## Salesforce Media Cloud Consultant Exam 認定 Media-Cloud-Consultant 試験問題 (Q49-Q54):

### 質問 # 49

A media cloud customer is already running advertising sales management (ASM) on an org and wants to upgrade from an older release. What should a consultant do before migration?

- A. customize or modify the newer ASM components
- B. activate custom lightning web components and FlexCards
- C. Take a backup of any customized or modified older ASM components
- D. take a backup of any newer ASM components

正解: C

解説:

Before migrating or upgrading Advertising Sales Management (ASM) in Salesforce Media Cloud, it's crucial to safeguard existing customizations and modifications. Taking a backup of any older ASM components that have been customized or modified ensures

that custom functionalities and integrations are preserved during the upgrade process. This step is essential to avoid data loss and to maintain the integrity of custom workflows, processes, and configurations that have been tailored to the business's unique requirements. #### 質問 # 50

In advertising sales management, what is the correct order to execution of the pre-built industries order management orchestration plan components?

- A. create order, create line items, add creative, approve order, activate order
- **B. create order, create line items, approve order, activate order, add creative**
- C. create line items, create order, approve order, activate order, add creative
- D. create line items, create order, add creative, approve order, activate order

正解: B

解説:

In Advertising Sales Management, the correct order of execution for the pre-built Industries Order Management orchestration plan components is: Create Order, Create Line Items, Add Creative, Approve Order, Activate Order (B). This sequence ensures that the foundational elements of an order are established first (the order itself and its line items), followed by the association of creative materials, and finally, the approval and activation of the order for execution. #### 質問 # 51

A consultant working on the implementation of media cloud for publishing company has been asked by an IT Manager at the publishing company to better understand the structure of media cloud data model. How should the consultant describe the characteristics of media cloud data model?

- **A. it is composed of custom and standard objects.**
- B. it is composed exclusively of custom objects
- C. it is composed exclusively of standard objects
- D. it is composed of custom objects with no extensions.

正解: A

解説:

The Salesforce Media Cloud data model is characterized by a blend of both custom and standard objects. This hybrid structure allows for the flexibility to tailor the platform to specific industry needs while leveraging the robust foundational features of Salesforce. Standard objects provide core CRM functionalities, such as accounts, contacts, and opportunities, which are essential for managing customer relationships and sales processes. Custom objects are added to support unique business requirements specific to the media and publishing industry, such as managing ad inventories, media plans, and ad sales. This combination ensures that Media Cloud can cater to the complex and specialized needs of media and publishing companies.

#### 質問 # 52

A consultant is working on a new implementation of media cloud for a company and is planning the migration of the data from the legacy solution to media cloud. Which consideration should the consultant take into account for a successful migration?

- A. consultant should identify the relevant legacy objects and create brand new custom objects for all those legacy objects
- B. consultant should identify the relevant legacy objects and map them exclusively to the sales cloud data model
- C. consultant should exclusively extend the media cloud data model standard object to map the legacy objects
- **D. consultant should identify the relevant legacy objects and use media cloud media data model objects with custom objects if required**

正解: D

解説:

For a successful migration from a legacy solution to Salesforce Media Cloud, it's important to first identify the relevant legacy data objects and then map them to the corresponding objects within the Media Cloud data model. This mapping may involve both standard objects provided by Media Cloud and custom objects that may need to be created to accommodate specific data or functionality not covered by the standard model. This approach ensures a seamless transition of data, preserving its integrity and maintaining continuity of operations. It's also crucial to consider the relationships between objects and any specific business logic that needs to be replicated or adapted in the new environment.

### 質問 # 53

A publishing company is evaluating Salesforce for the below functionalities: a) lead to opportunity b) case management c) a media-specific data model d) OmniStudio capabilities. What is the minimum Salesforce license a consultant should suggest?

- A. media cloud advanced
- B. media cloud growth
- C. media cloud publishing
- D. media cloud basic

正解: C

解説:

For a publishing company requiring functionalities like lead to opportunity, case management, a media-specific data model, and OmniStudio capabilities, the Media Cloud Publishing license is the most suitable. This license package is designed to cater to the unique needs of publishing companies, incorporating core Salesforce features along with media-specific enhancements and the advanced tools provided by OmniStudio for designing customer-centric experiences and workflows.
