## 2026 100% Free AD0-E124 –Reliable 100% Free Updated Testkings | AD0-E124 Hot Spot Questions

Everyone is not willing to fall behind, but very few people take the initiative to change their situation. Take time to make a change and you will surely do it. Our AD0-E124 learning materials can give you some help. Our company aims to help ease the pressure on you to prepare for the exam and eventually get a certificate. Obtaining a certificate is equivalent to having a promising future and good professional development. Our AD0-E124 Learning Materials have a good reputation in the international community and their quality is guaranteed. Why don't you there have a brave attempt? You will certainly benefit from your wise choice.

## Adobe Experience Manager DevOps Engineer Expert Sample Questions (Q35-Q40):

NEW QUESTION # 35

A DevOps engineer is managing an AEM as a Cloud Service Sites environment for a customer. After development tested the Maven build locally, a new development pipeline is executed. The development pipeline fails in the build steps with the following errors:

```
[Queue Processor for Subscriber agent forwardPublisherSubscriber] org.apache.jackrabbit.vault.fs.io.Importer Error while processing..
```

Caused by: org.apache.sling.api.resource.PersistenceException: Unable to commit changes to session.

Caused by: javax.jcr.AccessDeniedException: OakAccess0000: Access denied Message: Error trying to extract package at path /etc/packages/com.myapp/myapp-base.content.zip.

What should the DevOps engineer do?

- A. Add ACLs for the sling-distribution-importer user via User Admin.
- B. Restart the sling-distribution-importer bundle via the OSGi Web Console.
- **C. Add ACLs for the sling-distribution-importer user via the repoint script.**
- D. Add ACLs for the sling-distribution-importer user via curl command.

**Answer: C**

Explanation:

In AEM as a Cloud Service, Sling Content Distribution is responsible for moving content and packages between tiers. If the sling-distribution-importer system user lacks the necessary Access Control Lists (ACLs) to write to specific paths, it will throw an AccessDeniedException during package installation. Because AEMaaS environments are ephemeral and access to traditional local consoles (like User Admin or CRXDE) is restricted or wiped out during updates, all system user creation and ACL configurations must be declared as code. The DevOps engineer must configure these permissions using OSGi factory configurations containing OSGi Repoint scripts.

#### NEW QUESTION # 36

The Agent User ID is used to collect and package the content on the AEM author instance.

What access is required for this account on the author instance?

- **A. Read access to all paths to be replicated**
- B. Write access on both author and publish instances
- C. Write access to all paths to be replicated
- D. Replicate access to all paths to be replicated

**Answer: A**

#### NEW QUESTION # 37

A DevOps engineer needs to delete an SSL certificate from Cloud Manager.

What should the DevOps engineer do?

- **A. Remove all domain names associated with the SSL certificate, then delete the certificate.**
- B. Disable the SSL certificate via the Cloud Manager UI, then delete the certificate.
- C. Archive the SSL certificate instead of deleting it.
- D. Open a support ticket via the Admin Console to have the SSL certificate removed from Cloud Manager.

**Answer: A**

#### NEW QUESTION # 38

A team is planning to migrate from an on-premise AEM instance to AEM as a Cloud Service.

What is the best strategy for this migration?

- A. Set up a new Cloud Manager environment and rebuild the site manually
- B. Modify the AEM Dispatcher rules to facilitate the migration
- C. Perform a manual export of content and configurations from the on-premise instance
- **D. Use the AEM Cloud Migration Tool to automate content and user migration**

**Answer: D**

### NEW QUESTION # 39

What are the key steps to configure a new Cloud Manager environment? (Choose three)

- A. Configure user access and permissions in Adobe Admin Console
- B. Install a new AEM instance manually
- C. Select the AEM version to be deployed
- D. Modify the /libs folder to store environment settings
- E. Define the environment type (Development, Stage, Production)

Answer: A,C,E

### NEW QUESTION # 40

.....

Our AD0-E124 exam questions generally raised the standard of practice materials in the market with the spreading of higher standard of knowledge in this area. So your personal effort is brilliant but insufficient to pass the Adobe Experience Manager DevOps Engineer Expert exam and our AD0-E124 test guide can facilitate the process smoothly & successfully. Our Adobe Experience Manager DevOps Engineer Expert practice materials are successful by ensuring that what we delivered is valuable and in line with the syllabus of this exam. And our AD0-E124 Test Guide benefit exam candidates by improving their ability of coping the exam in two ways, first one is their basic knowledge of it.
