The simplified information contained in our Nutanix NCP-CN training guide is easy to understand without any difficulties. And our Nutanix NCP-CN practice materials enjoy a high reputation considered as the most topping practice materials in this career for the merit of high-effective. A great number of candidates have already been benefited from them.

Nutanix NCP-CN Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Perform Day 2 Operations: This part assesses the expertise of site reliability engineers and cluster operators in ongoing cluster management tasks after deployment. It includes configuring authentication and authorization mechanisms, setting up logging systems, and implementing cluster backup and recovery procedures. Candidates also need to demonstrate skills in monitoring cluster performance and health, configuring autoscaling to handle workload changes, and performing lifecycle management functions such as upgrades and maintenance.
Topic 2	<ul style="list-style-type: none">• Prepare the Environment for an NKP Deployment: This section of the exam measures the skills of infrastructure engineers and cloud administrators and covers the initial setup tasks needed for NKP deployment. Candidates must demonstrate the ability to seed a private container registry, create a bootstrap Kubernetes cluster, and determine license tiers suitable for clusters. They also need to prepare a bastion host for secure access, build machine images or prepare nodes for deployment, and gather all necessary information to build a cluster on the target cloud or on-premises provider.

Topic 3	<ul style="list-style-type: none"> Manage Building an NKP Cluster: This section evaluates the skills of Kubernetes administrators and platform engineers in customizing and deploying NKP clusters. Candidates must show proficiency in tailoring cluster configurations to meet specific requirements and deploying Kommander, the management platform, while applying the appropriate licenses to enable cluster features and management capabilities.
Topic 4	<ul style="list-style-type: none"> Conduct NKP Fleet Management: This section tests the abilities of platform administrators and cloud operations engineers in managing multiple clusters as a fleet. It focuses on configuring workspaces to organize clusters, deploying workload clusters within these workspaces, and attaching or detaching clusters as needed. Additionally, candidates must be able to configure projects for workload segmentation and manage platform applications that support the overall NKP environment.

NCP-CN New Braindumps Book - Valid NCP-CN Test Syllabus

The third and last format is the Nutanix NCP-CN desktop practice exam software form that can be used without an active internet connection. This software works offline on the Windows operating system. The practice exams benefit your preparation because you can attempt them multiple times to improve yourself for the Nutanix NCP-CN Certification test. Our Nutanix Certified Professional - Cloud Native v6.10 (NCP-CN) exam dumps are customizable, so you can set the time and questions according to your needs.

Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q67-Q72):

NEW QUESTION # 67

A Platform Engineer is preparing to deploy a new NKP cluster on Nutanix infrastructure into an air-gapped environment. As part of the preparation process, the engineer is supplying a Ubuntu 22.04 instance to be used for NKP cluster nodes that conforms to the corporate OS image hardening standards. However, during the NIB preparation process, the error shown in the exhibit is received. What is the likely reason the NIB preparation attempt has failed?

- A. The engineer has not seeded the local registry with the required NKP images prior to the NIB-prep attempt.
- B. The engineer has supplied the inartifacts directory for the OS package bundle in the NIB-prep command.
- C. Ubuntu 22.04 is not a supported OS for NKP nodes on Nutanix infrastructure, therefore the necessary OS package bundle does not exist.
- D. The engineer has not created the OS package bundle prior to the NIB-prep attempt.**

Answer: D

NEW QUESTION # 68

A company recently deployed NKP. A Platform Engineer was asked to attach the existing Amazon EKS. A workspace and project were created accordingly, and resource requirements were met. What does the engineer need to do first to prepare the EKS clusters?

- A. Create a service account with cluster-admin permissions.**
- B. Configure a ConfigMap according to EKS configuration.
- C. Configure HAProxy to get connected to EKS clusters.
- D. Deploy cert-manager in the EKS clusters.

Answer: A

NEW QUESTION # 69

A Platform Engineer has deployed NKP and wants to utilize its OOB data storage feature. What should the engineer enable to support backups within the NKP environment?

- A. MinIO
- B. Volumes iSCSI
- C. Objects S3
- D. Rook Ceph

Answer: D

NEW QUESTION # 70

A company has 30 Edge devices with lightweight Kubernetes, and developers need to push the application to every edge device. An NKP administrator has the NKP Ultimate license tier configured and has access to all kubeconfig files for the 30 edge devices. What is the most efficient way that the administrator can lifecycle manage the application deployments?

- A. Ask the developers to delete the lightweight Kubernetes and deploy new Kubernetes clusters with NKP.
- B. Create a GitHub configuration, deploy it to the 30 edge devices, and configure them to use a GitHub account.
- C. Create a script to automate the deployment to every edge device.
- D. Create a new Workspace and attach the 30 edge devices to this workspace with Attach Cluster.

Answer: D

NEW QUESTION # 71

A company has a new DevOps team that needs to be provided cloud native computing resources. This team will need to have access to multiple NKP clusters for development, testing and validation of an in-house application. However, they also need to be restricted to a specific namespace and a consistent level of access across the clusters within this namespace so that they do not adversely impact the environment of other user groups or the clusters themselves.

As a part of this consideration, the new team also needs to be limited to the amount of storage, CPU and memory they can consume on the clusters. A Platform Engineer has been tasked with providing the appropriate level of access to the team on these multiple NKP clusters.

How should the engineer best accomplish this task?

- A. 1.Enable Gatekeeper on the NKP clusters.2.Create an NKP group for the DevOps team3.Assign Gatekeeper quota and authorization policies to that NKP group.
- B. 1.Create an NKP workspace and assign the NKP clusters to it.2.Create quotas for the NKP workspace.3.Create an NKP group for the DevOps team4.Assign that NKP group the proper RBAC roles within that NKP workspace.
- C. 1.Create an NKP group for the DevOps team2.Assign that NKP group the proper RBAC roles in the NKP UI.3.Select the export to yaml option once the RBAC role assignment to that NKP group is complete.4.Apply the exported manifest to each of the NKP clusters using kubectl.
- D. 1.Create an NKP project and assign the NKP clusters to it.2.Create quotas for the NKP project.3.Create an NKP group for the DevOps team4.Assign that NKP group the proper RBAC roles within that NKP project.

Answer: C

NEW QUESTION # 72

.....

Nutanix Certification exams are essential to move ahead, because being certified professional a well-off career would be in your hand. Nutanix is among one of the strong certification provider, who provides massively rewarding pathways with a plenty of work opportunities to you and around the world. But the mystery is quite challenging to pass NCP-CN exam unless you have an updated exam material. Thousands of people attempt NCP-CN Exam but majorly fails despite of having good professional experience, because only practice and knowledge isn't enough a person needs to go through the exam material designed by Nutanix, otherwise there is no escape out of reading. Well, you have landed at the right place; Pass4sureCert offers your experts designed material which will gauge your understanding of various topics.
