

C-WME-2506 Valid Test Objectives & C-WME-2506 Latest Test Fee

Download Valid SAP C_WME_2506 Exam Dumps for Best Preparation

1. How does WalkMe's Digital Experience Analytics (DXA) support organizations?

- A. By replacing all manual processes with automation
- B. By tracking how users interact with predefined on-screen elements
- C. By creating new applications to replace existing ones
- D. By eliminating the need for employee training

Answer: B

2. Your company just provided you with the new company logo that they want you to use in all of your WalkMe deployables.

Where is the best place to store the logo?

- A. The Asset Library
- B. WalkMe Admin Center
- C. Local Settings
- D. Engaged Elements

Answer: A

3. You are building a WalkMe solution to help your users self-serve and prevent common support tickets from being opened repeatedly. You want to add guidance for the top three support tickets to a page on your website and make it stand out for the end user.

What is the best solution to allow for quick and easy access?

- A. Create a Survey to ask end users about their feedback.
- B. Create a Mini Menu of content from the top three support tickets and place it next to the support ticket form.
- C. Add it to your list of WalkMe content in the Menu.
- D. Create a large ShoutOut to appear in the middle of the page each time the user visits the page.

Answer: B

4. How does WalkMe help organizations enforce policy and compliance requirements?

- A. By automatically restricting employees from using external software
- B. By monitoring employees through real-time video feeds
- C. By disabling access to all non-compliant employees
- D. By displaying pop-ups for policy acknowledgment and using invisible Launchers to block sensitive fields

Answer: D

5. What are the key capabilities of WalkMe's Analytics tools? Note: There are 3 correct answers to this question.

- A. Tracking user engagement with on-screen guidance
- B. Automatically deleting unused software from the tech stack
- C. Preventing users from accessing certain applications
- D. Identifying workflow friction points and adoption gaps
- E. Providing real-time insights into software usage and process efficiency

Answer: A, D, E

2 / 4

The language is easy to be understood and makes the learners have no learning obstacles. So our C-WME-2506 Exam Torrent can help you pass the exam with high possibility.

SAP C-WME-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Starting your Digital Adoption Journey: WalkMe Fundamentals: This section of the exam measures the skills of SAP project managers and covers the foundational concepts of digital adoption within SAP environments using WalkMe. Candidates are expected to understand the value of digital adoption platforms, the basic components of WalkMe, and how these tools align with business goals. The section emphasizes knowledge of the user experience within SAP and the ability to identify opportunities for improving digital workflows through in-app guidance and automation.
Topic 2	<ul style="list-style-type: none"> Advancing your Skills in Building WalkMe Solutions: This section of the exam tests the advanced competencies of functional and business analysts in designing more complex and customized WalkMe solutions within SAP platforms. It requires a deeper understanding of user segmentation, advanced rules and triggers, performance optimization, and the use of analytics to refine user experiences. Candidates are expected to demonstrate their ability to design scalable and impactful guidance that aligns with SAP business processes and drives user adoption across the enterprise.
Topic 3	<ul style="list-style-type: none"> Getting Started with Building WalkMe Solutions: This section of the exam evaluates the capabilities of WalkMe implementers and focuses on the practical aspects of creating and configuring WalkMe solutions. It includes understanding the WalkMe Editor, planning solution flows, creating Smart Walk-Thrus, Launchers, and ShoutOuts, and managing end-user guidance effectively. Candidates should be comfortable building initial WalkMe experiences that improve SAP usability and provide contextual help for users navigating SAP applications.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q22-Q27):

NEW QUESTION # 22

Which components should we consider mandatory for all Smart Walk-Thrus? Note: There are 2 correct answers to this question.

- A. Goals
- B. Start Points
- C. Automation
- D. Splits

Answer: A,B

Explanation:

All Smart Walk-Thrus require two mandatory components to function effectively:

* Start Points(A): Define where and when a Smart Walk-Thru begins, ensuring it triggers appropriately (e.g., on a specific page or action).

* Goals(B): Measure the success of the Smart Walk-Thru by tracking whether users complete the intended process, providing critical analytics in Insights.

The other options are not mandatory:

* Splits(C) are optional for handling alternate paths, not required for all Smart Walk-Thrus.

* Automation(D) is an optional feature for automating user actions, not essential.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2: Smart Walk-Thrus):

"Every Smart Walk-Thru must include Start Points to define initiation conditions and Goals to track process completion, ensuring functionality and measurable outcomes." The course Getting Started with Building WalkMe Solutions states:

"Smart Walk-Thrus require Start Points to control when they begin and Goals to evaluate their effectiveness, forming the foundation of any guided process." Options A and B are the mandatory components.

SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2: Smart Walk-Thrus.

WalkMe Editor User Guide, "Smart Walk-Thru Components" Section.

Course: Getting Started with Building WalkMe Solutions, Module 6: Building Smart Walk-Thrus.

NEW QUESTION # 23

Which steps would you take to publish items to Production that you add to the user-facing Menu in the Menu Organizer?

- A. Adding an item to the user-facing Menu and clicking Save automatically publishes it to Production.
- **B. Manually publishing the item to Production after adding it to the Menu Organizer and saving it.**
- C. Changing the name of an added item in the Menu Organizer publishes it to Production.
- D. Adding items to the user-facing Menu are automatically published to Production.

Answer: B

NEW QUESTION # 24

Your product team released a new feature last month and would like to get end user feedback within Insights.

Which of the options below is the best approach?

- A. Create a Survey and place it in the WalkMe Menu.
- B. Use a Shuttle linking to a Google Form with detailed questions.
- C. Use a 3rd party survey tool and send it to your users in an automated email campaign.
- **D. Add a ShoutOut on the feature page that activates a WalkMe Survey with multiple questions.**

Answer: D

NEW QUESTION # 25

You're getting ready to plan your next build. What data/section in Insights can you use to help you Capacitor determine which content your end users may need you to build next?

- A. Total Menu Opens
- B. Text and Multilanguage
- **C. What Users Are Searching For**
- D. Activity Log

Answer: C

Explanation:

The WalkMe Insights platform is designed to provide actionable data to optimize digital adoption by identifying user behavior and content needs. The "What Users Are Searching For" section in Insights specifically tracks search terms entered by end users in the WalkMe Menu, revealing what content or guidance they are seeking. This data is critical for planning future builds because it highlights gaps in existing content or areas where users need additional support. For example, if many users search for "profile settings" but find no relevant content, this indicates a need to build guidance for that process.

In the context of the question, "What Users Are Searching For" directly informs the WalkMe Builder about user pain points and content demands, unlike the other options:

* Total Menu Opens only shows how often the WalkMe Menu is accessed, not what users are looking for.

* Activity Log provides a record of user interactions with WalkMe content but doesn't specifically highlight search behavior or content needs.

* Text and Multilanguage relates to content localization settings, not user behavior or content planning.

Extract from Official WalkMe Documentation:

According to the WalkMe Insights User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 3.2: Analytics and Reporting):

"The 'What Users Are Searching For' report in Insights displays the search terms entered by end-users in the WalkMe Menu, along

with metrics such as the percentage of searches resulting in no action. This report helps Builders identify content gaps and prioritize new builds based on user demand." Additionally, the course Advancing Your Skills in Building WalkMe Solutions emphasizes: "Leveraging Insights data, particularly the 'What Users Are Searching For' section, enables Builders to align content creation with user needs, ensuring proactive digital adoption support." This confirms that option C is the correct choice, as it directly correlates with determining future content needs based on user search behavior.

Course: Advancing Your Skills in Building WalkMe Solutions, Module 4: Using Insights for Content Planning.

NEW QUESTION # 26

Which of the following is a capability of WalkMe's Smart Walk-Thru?

- A. Blocking users from making changes to the software
- **B. Providing step-by-step on-screen guidance in real time**
- C. Preventing users from interacting with pop-ups
- D. Removing unused applications from the tech stack

Answer: B

NEW QUESTION # 27
