

# Brain Dump 1Z1-771 Free, Valid 1Z1-771 Test Discount

P.S. Free & New 1Z1-771 dumps are available on Google Drive shared by TestPassKing: [https://drive.google.com/open?id=1AVtHaJyiukyZkSVVl4k0NM6ama2\\_tQK](https://drive.google.com/open?id=1AVtHaJyiukyZkSVVl4k0NM6ama2_tQK)

In today's society, many people are busy every day and they think about changing their status of profession. They want to improve their competitiveness in the labor market, but they are worried that it is not easy to obtain the certification of 1Z1-771. Our study tool can meet your needs. Once you use our 1Z1-771 exam materials, you don't have to worry about consuming too much time, because high efficiency is our great advantage. You only need to spend 20 to 30 hours on practicing and consolidating of our 1Z1-771 learning material, you will have a good result. After years of development practice, our 1Z1-771 test torrent is absolutely the best. You will embrace a better future if you choose our 1Z1-771 exam materials.

## Oracle 1Z1-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.</li> </ul>

## Become Proficient to Pass the Exam with Updated 1Z1-771 Exam Dumps

When you get the 1Z1-771 study practice, do not think it is just the exam questions & answers. We provide you with the most accurate training material and guarantee for pass. The Oracle 1Z1-771 explanations is together with the answers where is available and required. All the contents of TestPassKing 1Z1-771 Complete Exam Dumps are compiled to help you pass the exam with ease. In addition, to ensure that you are spending on high quality 1Z1-771 exam dumps, we offer 100% money back in case of failure.

## Oracle APEX Cloud Developer Professional Sample Questions (Q38-Q43):

### NEW QUESTION # 38

What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. Existing Push Subscriptions for the application will be invalidated.
- B. Push Notifications will be disabled for the application.
- C. A new notification server must be created.

**Answer: A**

### NEW QUESTION # 39

You need to ensure that "How may I help you today?" is the first message displayed by the AI assistant. Which attribute of the Show AI Assistant Dynamic Action should be configured in the Property Editor to achieve this?

- A. Initial Prompt
- B. Welcome Message
- C. AI Assistant Name

**Answer: B**

Explanation:

The Show AI Assistant Dynamic Action in Oracle APEX triggers the display of the AI Assistant interface. To customize the first message users see:

Welcome Message: This attribute in the Property Editor defines the initial text displayed when the AI Assistant appears. Setting it to "How may I help you today?" ensures this exact phrase greets users, enhancing user experience by setting a friendly tone. It's a static, developer-defined string, distinct from AI-generated responses.

Initial Prompt: This attribute defines the starting input or context sent to the AI model, not the visible message shown to users. It's typically hidden and used to guide the AI's behavior (e.g., "Act as a support agent").

AI Assistant Name: This sets the assistant's identity (e.g., "Alex"), displayed in the UI, but it's not the greeting message.

This configuration is critical for branding or guiding user interaction from the outset, and it's adjustable per dynamic action instance, offering flexibility across pages.

### NEW QUESTION # 40

Which two approaches can be used to create custom stored procedures in SQL Workshop?

- A. Using Object Browser
- B. Using SQL Scripts
- C. Using Data Workshop
- D. Using Quick SQL

**Answer: A,B**

Explanation:

In SQL Workshop, custom stored procedures can be created using:

SQL Scripts: Allows developers to write and execute PL/SQL code directly to define stored procedures.

Object Browser: Provides a GUI to create and edit database objects, including stored procedures, by defining their specifications and bodies.

Quick SQL is for generating table DDL, not stored procedures, and Data Workshop is for loading/unloading data, not creating

procedures.

#### NEW QUESTION # 41

You use the Create Page Wizard to create a faceted search page on the EMP table. What is the default report type generated for this page?

- A. Interactive Grid
- B. Column Toggle Report
- C. Classic Report
- D. **Interactive Report**

#### Answer: D

Explanation:

When creating a faceted search page via the Create Page Wizard, the default report type is an Interactive Report. This pairs with the faceted search region to provide a searchable, filterable, and customizable report, leveraging the facets for dynamic filtering.

#### NEW QUESTION # 42

Which statement is true about the Link Column attributes of an Interactive Report?

- A. A Link Column cannot be sorted, hidden, or moved by an end user.
- B. It is not possible to include a custom target in Link Column.
- C. **It is not possible to exclude Link Column.**
- D. If you select Link Column, it is always displayed as the last column in the report.

#### Answer: C

Explanation:

The Link Column in an Interactive Report adds a clickable link to each row. The true statement is:

It is not possible to exclude Link Column: Once defined in the report attributes, the Link Column is mandatory and cannot be hidden or excluded via end-user controls (e.g., Column Management). It's always rendered unless removed by the developer.

Custom target: False; custom targets (e.g., URLs, pages) can be defined.

Always last column: False; its position is configurable.

Cannot be sorted/hidden/moved: False; end users can sort or move it, though hiding is restricted.

This behavior ensures consistent navigation in reports.

#### NEW QUESTION # 43

.....

This is a simple and portable document of real Oracle 1Z1-771 Exam Questions. It contains actual Oracle 1Z1-771 exam questions and answers and can be helpful for quick revision or for studying on the go. It is also printable so you can easily study on a hard copy of the pdf having a break from staring.
