

Latest 300-710 Demo | 300-710 Pass4sure Pass Guide

P.S. Free 2025 Cisco 300-710 dumps are available on Google Drive shared by Getcertkey: <https://drive.google.com/open?id=1V5i4-85JG9CmpkiZFRxPTkvmSaqJlc4>

Getcertkey aims to assist its clients in making them capable of passing the Cisco 300-710 certification exam with flying colors. It fulfills its mission by giving them an entirely free Securing Networks with Cisco Firepower (300-710) demo of the dumps. Thus, this demonstration will enable them to scrutinize the quality of the Cisco 300-710 Study Material. Your opportunity to survey the Cisco 300-710 exam questions before buying it will relax your nerves. The guarantee to give you the money back according to terms and conditions is one of the remarkable facilities of the Getcertkey.

Skills Measured by 300-710

To get the passing score in the official test, the candidates must address the following skills as described below:

- **Management & Troubleshooting** — here, candidates must show they have the ability to adjust dashboards & analytics in Firepower Management Center, troubleshoot problems with the help of GUI & FMC CLI, anticipate risks, create reports, and lastly, use packet capture methods to carry out troubleshooting.
- **Configuration** — under this exam category, examinees will have to tweak the system configurations of Cisco Firepower Management Center and set up policies such as SSL, intrusion, malware & file, access control, identity, DNS, and pre-filter necessary for the Cisco Firepower Management Center. What is more, applicants will have to be aware of how to use that Center to adjust numerous aspects such as correlation, network discovery, actions, application detectors & Open AppID, intrusion rules & objects, and tweak various devices including QoS, NAT, Platform Settings, VPN, Certificates, and Device Management.
- **Integration** — in the final domain, students must demonstrate their ability to deploy Threat Intelligence Director when investigating security intelligence feeds from third parties, use Firepower Management Center to tweak Cisco AMP for endpoints and networks, explain the Cisco Identify Services Engine (ISE) & the Cisco FMC PxGrid Integration, carry out security checks with the help of the Cisco Threat Response, and finally, detail the use of the Rapid Threat Containment (RTC) feature found inside FMC.
- **Deployment** — for the initial part, students must be able to incorporate NGFW modes such as transparent & routed ones, deploy NGIPS such as Inline & Passive, incorporate high availability facilities like standby/active failover, link redundancy, and multi-instance, and finally, explain IRB settings.

Cisco 300-710: Securing Networks with Cisco Firepower exam is one of the most sought-after certifications in the field of network security. Securing Networks with Cisco Firepower certification is designed to help professionals enhance their skills and knowledge in securing networks with Cisco Firepower solutions. 300-710 Exam validates the understanding of individuals in configuring, deploying, and managing Cisco Firepower NGIPS and NGFW solutions.

Cisco 300-710 exam covers a wide range of topics related to network security, including network security concepts, threat defense, and VPN technologies. 300-710 exam also covers advanced topics such as network access control, security intelligence, and advanced malware protection. 300-710 exam is designed to test the candidate's understanding of network security concepts and their ability to apply these concepts to real-world scenarios.

100% Pass Quiz Cisco - Useful Latest 300-710 Demo

Our users can prove to you that the hit rate of our 300-710 exam questions is very high. And you can just see the data how many customers are visiting our 300-710 study materials everyday. And the pass rate is also high as 98% to 100%. You can walk into the examination room with peace of mind, after which you will experience a very calm examination. As for the result, please come home and wait. Our 300-710 training prep will not disappoint you.

Cisco Securing Networks with Cisco Firepower Sample Questions (Q86-Q91):

NEW QUESTION # 86

What are the minimum requirements to deploy a managed device inline?

- A. passive interface, security zone, MTU, and mode
- B. inline interfaces, security zones, MTU, and mode
- C. inline interfaces, MTU, and mode
- D. passive interface, MTU, and mode

Answer: C

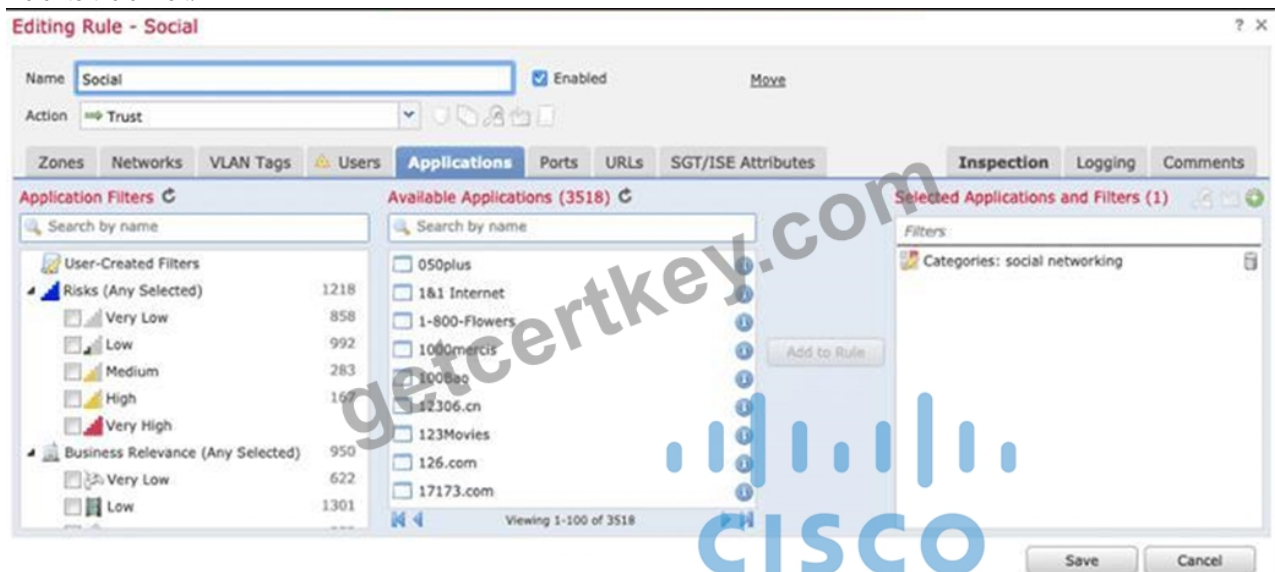

Explanation:

Section: Deployment

Explanation/Reference: https://www.cisco.com/c/en/us/td/docs/security/firepower/650/configuration/guide/fpmc-config-guide-v65/ips_device_deployments_and_configuration.html

NEW QUESTION # 87

Refer to the exhibit.

An organization has an access control rule with the intention of sending all social media traffic for inspection. After using the rule for some time, the administrator notices that the traffic is not being inspected, but is being automatically allowed. What must be done to address this issue?

- A. Change the intrusion policy to connectivity over security.
- B. Modify the rule action from trust to allow
- C. Add the social network URLs to the block list
- D. Modify the selected application within the rule

Answer: D

NEW QUESTION # 88

An engineer is configuring a multidomain instance of Cisco Secure Firewall Management Center. The instance must be integrated

with Cisco Secure Endpoint. What must the engineer configure to allow multiple domains to have hosts with the same IP-MAC address pairs?

- A. leaf domain
- B. subdomain
- C. second-level domain
- D. global domain

Answer: A

NEW QUESTION # 89

A company wants a solution to aggregate the capacity of two Cisco FTD devices to make the best use of resources such as bandwidth and connections per second. Which order of steps must be taken across the Cisco FTDs with Cisco FMC to meet this requirement?

- A. Configure the Cisco FTD interfaces and cluster members, add members to Cisco FMC, and create the cluster in Cisco FMC.
- B. Configure the Cisco FTD interfaces, add members to FMC, configure cluster members in FMC, and create cluster in Cisco FMC.
- C. Add members to Cisco FMC, configure Cisco FTD interfaces in Cisco FMC, configure cluster members in Cisco FMC, create cluster in Cisco FMC, and configure cluster members in Cisco FMC.
- D. Add members to the Cisco FMC, configure Cisco FTD interfaces, create the cluster in Cisco FMC, and configure cluster members in Cisco FMC.

Answer: D

NEW QUESTION # 90

An organization has seen a lot of traffic congestion on their links going out to the internet. There is a Cisco Firepower device that processes all of the traffic going to the internet prior to leaving the enterprise. How is the congestion alleviated so that legitimate business traffic reaches the destination?

- A. Create a NAT policy so that the Cisco Firepower device does not have to translate as many addresses
- B. Create a QoS policy rate-limiting high bandwidth applications
- C. Create a flexconfig policy to use WCCP for application aware bandwidth limiting
- D. Create a VPN policy so that direct tunnels are established to the business applications

Answer: B

NEW QUESTION # 91

.....

Getcertkey is a professional website to specially provide training tools for IT certification exams and a good choice to help you pass 300-710 exam, too. Getcertkey provide exam materials about 300-710 certification exam for you to consolidate learning opportunities. Getcertkey will provide all the latest and accurate exam practice questions and answers for the staff to participate in 300-710 Certification Exam.
