see the user has Read/Write permission on Accounts and is the owner of both records.

What is preventing the user from completing the merge?

- A. The user is assigned to the wrong territory.
- B. Only administrators have permission to merge records.
- C. The Account matching rules are not set.
- **D. The Delete permission is missing on the user for Accounts.**

Answer: D

Explanation:

The Delete permission is missing on the user for Accounts is what is preventing the user from completing the merge. Merging accounts is a way to combine up to three duplicate accounts into one master record and update the related records accordingly.

Merging accounts requires the Delete permission on accounts because merging accounts involves deleting the duplicate records and keeping only the master record.

NEW QUESTION # 117

A user started to work remotely. They are having an issue logging in.
What could be the issue?

- A. The user Is not In the IP range for their profile.
- B. The time zone for the profile is outside of login hours.
- C. They are signing in from a mobile device.
- D. The login session has expired for this user.

Answer: A

Explanation:

IP ranges are settings that restrict login access to Salesforce from specific IP addresses. Administrators can set IP ranges at the org level or at the profile level. If a user tries to log in from an IP address that is outside the allowed range for their profile or their org, they will not be able to access Salesforce. Therefore, if a user started to work remotely and is having an issue logging in, it could be because they are not in the IP range for their profile or their org. NEW QUESTION # 118

When an Account has more than five open opportunities over US\$10,000, the sales rep should have an option on the Account page to start the escalation process to allocate additional resources.

Which two configurations should the administrator create?

Choose 2 answers

- A. Component Visibility filter
- B. Roll-Up Summary field
- C. Formula field
- D. Dynamic Forms

Answer: C,D

Explanation:

Formula field and Dynamic Forms should be created to meet the requirements because a formula field can be used to count the number of open opportunities over US\$10,000 related to an account using a roll-up summary filter condition, and Dynamic Forms can be used to display or hide a component on an account page based on a visibility filter using the formula field value. NEW QUESTION # 119

A sales user is assigned to a permission set group that gives them Modify All access to Accounts. An administrator assigns the same user to a muting permission set that mutes Deletes access on Account.

What level of access will the sales user have on the Account object?

- A. Modify All
- B. No Access
- C. Read, Create, and Edit
- D. Read-only

Answer: A

Explanation:

Modify All is the level of access that the sales user will have on the Account object after being assigned to a muting permission set that mutes Delete access on Account. Muting permissions are a way to reduce or remove access to objects or fields for users who are assigned to permission set groups. Muting permissions can only mute object-level permissions, such as Create, Read, Edit,

Delete, View All, or Modify All, but not field-level permissions or other permissions. Muting permissions can only reduce or remove access that is granted by other permission sets or permission set groups within the same permission set group, but not by profiles or other sources of access. Therefore, in this case, the muting permission set will only mute the Delete access on Account that is granted by the permission set group, but not the Modify All access that is also granted by the permission set group.

NEW QUESTION # 120

More successful cases of passing the Plat-Admn-301 exam can be found and can prove our powerful strength. As a matter of fact, since the establishment, we have won wonderful feedback and ceaseless business, continuously working on developing our Plat-Admn-301 test prep.
