Pass Exam Without Hardships With Juniper JN0-232 Exam Questions

If you want to be familiar with the real test and grasp the rhythm in the real test, you can choose our JN0-232 exam test engine to practice. Both our soft test engine and app test engine provide the exam scene simulation functions. You set timed JN0-232 test and practice again and again. Besides, JN0-232 exam test engine cover most valid test questions so that it can guide you and help you have a proficient & valid preparation process.

Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q118-Q123):

NEW QUESTION # 118

Your manager asks you to ping 192.0.2.128. The ping fails and you do not know why, so you enable a trace option on your SRX Series Firewall.

Referring to the exhibit, what is the reason for this behavior?

- A. It is matching an ALG.
- B. There is no known route.
- C. It is matching a screen.
- D. It is matching a Web filter.

Answer: B

Explanation:

The trace output shows the message "packet dropped, drop by firewall check" followed by "flow find session returns error", which indicates that the SRX could not find a valid route (RIB lookup failed) for the destination IP 192.0.2.128. When no route exists to the destination, the SRX drops the packet before creating a session. Therefore, the ping fails due to the absence of a known route.

NEW QUESTION # 119

Click the Exhibit button.

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. The URL matches a predefined Web filtering category.
- B. This is a custom Web filtering block message.
- C. The NextGen Web Filtering type is being used.
- D. The SRX firewall does not have an SSL proxy configuration.

Answer: A,C

Explanation:

From the exhibit:

* The user attempted to access <https://www.wikipedia.org>.

* The block page indicates:

* CATEGORY: NG_Reference

* REASON: BY_PRE_DEFINED

* The header states: "Juniper Web Filtering has been set to block this site." Analysis of options:

* Option A: Correct. The log shows "REASON: BY_PRE_DEFINED," which means the site was blocked because it matched a predefined category in the Web filtering database.

* Option B: Correct. The category "NG_Reference" indicates that the NextGen (Enhanced/Cloud-based) Web Filtering type is being used.

* Option C: Incorrect. The exhibit does not provide any information about SSL proxy configuration; it only shows that the HTTPS site was blocked.

* Option D: Incorrect. The block page shown is the standard Juniper default block page, not a custom message.

Correct Statements: The URL matches a predefined Web filtering category, and the NextGen Web Filtering type is being used.

NEW QUESTION # 120

What is a purpose for creating multiple routing instances on an SRX Series Firewall device?

- A. to simplify the configuration of network interfaces
- B. to manage routing protocols and updates
- C. to enable network monitoring through SNMP
- D. to maintain separation of routing information for security purposes

Answer: D

Explanation:

Multiple routing instances are used to isolate and separate routing tables, enabling logical segmentation of traffic for security and traffic separation purposes on the SRX Series Firewall.

NEW QUESTION # 121

Which two statements correctly describe static NAT? (Choose two.)

- A. It performs PAT.
- B. No address pools are necessary.
- C. It requires address ranges of the same size.
- D. Address pools are necessary.

Answer: B,C

Explanation:

Static NAT requires equal-sized internal and external address ranges to maintain one-to-one address mapping.

Static NAT does not require address pools because each internal address is permanently mapped to a specific external address.

NEW QUESTION # 122

When does screening occur in the flow module?

- A. during route lookup
- B. after session lookup
- C. before session lookup
- D. during policy lookup

Answer: C

Explanation:

Screening in the flow module occurs before session lookup, allowing the device to drop unwanted or malicious traffic early in the processing path before any session is created.

NEW QUESTION # 123

.....

As the saying goes, practice makes perfect. We are now engaged in the pursuit of Craftsman spirit in all walks of life. Professional and mature talents are needed in each field, similarly, only high-quality and high-precision JN0-232 practice materials can enable learners to be confident to take the qualification examination so that they can get the certificate successfully, and our JN0-232 learning materials are such high-quality learning materials, it can meet the user to learn the most popular test site knowledge. Because our experts have extracted the frequent annual test centers are summarized to provide users with reference. Only excellent learning materials such as our JN0-232 practice materials can meet the needs of the majority of candidates, and now you should make the most decision is to choose our products.
