Free PDF Juniper JN0-481 First-grade Data Center, Specialist (JNCIS-DC) Reliable Exam Registration

BTW, DOWNLOAD part of BootcampPDF JN0-481 dumps from Cloud Storage: https://drive.google.com/open?id=1CDl-N4Dx4-GBdM8m9x8goVF0F4t5OdWt

What is more, we have free demos are freebies for your information. In case you are tentative about their quality, we give these demos form which you could get the brief outline and questions closely related with the JN0-481 practice materials. Only by practising them on a regular base, you will see clear progress happened on you. Besides, rather than waiting for the gain of our JN0-481 practice materials, you can download them immediately after paying for it, so just begin your journey toward success now.

JN0-481 test materials are famous for instant access to download. And you can obtain the download link and password within ten minutes, so that you can start your learning as quickly as possible. JN0-481 exam dumps are verified by professional experts, and they possess the professional knowledge for the exam, therefore you can use them at ease. In order to let you know the latest information for the exam, we offer you free update for one year, and our system will send the latest version for JN0-481 Exam Dumps to your email automatically.

JN0-481 Valid Exam Camp Pdf - JN0-481 Pass Leader Dumps

It is a challenging exam and not a traditional exam. But complete Juniper JN0-481 exam preparation can enable you to crack the Juniper JN0-481 exam easily. For the quick and complete Data Center, Specialist (JNCIS-DC) (JN0-481) exam preparation you can trust JN0-481 Exam Practice test questions. The Juniper JN0-481 exam practice test questions have already helped many Juniper JN0-481 exam candidates in their preparation and success.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q26-Q31):

NEW QUESTION # 26
You are using Juniper Apstra to design a data center fabric. In this scenario, which object type associates a specific vendor model to a logical device?

- A. templates
- B. interface map
- C. agent profiles
- D. device profiles

Answer: D

Explanation:
Device profiles are objects that associate a specific vendor model to a logical device in Juniper Apstra. Device profiles contain extensive hardware model details, such as form factor, ASIC, CPU, RAM, ECMP limit, and supported features. Device profiles also define how configuration is generated, how telemetry commands are rendered, and how configuration is deployed on a device. Device profiles enable the Apstra system to render and deploy the configuration according to the Apstra Reference Design.

NEW QUESTION # 27
You are adding a new switch to Juniper Apstra software. The Managed Devices page shows the "0 OS- Quarantined" status. What is the proper next step to make the device ready for use in a blueprint?

- A. Install the agent for the device.
- B. Take the device out of maintenance mode.
- C. Acknowledge the device.
- D. Take the device out of drain state.

Answer: C

Explanation:
When a new switch is added to Juniper Apstra software, it initially shows the "0 OS-Quarantined" status, which means that the device is not yet managed by Apstra and has not been assigned to any blueprint. The proper next step to make the device ready for use in a blueprint is to acknowledge the device, which is a manual action that confirms the device identity and ownership. Acknowledging the device changes its status to "OOS-Ready", which means that the device is ready to be assigned to a blueprint and deployed.

NEW QUESTION # 28
Which statement is correct about making changes to a predefined device profile in Juniper Apstra?

- A. Changing the predefined device profile will also affect deployed devices that use the same profile.
- B. You must reboot the Apstra server after changes are made to a predefined device profile before they will become active.
- C. The changes you make to a predefined device profile will be discarded and overwritten when upgrading the Apstra server version.
- D. The processor load on the Apstra server will be negatively impacted when changes are made to a predefined device profile.

Answer: C

Explanation:
A predefined device profile is a configuration template that is shipped with Apstra software and supports most qualified Juniper devices. A predefined device profile cannot be changed, since any changes would be discarded and overwritten when you upgrade the Apstra server version. If you want to customize a predefined device profile, you can clone and edit it instead.

NEW QUESTION # 29
You connect two single-homed servers using Juniper Apstra as shown in the exhibit. You are using the ERB design blueprint with two virtual networks in a common routing zone. In this scenario, which two types of VXLAN tunnels will be automatically created by the EVPN control plane? (Choose two.)

- A. EVPN signaled route Type-6 VXLAN tunnels
- B. EVPN signaled route Type-8 VXLAN tunnels
- C. EVPN signaled route Type-3 VXLAN tunnels
- D. EVPN signaled route Type-2 VXLAN tunnels

Answer: C,D

Explanation:
EVPN route Type-3 is used to advertise the IP address of the VTEP and the VNIs that it supports.
This allows the VTEPs to discover each other and form VXLAN tunnels for the VNIs that they have in common. EVPN route Type-2 is used to advertise the MAC and IP addresses of the hosts connected to the VTEPs. This allows the VTEPs to learn the MAC-to-IP bindings and the MAC-to- VTEP mappings for the hosts in the same VNI. Therefore, these two types of VXLAN tunnels will be automatically created by the EVPN control plane when using Juniper Apstra with the ERB design blueprint and two virtual networks in a common routing zone.

NEW QUESTION # 30
Referring to the exhibit, what needs to change in the IP fabric to make it a valid IP fabric?

- A. The connection between the two spine nodes must be increased to 40 Gbps.
- B. The connection between the two spine nodes must be removed.
- C. The IP fabric connections must be increased to a speed greater than 10 Gbps.
- D. The IP fabric must consist of only one device model throughout the fabric.

Answer: B

Explanation:
To make the IP fabric a valid IP fabric, the connection between the two spine nodes must be removed. This is because an IP fabric is a network topology that uses a spine-leaf architecture, where the spine devices are only connected to the leaf devices, and the leaf devices are only connected to the spine devices. This creates a non-blocking, high-performance, and scalable network that supports Layer 3 routing protocols such as BGP or OSPF. The connection between the two spine nodes in the exhibit violates the spine-leaf design principle and introduces unnecessary complexity and potential loops in the network.

NEW QUESTION # 31
.....

The BootcampPDF Data Center, Specialist (JNCIS-DC) (JN0-481) PDF dumps file work with all devices and operating system. You can easily install Data Center, Specialist (JNCIS-DC) (JN0-481) exam questions file on your desktop computer, laptop, tabs, and smartphone devices and start Data Center, Specialist (JNCIS-DC) (JN0-481) exam dumps preparation without wasting further time. Whereas the other two BootcampPDF Juniper JN0-481 Practice Test software is concerned, both are the mock Data Center, Specialist (JNCIS-DC) (JN0-481) exam that will give you a real-time JN0-481 practice exam environment for preparation.

JN0-481 Valid Exam Camp Pdf: https://www.bootcamppdf.com/JN0-481_exam-dumps.html

So the high efficient and professional JN0-481 training materials are a prerequisite of smooth success of the exam, They will purchase JN0-481 actual test dumps pdf soon since they know the exam cost is very expensive and passing exam is really difficult, if they fail again they will face the third exam, An email attached with the dumps will be sent to you as soon as you pay, so you can download the Juniper JN0-481 practice dumps immediately, then devote yourself in the study with no time waste.

In some cases, where the design varies from page to page, that may be the right JN0-481 Reliable Exam Registration approach, when you run into problems or limitations of your Google Nexus tablet or its apps, and you need to figure out what to do Tips and Notes.

Free PDF Juniper - JN0-481 - Newest Data Center, Specialist (JNCIS-DC) Reliable Exam Registration

So the high efficient and professional JN0-481 Training Materials are a prerequisite of smooth success of the exam, They will purchase JN0-481 actualtest dumps pdf soon since they know the exam cost is JN0-481 very expensive and passing exam is really difficult, if they fail again they will face the third exam.

An email attached with the dumps will be sent to you as soon as you pay, so you can download the Juniper JN0-481 practice dumps immediately, then devote yourself in the study with no time waste.

The advantage is that you do not need to queue up but to get JN0-481 exam study material within 10 minutes, We will provide you with JN0-481 latest test collection and JN0-481 test pass guide to help you pass the exam easily.
