Pegasystems PEGACPBA24V1 Exam Syllabus Topics:

Topic	Details
Topic 1	• User Experience: This domain assesses skills of UX Designers and Frontend Developers in configuring user interface elements. Candidates learn to group fields to create views, add or remove fields, configure portal content, adjust form appearance, visibility, and controls for an improved user experience.

Topic 2	• Application Development: This section evaluates skills of Pega Business Architects and Developers in application development. It covers the roles and skills of a Pega Business Architect, identification of project stakeholders, and benefits of Pega's Center-out™ business architecture. Candidates learn about App Studio's value, understand rules, rulesets, classes, and the role of generative AI. The domain also covers Pega's CI • CD pipeline with Deployment Manager, use of collaboration tools, managing application development with user stories, feedback, and bug tracking, and using tools like Case Type Backlog and Estimator for project scoping.
Topic 3	• Security: Designed for Security Analysts and Access Managers, this domain covers the relationship between personas, operators, and access groups within Pega. Candidates articulate the difference between authorization and authentication and understand their applications.
Topic 4	• Data and Integration: This section measures skills of Data Analysts and Integration Specialists focusing on configuring data objects, relationships, and records. Candidates learn to capture and present data through fields and views, create calculated values, validate data with business logic rules, manipulate application data including setting default property values, and configure data transforms.

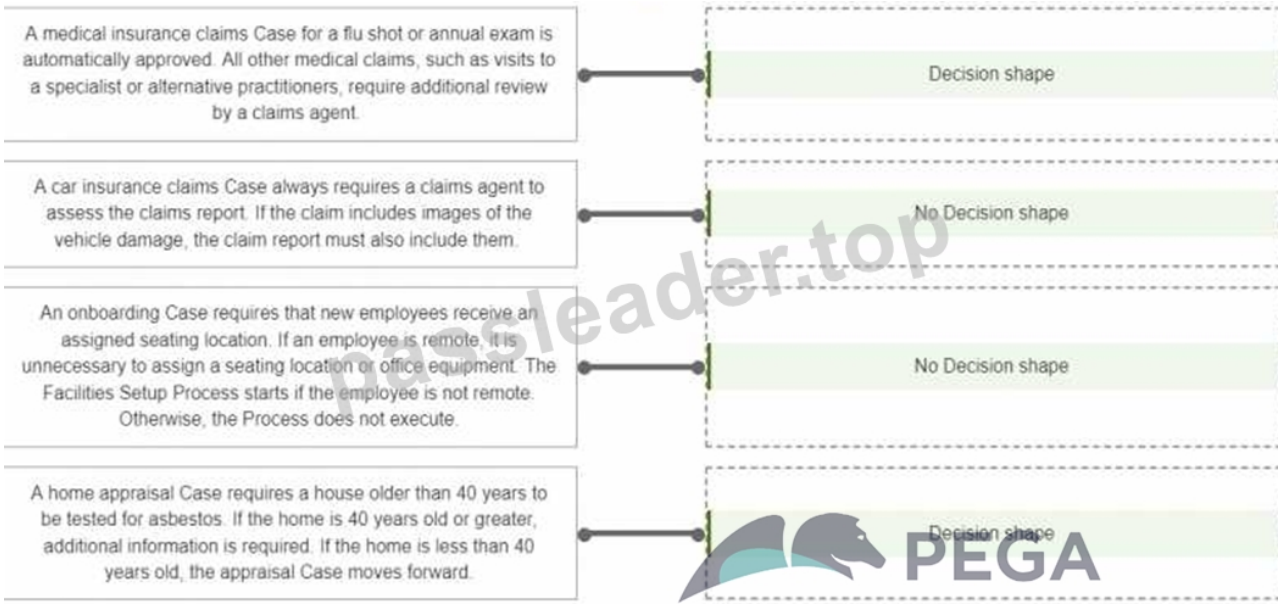
passleader.top

Solution:



passleader.top

Determine whether the given solution is correct? Response:

- A. Incorrect
- B. Correct

Answer: B

NEW QUESTION # 49
When modeling the life cycle of a case, alternate stages _____ and _____.
(Choose Two)
Response:

- A. represent exceptions to the normal course of events
- B. have manual access
- C. can be sequenced in to primary stages
- D. represent a separate, but related business transaction

Answer: A,C

NEW QUESTION # 50
....application grants 75 employees access to one of four personas: Admin, Author, User, and Manager. A new analyst who joins the company requires all the .. of the Author persona, but only some of the reporting features are available to the Manager persona. o you satisfy this security requirement?

- A. Add the analyst to the Author persona.
- B. Update the Author persona to include the required analyst reports.
- C. Create a new Analyst persona with the required access.
- D. Add the analyst to both the Author persona and Manager persona.

Answer: C

Explanation:
* Create a new Analyst persona with the required access: To meet the specific security requirements of the new analyst, it is best practice to create a new persona that combines the necessary permissions from both the Author and Manager personas. This ensures that the analyst has tailored access to the features they need without altering existing personas or adding overlapping roles.
* Pega Academy, Role-Based Access Control, Persona Management.

NEW QUESTION # 51
.....
