## **TOP MCD-Level-1 Online Version 100% Pass | Latest MuleSoft Latest MuleSoft Certified Developer - Level 1 (Mule 4) Exam Online Pass for sure**

After taking a bird's eye view of applicants' issues, Pass4SureQuiz has decided to provide them with the real MCD-Level-1 Questions. These MuleSoft MCD-Level-1 dumps pdf is according to the new and updated syllabus so they can prepare for MuleSoft Certified Developer - Level 1 (Mule 4) (MCD-Level-1) certification anywhere, anytime, with ease. A team of professionals has made the product of Pass4SureQuiz after much hard work with their complete potential so the candidates can prepare for MuleSoft Certified Developer - Level 1 (Mule 4) (MCD-Level-1) practice test in a short time.

## **MuleSoft Certified Developer - Level 1 (Mule 4) Sample Questions (Q65-**

## Q70):

### NEW QUESTION # 65

Refer

to the exhibits. A web client submits a request to `http://localhost:8081/flights?destination=SFO` and the Web Service Consumer throws a WSC:BAD\_REQUEST error.

What is the next step to fix this error?

□

- A. set a SOAP payload before the Consume operation that contains the destination query parameter
- **B. Set a header In the Consume operation equal to the destination query parameter**
- C. set a property in the Consume operation equal to the destination query parameter
- D. set a JSON payload before the Consume operation that contains the destination query parameter

**Answer: B**

### NEW QUESTION # 66

A Mule application contains an ActiveMQ JMS dependency. The Mule application was developed in Anypoint Studio and runs successfully in Anypoint Studio.

The Mule application must now be exported from Anypoint Studio and shared with another developer.

What export options create the smallest JAR file that can be imported into the other developer's Anypoint Studio and run successfully?

□

- A. Option D
- **B. Option B**
- C. Option A
- D. Option C

**Answer: B**

### NEW QUESTION # 67

Refer to the exhibits.

□

The Validation component in the private flow throws an error. What response message is returned to a client request to the main flow's HTTP Listener?

- A. Validation Error
- B. Success - main flow
- C. Error - private flow
- **D. Error - main flow**

**Answer: D**

Explanation:

Error in validation component will get processed by Processor level On Error Propagate block and then error will be rethrown which will get processed by flow level error handler which will set payload to "Error- main flow". Hence correct answer is Error - main flow

1) Request is received by HTTP listener

2) Try scope gets executed

3) The validator component in the Try scope creates an Error Object because the payload is not null.

4) The On Error Propagate handles the error. The payload is set to "Error - Try scope"

6) "Error - Try scope" is returned to the 'On Error Continue' block. Main flow execution stops. Payload is set to "Error - main flow"

7) "Error - main flow" is returned to the requestor in the body of the HTTP request. HTTP Status Code: 200

-----  
---- Reference Diagram though not exactly same, conditions are similar. They will help you answer any new question on error handling in real exam:

### NEW QUESTION # 68

Refer to the exhibits. APIKit router is used to generate the flow components for RAML specification.

The Mule application must be available to REST clients using the two URL's

<http://localhost:8081/internal>

and <http://localhost:8081/external>

How many APIKit Router components are generated to handle requests to every endpoint defined in RAML specification?

1. Library.raml
2. /books
3. get:
4. post:
5. /order:
6. get
7. patch
8. /members
9. get:

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

### NEW QUESTION # 69

A Utility.dwl file is located in a Mule project at src/main/resources/modules. The Utility.dwl file defines a function named pascalize that reformats strings to pascal case.

What is the correct DataWeave to call the pascalize function in a Transform Message component?

- ☐ A)
- ☐ B)
- ☐ C)
- ☐ D)

- A. Option D
- B. Option B
- C. Option A
- D. Option C

**Answer: B**

### NEW QUESTION # 70

.....

To advance your career, take the MuleSoft Certified Developer - Level 1 (Mule 4) exam. Your MuleSoft Certified Developer - Level 1 (Mule 4) demonstrates your commitment to lifelong learning. Passing the MuleSoft Certified Developer - Level 1 (Mule 4) exam in one sitting is not a walk in the park. The MuleSoft MCD-Level-1 exam preparation process takes a lot of time and effort.
