

Valid H31-341_V2.5-ENU Mock Exam, H31-341_V2.5-ENU Valid Test Materials

What's more, part of that Real4dumps H31-341_V2.5-ENU dumps now are free: https://drive.google.com/open?id=1S9T7UM0MEDRcbjIGeLVnfkD_bMPPiStQ

We offer free demos as your experimental tryout before downloading our real H31-341_V2.5-ENU actual exam. And as the H31-341_V2.5-ENU exam braindumps have three versions: the PDF, Software and APP online. Accordingly we have three kinds of the free demos for you to download. For more textual content about practicing exam questions, you can download our H31-341_V2.5-ENU Training Materials with reasonable prices and get your practice begin within 5 minutes.

Huawei H31-341_V2.5 (HCIP-Transmission V2.5) Certification Exam is designed for professionals who want to demonstrate their knowledge and skills in the field of transmission network planning, design, optimization, and maintenance. HCIP-Transmission V2.5 certification exam is intended for individuals who are responsible for the operation and maintenance of transmission networks in various industries, including telecommunications, broadcasting, and power utilities.

Passing the H31-341_V2.5 Exam is a testament to the candidate's understanding of transmission network technology and their ability to apply this knowledge in real-world scenarios. HCIP-Transmission V2.5 certification is highly sought after by employers, as it demonstrates that the candidate has the necessary skills and knowledge to handle complex transmission network projects. It is a great way for transmission network professionals to enhance their career prospects and increase their earning potential.

H31-341_V2.5-ENU Valid Test Materials | H31-341_V2.5-ENU Valid Exam Fee

It is time for you to plan your life carefully. After all, you have to make money by yourself. If you want to find a desirable job, you must rely on your ability to get the job. Now, our H31-341_V2.5-ENU study materials will help you master the popular skills in the office. Believe it or not, our H31-341_V2.5-ENU Study Materials will relieve you from poverty. It is important to make large amounts of money in modern society.

Huawei H31-341_V2.5 certification exam consists of multiple-choice questions, and the duration of the exam is 90 minutes. Candidates are required to score at least 60% to pass the exam. H31-341_V2.5-ENU Exam covers a wide range of topics, including Optical Fiber Communication Principles, Ethernet Technology, WDM Technology, MPLS Technology, SDH Technology, and Transmission Network Planning and Design.

Huawei HCIP-Transmission V2.5 Sample Questions (Q24-Q29):

NEW QUESTION # 24

Which of the following are the commissioning principles for the fiber-in optical power? (Multiple choice)

- A. The principle of fiber input power index and downstream optical amplifier adjustment is to ensure that the fiber input power index meets the requirements.
- B. The index value of incoming fiber power adopts the main incoming fiber power of each fiber by default.
- C. The index value of fiber-entry power adopts the non-standard fiber-entry power of each fiber by default.
- D. It is recommended that the index value of the incoming fiber optical power be adjusted strictly according to the network design documents.

Answer: A,B,D

NEW QUESTION # 25

What items does the network reference model of PWE3 include? (Multiple choice)

- A. PE
- B. PW
- C. Tunnel
- D. CE

Answer: A,B,C,D

NEW QUESTION # 26

Which of the following service types supported by the PND2 board used by the OSN 8800? (Multiple choice)

- A. EPLAN
- B. EPL
- C. VPLS
- D. VPwS

Answer: C,D

NEW QUESTION # 27

FILL BLANK

ODUk SNCP has three subtypes: _____, _____, and _____. (Enter the acronyms in uppercase letters.)

Answer:

Explanation:

SNC, ISNC, SISNC/N Explanation:

The ODUk SNCP service defines three protection subtypes:

SNC (Subnetwork Connection)

ISNC (Inverse SNC)

SISNC (Simultaneous Inverse SNC)

NEW QUESTION # 28

WDM systems generally use DCMs to compensate for chromatic dispersion. Which of the following statements about DCM-based dispersion compensation is false?

- A. If the DCM configuration is false, the receive-end performance will deteriorate.
- B. If the DCM configuration is incorrect, the system OSNR will deteriorate.
- C. For a 10G system with a fiber length shorter than 400 km, G.652-specific DCMs can be used to compensate for dispersion in G.655 (Leaf) optical fibers.
- D. Compared with line transmission optical fibers, DCMs are prone to non-linear effects. Therefore, the incident optical power of the DCMs must be controlled.

Answer: C

Explanation:

G.652-specific DCMs are designed for standard single-mode fibers and generally cannot properly compensate dispersion in G.655 (Leaf) fibers, which have different dispersion characteristics. Using G.652 DCMs for G.655 fiber compensation is therefore incorrect.

NEW QUESTION # 29
