

Exam 1Z0-1084-25 Fee Exam Pass Certify | 1Z0-1084-25: Oracle Cloud Infrastructure 2025 Developer Professional

What's more, part of that Exam4Labs 1Z0-1084-25 dumps now are free: https://drive.google.com/open?id=1RktqBRBghF3nY2_CjXiWtbwOeItva7Uo

Once you have practiced and experienced the quality of our 1Z0-1084-25 exam preparation, you will remember the serviceability and usefulness of them. It explains why our 1Z0-1084-25 practice materials helped over 98 percent of exam candidates get the certificate you dream of successfully. Believe me you can get it too and you will be benefited by our 1Z0-1084-25 Study Guide as well. Just have a try on our 1Z0-1084-25 learning prep, and you will fall in love with it.

Some candidates may considerate whether the 1Z0-1084-25 exam guide is profession, but it can be sure that the contents of our study materials are compiled by industry experts after them refining the contents of textbooks, they have good knowledge of exam. 1Z0-1084-25 test questions also has an automatic scoring function, giving you an objective rating after you take a mock exam to let you know your true level. At the same time, 1Z0-1084-25 Exam Torrent will also help you count the type of the wrong question, so that you will be more targeted in the later exercises and help you achieve a real improvement. 1Z0-1084-25 exam guide will be the most professional and dedicated tutor you have ever met, you can download and use it with complete confidence.

1Z0-1084-25 Reliable Exam Cost - 1Z0-1084-25 Reliable Study Questions

Despite the complex technical concepts, our 1Z0-1084-25 exam questions have been simplified to the level of average candidates, posing no hurdles in understanding the various ideas. It is also the reason that our 1Z0-1084-25 study guide is famous all over the world. We also have tens of thousands of our loyal customers who support us on the 1Z0-1084-25 Learning Materials. Just look at the feedbacks on our website, they all praised our 1Z0-1084-25 practice engine.

Oracle Cloud Infrastructure 2025 Developer Professional Sample Questions

(Q55-Q60):

NEW QUESTION # 55

Which THREE are valid statements regarding the OCI Container Engine for Kubernetes (OKE) service? (Choose three.)

- A. OKE automatically creates and configures new network resources for the new cluster.
- B. You must have access to an Oracle Cloud Infrastructure tenancy. Your tenancy must have sufficient quota on different types of resources.
- C. OKE cannot use existing network resources for the creation of a new cluster.
- D. There is a limit of three clusters within each region, but there is no limit on the number of nodes and pods you can create within each cluster.

Answer: A,B,D

Explanation:

The valid statements regarding the OCI Container Engine for Kubernetes (OKE) service are: OKE automatically creates and configures new network resources for the new cluster. When creating a new OKE cluster, the service automatically provisions and configures the necessary network resources, such as VCNs, subnets, route tables, security lists, and load balancers, to support the cluster. Your tenancy must have sufficient quota on different types of resources. Before creating an OKE cluster, you need to ensure that your Oracle Cloud Infrastructure (OCI) tenancy has sufficient quota for the required resources, such as compute instances, block storage, networking resources, and load balancers. You must have access to an Oracle Cloud Infrastructure tenancy. To use the OKE service, you need to have access to an OCI tenancy. This means you must have a valid OCI account and the necessary permissions to create and manage resources within the tenancy. The following statements are not valid: OKE cannot use existing network resources for the creation of a new cluster. OKE creates new network resources specifically for the cluster, and it does not support using existing network resources. There is a limit of three clusters within each region, but there is no limit on the number of nodes and pods you can create within each cluster. This statement is incorrect. There is no specific limit on the number of clusters you can create within a region in OKE. However, there may be certain limits or quotas on resources that can impact the number of clusters you can create.

NEW QUESTION # 56

Which TWO are part of the Cloud Native Computing Foundation (CNCF) container runtime? (Choose two.)

- A. containerd
- B. getcd
- C. rkt-o
- D. runc

Answer: A,D

Explanation:

The two components that are part of the Cloud Native Computing Foundation (CNCF) container runtime are: containerd: containerd is an open-source container runtime that provides a runtime environment for containers, including managing container images, executing containers, and handling container lifecycle events. It is designed to be lightweight and extensible, providing the necessary functionality to run containers efficiently. runc: runc is a lightweight container runtime that serves as a reference implementation of the Open Container Initiative (OCI) runtime specification. It is responsible for launching and managing containers based on OCI specifications, including handling container isolation, namespaces, cgroups, and other low-level container operations. These two components, containerd and runc, are widely used in the container ecosystem and are part of the CNCF's efforts to promote and develop open-source technologies for cloud-native computing.

NEW QUESTION # 57

To enforce mutual TLS (mTLS) authentication for clients of your microservices, your team has chosen to leverage the Oracle Cloud Infrastructure (OCI) API Gateway service to create new API Deployments that will direct requests to your microservices. Which is NOT valid regarding the mTLS options in OCI API Gateway?

- A. Adding a custom certificate authority (CA) or custom CA bundle to your gateway's trust store for mTLS is optional unless you need to reject certificates that do not contain particular values (such as a domain name).
- B. Once the mTLS request policy is enabled, ALL requests with valid certificates are routed to the backend unless you have defined one or more particular values (such as a domain name).
- C. The mTLS request policy can only be enabled at the API deployment specification level, which then applies globally to

ALL routes in that deployment.

- D. Custom CA or custom CA bundles can be added to your gateway's trust store ONLY if they already exist in the OCI Certificates service.

Answer: A

Explanation:

The correct answer is: "Adding a custom certificate authority (CA) or custom CA bundle to your gateway's trust store for mTLS is optional unless you need to reject certificates that do not contain particular values (such as a domain name)." The statement that is NOT valid regarding the mTLS options in OCI API Gateway is: "Adding a custom certificate authority (CA) or custom CA bundle to your gateway's trust store for mTLS is optional unless you need to reject certificates that do not contain particular values (such as a domain name)." In OCI API Gateway, adding a custom certificate authority (CA) or custom CA bundle to the gateway's trust store is not optional. It is a necessary step when configuring mTLS authentication. The trust store in the gateway is used to validate the client certificates presented during mTLS authentication. The other options listed are valid regarding the mTLS options in OCI API Gateway: Once the mTLS request policy is enabled, all requests with valid certificates are routed to the backend unless specific values (such as a domain name) are defined. This means that only requests with valid client certificates will be allowed to access the backend microservices. The mTLS request policy can only be enabled at the API deployment specification level, and it applies globally to all routes in that deployment. This ensures consistent mTLS authentication across all routes and endpoints in the API deployment. Custom CA or custom CA bundles can be added to the gateway's trust store, but only if they already exist in the OCI Certificates service. This allows you to include trusted CAs or CA bundles to validate client certificates during mTLS authentication.

NEW QUESTION # 58

Which two "Action Type" options are NOT available in an Oracle Cloud Infrastructure (OCI) Events rule definition? (Choose two.)

- A. Email
- B. Streaming
- C. Notifications
- D. Slack
- E. Functions

Answer: A,D

Explanation:

The two "Action Type" options that are NOT available in an Oracle Cloud Infrastructure (OCI) Events rule definition are: Email (Correct) Slack (Correct) The available "Action Type" options in OCI Events rule definition include Functions, Notifications, and Streaming. However, email and Slack are not directly supported as action types in OCI Events. Instead, you can use Notifications to send notifications to various notification channels, including email and Slack, through the OCI Notifications service.

NEW QUESTION # 59

You want to push a new image in the Oracle Cloud Infrastructure (OCI) Registry. Which TWO actions would you need to perform? (Choose two.)

- A. Generate an OCI tag namespace in your repository.
- B. Generate an auth token to complete the authentication via Docker CLI.
- C. Assign an OCI defined tag via OCI CLI to the image.
- D. Generate an API signing key to complete the authentication via Docker CLI.
- E. Assign a tag via Docker CLI to the image.

Answer: B,E

Explanation:

To push a new image to the Oracle Cloud Infrastructure (OCI) Registry, you would need to perform the following two actions:
Assign a tag via Docker CLI to the image: Before pushing the image, you need to assign a tag to it using the Docker CLI. The tag helps identify the image and associate it with a specific version or label. Generate an auth token to complete the authentication via Docker CLI: To authenticate and authorize the push operation, you need to generate an auth token. This token is used to authenticate your Docker CLI with the OCI Registry, allowing you to push the image securely. Note: Generating an API signing key, assigning an OCI defined tag via OCI CLI, and generating an OCI tag namespace are not required steps for pushing a new image to the OCI Registry.

NEW QUESTION # 60

.....

To keep with the fast-paced social life, we provide the fastest delivery services on our 1Z0-1084-25 exam questions. As most of the people tend to use express delivery to save time, our 1Z0-1084-25 preparation exam will be sent out within 5-10 minutes after purchasing. As long as you pay at our platform, we will deliver the relevant 1Z0-1084-25 Exam Materials to your mailbox within the given time. Our company attaches great importance to overall services, if there is any problem about the delivery of 1Z0-1084-25 exam materials, please let us know, a message or an email will be available.

1Z0-1084-25 Reliable Exam Cost: <https://www.exam4labs.com/1Z0-1084-25-practice-torrent.html>

The Exam4Labs 1Z0-1084-25 Practice Questions are designed and verified by experienced and renowned 1Z0-1084-25 exam trainers, After you have successfully paid, you can immediately receive 1Z0-1084-25 test guide from our customer service staff, and then you can start learning immediately, Chrome, Opera, Internet Explorer, Microsoft Edge, and Firefox also support the web-based 1Z0-1084-25 practice test software, It is a best choice to improve your professional skills and ability to face the challenge of 1Z0-1084-25 practice exam with our online training.

This can occur because of a merger or acquisition between two different companies 1Z0-1084-25 that have standardized around different messaging products, They stare at the computer screen, hoping that they'll somehow regain mental focus.

Oracle Cloud Infrastructure 2025 Developer Professional latest Pass4sures torrent & 1Z0-1084-25 pdf vce collection

The Exam4Labs 1Z0-1084-25 Practice Questions are designed and verified by experienced and renowned 1Z0-1084-25 exam trainers, After you have successfully paid, you can immediately receive 1Z0-1084-25 test guide from our customer service staff, and then you can start learning immediately.

Chrome, Opera, Internet Explorer, Microsoft Edge, and Firefox also support the web-based 1Z0-1084-25 practice test software, It is a best choice to improve your professional skills and ability to face the challenge of 1Z0-1084-25 practice exam with our online training.

Our 1Z0-1084-25 learning guide just want to give you the most important information.
